NAMES HOOVER BACKERS.

Campaign Manager Announces Personnel of State Finance Committees.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, March 19.—Ralph P. Merritt, manager of the Hoover-for-President campaign in California, today announced finance committees for California as follows:

Northern California—Edward L. Eyre, chairman; Mark L. Gerstle, E. C. Bradley, George Rolph, Marshal Hale, Dr. Dora Castle, Miss Julia George, San Francisco; George P. McNear, Petaluma; Milo Bowell, Fresno; G. A. Turner, Stockton; Frank Cressy, Jr., Modesto; George Starr, Grass Valley.

Southern California—H. W. Frank, chairman; E. P. Clark, Dr. W. G. Cochran, Herbert L. Cornish, Mrs. John R. Haynes, Mrs. Paul J. McCormick, Mrs. Seeley Mudd, W. W. Orcutt, Andrew V. Caffey.

SACRAMENTO, March 19.—The Hoover Republican Club of California filed today in the office of the Secretary of State its indorsement of a list of proposed delegates to the Republican National Convention pledged to Herbert Hoover.

Under a ruling by Secretary of State Frank C. Jordan this indorsement qualifies the list for a place in the preference column of the May 4 Presidential primary ballot, providing the indorsement is not repudiated by Hoover and that nominating petitions are sufficiently signed and in proper form.

SACRAMENTO FOR HOOVER.

[EXCLUSIVE DISPATCH.]

SACRAMENTO, March 19.—Sixty representative men and women of Sacramento met today and formed a Hoover Club to further Hoover's candidacy for the Presidency.

Thirty of those who attended the meeting are registered Republican, nineteen Democratic and the remainder nonpartisan. Marshall Diggs, president of the California Insurance Company, former State Senator and a life-long Democrat, acted as chairman of the meeting.

Wilson R. Ellis, secretary of the State Highway Commission, who acted as advance man for Hiram Johnson during his gubernatorial campaigns, said Hoover is not in Johnson's way that Johnson is in his own way.

"I fought for Johnson in many a battle and believed in his principles," said Ellis, "but when he leads me in the following of Bill Hearst, whom I regard as a journalistic mountebank, I am forced to leave him."

Miss Maude Murchie, supervisor of domestic training of the State Board of Education, said Hoover's wonderful business ability and personality are respected the world over.

Ben S. Allen, director of a local newspaper, who was a member of Hoover's staff, stated that Hoover is a wonderful organizer and business man, and that no man commands greater loyalty.

HOOVER COLLEGE CLUB.

[EXCLUSIVE DISPATCH.]

EASTON (Pa.) March 19.—A "Hoover for President Club," was organized by Lafayette College students and faculty tonight at an open forum held under direction of the Lafayette College Y.M.C.A. The club was organized following an address by George H Graham of New York, sent here by the New York Hoover headquarters. The 200 charter members of the new club then elected the following officers:

President: Prof. W. B. Funkels; vice-president, A. S. Bauer; treasurer, Prof. D. A. Hatch; secretary, Cyrus Flack.

KANSAS GETS BUSY.

[EXCLUSIVE DISPATCH.]

TOPEKA (Kan.) March 19.—Kansas politicians find that friends of Herbert Hoover are preparing to organize the State for him.

It has been known for some time there was quite a sentiment in Kansas for Hoover, but as far as known no effort has been made to crystallize this sentiment in the State until the present.

HITCHCOCK SPILLS BEANS.

[BY A. P. DAY WIRE.]

WASHINGTON, March 19.—Senator Hitchcock of Nebraska, the Democratic leader in the Senate, declined today to comment on published reports that hi stelegram to a Democratic dinner at Omaha, Neb., on March 11, was to be regarded as an announcement of his candidacy for the Democratic Presidential nomination on a wet platform.

The telegram, Senator Hitchcock said, spoke for itself as setting forth his opinions on the liquor issue for his friends in Nebraska, where an attack has been made on him as a result of the filing of petitions to pledge the State delegation to support him for the Presidency.

In the telegram the Senator said that while he accepted unreservedly the people's verdict against strong intoxicants, he thought "a lawful way will be found and ought to be found to permit the manufacture and harmless use of light wines and Leers."

MINNESOTA RESULTS.

[BY A. P. NIGHT WIRE.]

ST. PAUL (Minn.) March 19.—Five delegations of two members each, instucted to vote for Leonard Wood for President, four uninstructed delegations and the Tenth District split into equal factions, one for Wood and one uninstructed, will be sent to the Republican National Convention at Chicago next June. Eight districts held conventions today and two yesterday.

The Tenth District convention, which met at Minneapolis today, proved the most interesting and turbulent. Delegates from Anoka, Kanabec, Mille Lacs, Chisago and Pine counties, left the convention floor and met in a convention of their own. They named Col. A. F. Pratt of Anoka and Lowell E. Jepson of Minneapolis as delegates to vote for Wood. The other convention elected Congressman T. D. Schall of Minneapolis and J. A. Methune of Buffalo as uninstructed delegates. Seating of these delegations will be fought out at the Chicago convention.

TRY TO PREVENT HARD COAL MINES CLOSING.

WORKERS, OPERATORS CONFER ON HOW TO WARD OFF SUSPENSION IN APRIL.

[BY A. P. NIGHT WIRE.]

NEW YORK, March 19.—Steps to prevent possible suspension of work in the hard coal fields April 1, were taken today by the subcommittee of miners and operators, appointed to arrange a new wage agreement for the anthracite coal miners. The committee decided to break precedent and continue its deliberations tomorrow and Monday, instead of taking the usual week-end adjournment.

Comparative figures showing that anthracite miners are paid less than bituminous coal diggers were introduced by the workers. These figures indicated that the hard coal day workers, who comprise about 74 per cent. of the men employed in the anthracite region, received 18.7 per cent. less pay than miners doing similar work in the soft coal fields. The data, the miners said, also showed that contract workers of the hard coal field were paid a scale equivalent to the wage received by the pick and machine men in the bituminous mines.

The workers declared that the day men will have to receive at least an increase of 18.7 per cent. more than any wage award made to the bituminous miners.

KAHN PICKS TRAINING LEGISLATION FRAMERS

MAJORITY OF HIS SUBCOMMITTEE CONSIDERED FAVORABLE TO PLAN.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 19.—Chairman Kahn of the House Military Committee today selected a subcommittee to frame legislation providing for compulsory universal military training, a majority of which is considered favorable to the adoption of a training plan. Representatives Dent, Alabama, and Quin, Mississippi, Democrats, are the only selections regarded as unalterably opposed to compulsory training.

The other selections were: Representatives Kahn, California; Greene, Vermont; Sanford, New York; McKenzie, Illinois, Republicans; and Olney, Massachusetts, Democrat. These committeemen recently approved adoption of a training plan, excepting Mr. McKenzie, who opposed immediate action.

Before framing a training bill, the committee will make an exhaustive investigation, Mr. Kahn announced, and its report is not expected to come before Congress until next session.

NEW RIOTS IN BERLIN.

Killed and Injured Total Hundreds.

Day is Marked by Clashes Between Mobs and Soldiers Throughout City.

Home of Allied Missions Attacked; Troops Rain Bullets on Crowds.

[BY CABLE AND ASSOCIATED PRESS.]

COPENHAGEN, March 19.—One hundred persons were killed and more than 200 others wounded in various quarters of Berlin Thursday, according to advices from the German capital. It is declared that in the suburb of Schoenenberg, fifteen officers of the Baltic troops were literally trampled to death.

WASHINGTON, March 19.—Official advices from Berlin today said no Americans or other foreigners, so far as known, were injured during the counter-revolution in Germany.

The dispatches said the National Assembly would take up in Berlin Monday the question of amnesty for those who participated in the Kapp revolt. The personnel of the Ebert government was expected to return to Berlin Saturday, it was said.

A resolution asking President Wilson how far the activities of the American troops in the occupied Rhine provinces may be directed without his express order was introduced today by Representative Kahn, chairman of the Military Committee. In asking for the "exact status" of the force, the resolution also inquired as to the extent of the authority of Marshal Foch as commander-in-chief of the Allied forces in the occupied territory of Germany and the scope of operations of the Americans under the terms of the armistice.

ESSEN SURRENDERS.

[BY CABLE AND ASSOCIATED PRESS.]

BERLIN, March 19.—Essen surrendered this afternoon to armed workmen after violent fighting in which it is estimated 300 persons were killed.

It is reported that Communists have occupied five railroad stations to the east of Berlin and that troops are being rushed thither in armored cars.

Berlin has not yet succeeded in emerging from the chaos resulting from the Kapp revolt a week ago and its subsequent failure. Although most, if not all, of the troops which formed the backbone of the revolt have left the city proper, disorders continued spasmodically Thursday night and Friday. Many additional casualties, both in killed and wounded, occurred.

Reports from cities and towns in various parts of Germany tell of continued operations by radicals, but in some of the cities the radical movement seemingly is waning and workmen are returning to their jobs. This is especially true in South Germany.

EBERT DELAYS.

The expectation had been that President Ebert and his faithful ministers would arrive in Berlin today to join Gustav Noske, Minister of Defense, and Dr. Schiffer, Minister of Justice, and aid them in their efforts to stabilize the situation. Information from Stuttgart, however, is to the effect that departure of the Ebert government has been postponed and that the government's appearance here cannot be expected before Sunday and possibly not until Tuesday.

According to present plans, the National Assembly members will leave Stuttgart in time to attend a meeting of the Assembly in Berlin Tuesday.

Hope had been entertained that with overthrow of the short-lived Kapp regime, conditions resembling, even in a small measure, those prevailing in normal times, might return, but most of the strikers in Berlin continued today to absent themselves from their posts. Consequently the population still was experiencing difficulty in obtaining supplies.

Until the disturbed railroad situation again is brought to normal, the situation will remain acute. Some of the railroads have made attempts to resume service, but their efforts have not proved altogether successful.

ONE TRAIN ARRIVES.

One train is reported to have arrived in Cologne from Berlin, the journey having been without incident. Another train reached Frankfort from Berlin, but a train from Lignitz found the track torn up at Erfurt and could not reach the capital.

When the attack on officers occurred in the Schoenenberg section last night a mob first surrounded a truck in which they were riding. Some of the workmen climbed upon the truck and dissuaded the people from injuring the officers, owing to the fact that they were not armed.

The truck was permitted to proceed, but when it reached Klonnenstrasse, another mob dragged off the officers and beat them mercilessly.

This morning Spartacan placards were seen in various parts of the city. These accused Noske of responsibility in the formation of the Kapp-Von Luettwitz dictatorship.

Reports have been received of an extreme radical movement in Saxony and adjacent parts of Thuringia. Four hundred delegates attended a

LEAGUE OF NATIONS IS BEATEN IN FINAL VOTE.

Rejection of Pact Follows a Weary Wrangle of Months; Document is Ordered Returned to Wilson.

BY ARTHUR SEARS HENNING.
[EXCLUSIVE DISPATCH.]

WASHINGTON, March 19.—The German peace treaty with its League of Nations covenant failed of ratification in the Senate tonight by seven votes, and was ordered returned to the President with a formal notification of the failure of the body to consent to the pact he had negotiated in Paris.

With the treaty out of the hands of the Senate, Senator Knox moved to proceed to the consideration of his resolution declaring a state of peace with Germany by repealing the declaration of war, this having been favorably reported to the Senate last December. The Senator's motion to take up the resolution was pending when the Senate adjourned until Monday noon.

The vote on the ratification motion was 49 ayes and 35 noes, the affirmative side being seven votes short of the required two-thirds of the Senators present and voting. Twenty-eight Republicans and twenty-one Democrats voted for the treaty with the reservations, while twelve Republicans and twenty-three Democrats voted against it.

Six Republicans and two Democrats were "paired" for and three Republicans and one Democrat against it.

CAUSE OF DEFEAT.

The defeat of the treaty, the second time in four months, was accomplished by a combination of administration Democrats obeying the command of the President to reject the covenant as modified by the protective reservations and the Republican and Democratic irreconcilables who oppose the League of Nations in any form.

Amid efforts of Senator Hitchcock to keep the treaty still before the Senate in spite of its second defeat Senator Lodge immediately after the ratification roll call offered a resolution to return the treaty to the President with formal notice of its failure. This resolution was adopted by a vote of 47 to 37.

The treaty will be returned to the President by Secretary Sanderson of the Senate tomorrow. It then will be up to the President to decide whether to submit again to the Senate under altered conditions, if such should develop, or to withhold any further action pending the outcome of the Presidential election and its "solemn referendum" on the issue of the League of Nations with or without reservations.

AT THE WHITE HOUSE.

When the failure of the treaty was communicated to the White House, Secretary Tumulty said the President would have no comment to make tonight.

Strenuous efforts were made by the administration leaders to obtain a reconsideration of the vote by which the treaty failed of ratification even after it had been ordered returned to the President. When those moves were ruled out of order Senator Lodge said he was willing to have another vote and asked unanimous consent that it be had at once. Senator Hitchcock objected to another vote at once and the Republicans would not agree to a postponement.

The reconsideration motion was purely a maneuver for delay in returning the treaty to the President, for not enough additional Democrats were ready to change front to make ratification possible on another roll call.

The ratification roll call came shortly after 6 o'clock, following a day of listless oratory on the subject of the covenant and the reservations. The roll was called in a tense silence, with scores of persons in the crowded galleries keeping tally.

The result had been forecast accurately for forty-eight hours by the leaders on each side. Senator Hitchcock held twenty-three Democrats in line against the treaty, while twenty-one deserted the President. The conspicuous recruits today to the ranks of the Democrats in revolt against the President were Senators Walsh of Montana, Randell of Louisiana and Smith of Maryland.

In the confusion that reigned as soon as the defeat of the treaty was announced by Senator Cummins, the president pro tempore, Senator Lodge offered his resolution to return the treaty to the President, and Senator Hitchcock strongly objected.

HITCHCOCK OBJECTS.

"I hope," he said, "that this resolution will be deferred for more mature consideration. While the treaty remains before the Senate there is still a chance of its ratification, but once it is sent to the President that chance is removed. It seems to me that the sincere friends of the treaty ought to be willing to defer action on this measure tonight."

Senator Lodge retorted that the time had come to end the proceedings over the treaty.

"It seems to me," said Senator Lodge, "that after a year of discussion, and after the Senate twice has failed to ratify the treaty the time has come to end it. The hope of getting the necessary votes to ratify it is groundless, and we have no right to bring it again before the Senate and interfere with other pressing public business. I feel that I have gone as far as I can, and in justice to the country we must notify the President that the treaty cannot be ratified."

Senator Lenroot of Wisconsin, supported the resolution.

CAN SUBMIT AGAIN.

"It is very evident," said Senator Lenroot, "that the treaty cannot be ratified until the President gives his consent. I believe, therefore, that it should be sent back to him. He can submit it again to to the Senate at any time he sees fit."

Several Senators attempted to speak, but their voices were drowned out by cries of "Vote, vote," from members weary of the long treaty fight and anxious to have it ended. The resolution went to a vote and was carried, 47 to 37.

Senator Robinson of Arkansas, Democrat, one of the President's "battalion of death," moved then to reconsider the vote by which the treaty had been rejected.

Senator Watson of Indiana, Republican, moved to table the motion. The "mild reservationists" deserted the Republican ranks on this roll call and joined with the Democrats. The motion to table was lost, 34 to 42.

Senator Robinson then moved to adjourn. Shouts of "No, no," arose from many parts of the Senate, and Senators insisted on remaining in session to settle the treaty question then and there. The motion to adjourn was rejected, 33 to 42.

Senator Brandegee, of Connecticut, Republican "irreconcilable," made a point of order against Senator Robinson's motion to reconsider the vote by which the treaty was rejected. The Connecticut Senator contended that as the Senate had already voted to return the treaty to the President, and to notify him of its rejection, the pact was no longer in the Senate's hands and that therefore the motion to reconsider was not in order.

Senator Cummins of Iowa, president pro tem., sustained the point of order and the motion to reconsider was scrapped.

Senator Robinson then moved that the President be requested to return the treaty to the Senate, and that the vote by which the pact was rejected be reconsidered. Senator Lodge started to make a point of order against the motion, but Senator Robinson suddenly abandoned the effort.

Senator Knox then moved to proceed to the consideration of his resolution, declaring the war at an end. Senator Lenroot of Wisconsin said that while he felt that such a resolution should be adopted within a very near time, he would oppose taking it up immediately.

Senator Lodge thereupon moved to adjourn and the motion was carried without a record vote.

REGARDED "AS DEAD"

Senator Lodge regarded the treaty as dead, but declined to make any statement.

Senator Reed of Missouri, "irreconcilable," said:

CANADIAN WAR VETERANS ASK BAN ON HEARST NEWSPAPEAS.

[EXCLUSIVE DISPATCH.]

OTTAWA (Ont.) March 19.—Great War veterans of the province of Ontario, in convention at Peterboro, Ont., extensively discussed the Hearst newspapers.

The attention of the convention was concentrated on the question of the most effective way of carrying out a boycott on Hearst publications in Canada.

Scores of resolutions had been received from local and district branches demanding that the government replace the ban on Hearst periodicals. They were all embodied in one main resolution which, when read, carried without the slightest opposition. The convention went on record as being most strongly against the Hearst publications being allowed to circulate in Canada and requesting the government to restore the ban on such literature.

The next resolution on the same subject had as its mover Comrade Appleyard and demanded that the export of newsprint should not be permitted to the Hearst publications or periodicals known to be associated with Hearst.

TREATY KILLERS TRIUMPHANT.

Wilson Stand-Patters and Bitter-Enders Win.

Republicans Announce Issue Goes to the People.

Senate Washes its Hands of the World's Covenant.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 19.—The Treaty of Versailles failed of ratification for the fourth time tonight, and then the Senate voted to send it back to President Wilson with a notification that it had finally "refused to advise and consent to its ratification."

On the decisive roll call the vote was 49 for ratification to 35 against, the opposition numbering in its ranks twenty Democrats who were unwilling to see the treaty go through with the Republican reservations objected to by the President, and three Democratic and twelve Republican irreconcilables. Twenty-one Democrats quit the President's lead and voted for ratification, but the defection failed by seven votes of providing the two-thirds requisite to ratify.

The result was regarded everywhere in the capital as having put over into the political campaign for decision the long and bitter fight between the Chief Executive and the Senate majority.

A move to reconsider the vote and try once more to ratify collapsed in its inception, leaders on both sides agreeing that further ratification efforts would be a waste of time as long as the Senate membership remains as it is.

In seven hours of debate preceding the vote, Republican leaders declared themselves ready to take the issue to the people. From the Democratic side several Senators bitterly assailed the President for his stand and declared the administration could not afford to carry the issue, as it presented itself today, into the campaign.

There was no reply from those who opposed ratification. Irreconcilables and administration Democrats alike remained silent in the confidence that they were in complete control of the situation

SENATE THROUGH WITH IT.

Whether the President would return the treaty to the Senate remained undetermined, but the Republicans served notice that if he did, it would repose for many weeks in a committee pigeonhole. In the vote of 47 to 37 by which the Senate washed its hands of the subject and sent the treaty to the White House, the Republican leaders had the support of the mild reservationists as well as the irreconcilables of their party, while the Democrats voted almost solidly in opposition.

The next step planned by the Senate majority is a declaration of a state of peace to relieve the nation of the war status which the Democrats maintain can be ended only by the treaty's ratification. A fight on that proposal probably will begin when the Senate reconvenes Monday.

The roll call on ratification came four months, almost to the hour, after the failure of the three attempts at ratification November 19. On that occasion the greatest strength developed for ratification with the Republican reservations was forty-one votes, only seven Democrats voting with the Republicans in the affirmative. The vote against was fifty-one, made up of thirteen Republicans and thirty-eight Democrats. Tonight's roll call follows:

THE FATAL VOTE.

For the resolution: Republicans—Ball, Calder, Capper, Colt, Curtis, Dillingham, Edge, Elkins, Frelinghuysen, Hale, Jones (Washington,) Kellogg, Kenyon, Keyes, Lenroot, Lodge, McLean, McNary, New, Page, Phipps, Smoot, Spencer, Sterling, Sutherland, Wadsworth, Warren and Watson—28.

Democrats—Ashurst, Beckham, Chamberlain, Fletcher, Gore, Hanlerson, Kendrick, King, Myers, Nugent, Owen, Phelan, Pittman, Pomerene, Ransdell, Smith (Georgia,) Smith (Maryland,) Trammell, Walsh (Massachusetts,) Wolcott and Walsh (Montana)—21.

Total for ratification, 49.

Republicans—Borah, Brandegee, Fernald, France, Gronna, Johnson (California,) Knox, La Follette, McCormick, Moses, Norris and Sherman—12.

Roll call against:

Democrats—Comer, Culberson, Dial, Gay, Glass, Harris, Harrison, Hitchcock, Johnson (South Dakota,) Kirby, McKellar, Overman, Reed, Robinson, Sheppard, Shields, Simmons, Smith (South Carolina,) Stanley, Swanson, Thomas, Underwood and Williams—23.

Total against, 35.

TWELVE ARE PAIRED.

Twelve Senators, nine Republicans and three Democrats, were paired. Three Republicans and one Democrat were paired against ratification and six Republicans and two Democrats in favor of ratification. The pairs follow:

Senators Newberry, Republican, Michigan, and McCumber, Republican, North Dakota, for ratification, with Senator Fall, Republican, New Mexico, against.

Senators Nelson, Republican, Minnesota, and Senator Harding, Republican, Ohio, for ratification, with Senator Penrose, Republican, Pennsylvania, against.

Senator Cummins, Republican, Iowa, and Townsend, Republican, Michigan, for ratification, with Senator Poindexter, Republican, Washington, against.

Senators Gerry, Democrat, Rhode Island, and Jones, Democrat, New Mexico, for ratification, with Senator Smith, Arizona, against.

NO RECONSIDERATION.

After the roll call the mild reservation Republicans joined with the Democrats to set the parliamentary stage for reconsideration that would permit another vote on ratification, but the effort soon was abandoned. Compromise Democrats advised the Republicans that they thought it futile to try to change seven more Democratic votes. The motion to reconsider, made by Senator Robinson, Democrat, Arkansas, was thrown out on a point of order, and no appeal was taken.

The line-up of the entire Senate today was 57 for ratification to 39 against, including members paired. Four months ago the total alignment was 42 for ratification and 53 against, with one seat vacant.

Eighteen Democrats today changed from their position of November 19. Seventeen who then voted against ratification favored it today, while one, Senator Shields of Tennessee, who voted for ratification November 19, and since has become known as an "irreconcilable," today voted against ratification.

DEMOCRATS SWITCH.

Of the Democrats who switched to support the treaty, fifteen voted for ratification and two additional, Senators Gerry of Rhode Island and Jones of New Mexico, were paired for ratification. The fifteen were: Ashurst, Beckham, Chamberlain, Fletcher, Henderson, Kendrick, King, Nugent, Phelan, Pittman, Ransdell, Smith (Maryland,) Trammell, Walsh (Montana) and Wolcott.

In the Republican ranks the "irreconcilables" gained but one new adherent, Senator Penrose, who voted for ratification four months ago, but today was paired as an opponent of the treaty. Twelve Republican "bitter-enders" — Borah, Brandegee, Fernald, France, Gronna, Johnson (California,) Knox, La Follette, McCormick, Moses, Norris and Sherman—voted today, as they did four months ago, against ratification, while three others—Penrose, Fall and Poindexter — were paired today in opposition. November 19 Senator Poindexter voted in opposition, while Senator Fall was not present, but his opposition was announced.

In sending the treaty back to the President the Senate acted on the motion of Senator Lodge, Republican leader, who declared that to bring the question of ratification again before the Senate would be a waste of time and delay public service.

A resolution then was adopted directing that the treaty be returned to President Wilson with a notification that the Senate had refused to ratify it. The resolution of Senator Lodge provided:

"That the secretary of the Senate be instructed to return to the President the treaty of peace with Germany signed at Versailles on the 28th day of June, 1919, and respectfully inform the President that the Senate has refused to advise and consent to its ratification, being unable to obtain the constitutional majority therefor."

The vote on returning the treaty to the President was 47 to 37, all of the latter being Democrats. Six Democrats, Gore, Kirby, Reed, Shields, Walsh of Massachusetts and Williams voted with the Republicans for the Lodge resolution.

HITCHCOCK LOYAL.

The Democratic leader, Senator Hitchcock, pleaded that the action be withheld for a few days, because there "always is a chance of action." He added that if a reasonable delay brought no prospect of ratification the move of the Republican leader might be concurred in with virtual unanimity.

Senator Hitchcock also objected to a request by Senator Lodge for unanimous consent to take another vote on ratification tonight, made after Senator Robinson's reconsideration motion had been ruled out.

Just before the Senate adjourned, Senator Knox, Republican, moved to take up his resolution declaring a state of peace. The attempt will be renewed Monday under present plans, and Republican leaders expect this or some similar measure to be adopted.

President Wilson has indicated his opposition of such a course, however, and should he veto a peace declaration the leaders are uncertain whether they could muster the necessary two-thirds of both Senate and House to repass it.

The Knox resolution, introduced in December, provides for repeal of the declaration of war, for retention of certain concessions granted by Germany in signing the peace treaty and for a re-declaration of the hope of Congress that some tribunal may be created to adjust international disputes.

AMERICA WILL GET SURRENDERED SHIPS.

FIVE GERMAN VESSELS TO BE BROUGHT OVER AND ULTIMATELY DESTROYED.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 19.—Five German surrendered warships allocated to the United States under the armistice terms, a battleship, a cruiser and three destroyers, will be brought to this country next month, it was announced today by the Navy Department. Under the Supreme Council agreement the ships must be destroyed within a year after arrival here.

The cruiser Frankfurt and three destroyers, now at Rosyth, Scotland, will be towed over by three mine sweepers and a transport, which will sail for Scotland early in April to bring them back. The battleship is the Ostfreisland, 22,400 tons, built in 1911, and a second line ship during the war. She has not arrived at Rosyth, under the agreement by which she was to leave Kiel March 13, but was expected to be on hand in time to accompany the other ships, crossing the Atlantic under her own power.

The navy plans to exhibit the ships at Atlantic Coast ports, it was said, in addition to a careful technical study of them by naval experts. Later they will be sunk.

SHIPPING BOARD PLANS.

The Shipping Board would be reorganized under the Jones amendments with seven members, two each from Pacific and Atlantic Coast States and one each from Gulf, Great Lakes and interior States. In sale of ships, establishment of routes and other details, the board would be given wide latitude.

Under the amendments the board would have at its disposal a permanent construction fund, derived from earnings of government shipping.

Special provisions would be made for adequate steamship service to island possessions, especially in the Pacific, and from the terminus of the Alaskan Railroad.

Retention under the American flag of a sufficient merchant marine to carry the bulk of the nation's foreign commerce and to provide for national defense needs are included in amendments to the House merchant marine bill, offered by Chairman Jones of the Senate Commerce Committee.

CRITICISM BY JONES.

Senator Jones, in a statement today said the bill adopted by the House indicated a desire to "get rid of our ships as soon as may be, with little regard for the price to be paid for them," and with no provisions for the aid of merchant shipping after it passed into private hands.

The inevitable result, he said, would be that "we would soon find ourselves without a merchant marine."

INDEPENDENT PACKER DOES HUGE BUSINESS.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 19.—Opposing regulatory legislation for the packing industry, Patrick Brennan, president of the Independent Packing Company of Chicago, told the House Agricultural Committee today that he started in business in 1895, "under the shadow of the five big packers" and now was doing a gross annual business of $29,000,000. This, he said, was evidence that the independent packer could compete successfully with the "big five."

"The industry cannot be substantially disturbed by regulation like that proposed without an effect upon the farmer," he added. "And the consumer must pay the bill."

Dr. J. M. Wilson, president of the Wyoming Wool Growers' Association said regulation would not only harm the meat producers, but would injure foreign trade.

PROFESSORS FORM UNION.

[BY A. P. NIGHT WIRE.]

MADISON (Wis.) March 19.—Twelve members of the faculty of the University of Wisconsin have organized a local union to be affiliated with the American Federation of Labor. "The union is not for the purpose of obtaining better pay or working conditions for ourselves," declared Prof. F. A. Ernst. "The organization is of men who are interested in the labor movement as expressed by the American Federation of Labor."

EL PASO, March 19.—The most important group of Yaqui Indians, operating against the Mexican government, has surrendered to the Federal authorities in Sonora, according to an official dispatch received here today from Mexico by A. Ruiz Sandoval, Mexican Consul.

WASHINGTON, March 19.—Roberto Cejudo, leader of the Felix Diaz rebel forces in the State of Vera Cruz, has surrendered unconditionally to the Mexican government, according to advices to the Mexican Embassy, made public today. The Embassy's announcement said Cejudo's surrender meant "the entire pacification of the State of Vera Cruz."

NEW YORK, March 19.—No record of the alleged draft evasion of Edward Fillmore and Herman Sidway of New York, ordered removed from Hermosillo, Sonora, to Mexico City, to answer Mexican charges of arms smuggling, according to a dispatch from Agua Prieta, Mex., last night, is obtainable here, according to Martin Conboy, director of the draft in this city. Mr. Conboy said all his records were sent to Washington several weeks ago.

CLOTHING PRODUCTION UNIFORMITY APPROVED.

RETAILERS' ASSOCIATION FAVORS MEASURE TO CHECK PRICE CLIMB.

[BY A. P. NIGHT WIRE.]

CHICAGO, March 19.—Uniform production throughout the year in the manufacture of clothing as a means of stabilizing conditions in the clothing industry and of preventing further price advances was approved today at a joint convention of the National Association of Retail Clothiers and the National Association of Clothing Manufacturers.

Speakers said that uniform production would eliminate losses consequent to seasons of nonproduction in the clothing industry, a condition which was declared a contributing factor to present prices.

Elimination of all possible waste in distribution was urged.

A committee representing wholesale and retail clothiers was appointed to study the distribution problem and to recommend a uniform system to promote greater efficiency.

The American clothing manufacturing industry has developed to such a high point that the American product was recognized as a world leader, speakers said. They declared American-made clothing bore a greater intrinsic value, because of superior workmanship and style and predicted that the slogan "made in America" soon would be familiar in England.

ROOSEVELT WOULD LET NC-4 REST IN MUSEUM.

[BY A. P. NIGHT WIRE.]

WASHINGTON, March 19.—The first airship to cross the Atlantic Ocean under its own power, the NC-4, will find its resting place in the national museum, if the suggestion made today by acting Secretary Roosevelt of the Navy Department to Representative Padgett of the Naval Committee, is accepted. The big seaplane is now dismantled at Rockaway air station.

"This wonderful flying boat has earned the right to good treatment," Mr. Roosevelt said. "She has shown the spirit of the U. S. Navy to the world. Her crew was typical American naval officers and men. They made good."

Mr. Roosevelt estimated it would require $75,000 to house the ship in the museum.

WOMAN LAWYER DENIES DEGENERACY OF MALES.

MEN NOT ONLY STRONGER IN BODY AND MIND, BUT IN HONOR AND DECENCY.

[EXCLUSIVE DISPATCH.]

NEW YORK, March 19.—From the raw meat caveman to the crocheting male human biped is a long journey. Has the hunter with a club finally become a punter of clubs rather than of a mate of the opposite sex? Is man decadent—effeminate—stultified?

Attorney Clarice M. Baright says no, emphatically. She is a very busy lawyer, dealing with all sorts of people in all sorts of places, and she brands as untrue the statement made recently by William J. Hickson, a Chicago clinical physician, that the male of the species is on the downward grade physically, mentally, sexually. She challenges F. H. La Guardia, president of the New York board of aldermen, who has recently made a similar assertion.

"Environment has much to do with such an opinion," says this woman attorney. "A doctor engaged in investigating such conditions will live in that kind of an atmosphere. And a New York alderman has some real reason for believing that the world is degenerating.

"But men are just as virile as ever; just as manly to say the least, as in those more primitive days. And to his virility he has added much of honor, of right living and general decency. Men are better than they used to be. So are women. And that's what has made the world better."

DES MOINES COLLEGE PROFESSORS RESIGN.

DISCIPLINE OF MAN AND WOMAN IN STUDENT BODY IS CAUSE OF FRICTION.

[BY A. P. NIGHT WIRE.]

DES MOINES (Iowa) March 19.—Four members of the faculty of Des Moines College have resigned because of differences of opinion with President John A. Earl concerning disciplining a man and a woman student, it became known today.

The four are said to have desired immediate expulsion of the two students, while President Earl held they should be given a trial. Names of the students are withheld. The faculty members who resigned were: J. Melvin Fred, professor of biology; R. D. Leshewsky, instructor in chemistry; R. W. Wester, professor of mathematics, and Dean W. W. Bartlett of the liberal arts college.

NEW YORK GRAND JURY INDICTS COMMISSIONER

[BY A. P. NIGHT WIRE.]

NEW YORK, March 19.—Third Deputy Police Commissioner Porter was indicted today by the grand jury which has been investigating police methods in connection with the suppression of vice. He is charged with neglect of duty.

Porter's indictment followed the appearance before the grand jury of Patrolmen Wheelwright and Sorger, who, after two years' duty as detectives, were transferred to patrol duty last Friday.

In statements to Asst. Dist.-Atty. Smith, they told of raiding a house in the upper west side last November, in which Porter was found.

SENATE AGAIN REFUSES TREATY

(Continued from First Page.)

happened to America since Cornwallis surrendered at Yorktown."

The first act of the Senate upon resuming consideration of the treaty this morning was to reject the Brandegee amendment to the preamble, 41 to 42. This amendment would have required the President to deposit the instrument of ratification at Paris within ninety days after the President had consented to the ratification.

TO PREVENT POCKETING.

Senator Brandegee of Connecticut, author of the amendment, explained that its purpose was to prevent the President pocketing the treaty and keeping the country in a state of uncertainty for an indefinite period. By fixing a different time for the deposit of the ratification, he said, the country would be enabled to know at a given date whether it was in a state of war or peace, and take the necessary steps to restore normal conditions by other processes.

Senator Cummins of Iowa, Townsend of Michigan and Jones of Washington, Republicans, joined with the Democrats, and accomplished the defeat of the Brandegee amendment by the narrow margin of one vote.

Without a record vote, the Senate then agreed to the preamble as amended by Senator Lodge. The preamble as it stands now no longer requires three of the other four principal Allied powers to specifically accept the American reservations, but states that failure of other nations to file objections prior to the deposit of ratifications shall be taken as full and final acceptance of the reservations.

Democratic Senators beset on one side with pleas to ratify the treaty, and on the other with commands from the White House to stand firm against the Lodge reservations appeared to be having a rather unpleasant day of it.

CLOAKROOM CONFERENCES.

Scores of informal conferences were held in the cloakrooms while the debate was in progress on the floor. Democratic Senators earnestly discussed the political consequences of their attitude. "Between the devil and the deep blue sea," was an expression frequently employed by the Democrats to describe their plight.

Pressure from the politicians in their home States became so strong during the day that only the President's most devoted followers were able to stand the strain. Telegrams beseeching them to take Mr. Bryan's advice and ratify the treaty poured in upon the President's "battalion of death" in countless numbers.

The wavering in the administration ranks looked ominous at some junctures. Senator Walsh of Montana, and Senator Ransdell of Louisiana, two of the President's henchmen through thick and thin, bolted and made speeches on the floor in an effort to gain new insurrection converts.

Senator Ransdell thought he had stood by the President long enough and announced that he now "deemed it his duty" to vote for ratification.

Senator Walsh, who once made a speech describing Article X as "the heart of the covenant" told the Senate he thought the importance of the article had been greatly overestimated, and that he had been converted to the belief that the Lodge reservations did not nullify the treaty.

Word went round that the treaty was then within four votes of ratification and the friends of it went to work with renewed vigor to win over Senators who were most likely to weaken. Republican side the [illegible] spread, and the treaty [illegible] made a final effort to [illegible] "irreconcilables" to support it and put it up to President [illegible]

In the midst of these [illegible] Postmaster-General Burleson subsequently called the Republicans to the White House, and Secretary Daniels appeared at the Senate to [illegible] ably does at critical moments. A few minutes later Secretary Navy Daniels arrived. The many conferences with Democrats [illegible] the explanation was made that [illegible] brought no message from the President to the House with regard to the treaty.

Senator Myers of Montana, Democrat, who voted for ratification with the Lodge reservations November 19, took the floor and announced that he would support the pact, although in no means enthusiastic about it.

Citing the inability of the governments to bring the [illegible] trial, Senator Myers declared the treaty "had been a failure from the start." He declared the terms imposed upon Germany were far too lenient.

BLAMES PRESIDENT.

Senator Lenroot of Wisconsin, Republican, one of the most consistent workers for ratification, made a strong speech, declaring President Wilson would be most largely to blame if the treaty was defeated.

"Once more," he said, "the combination of President [illegible] and the 'irreconcilables' [illegible] numbers. It is reported, is to defeat the treaty. Who would have thought a year ago that today a Senator Hitchcock and Senator Borah standing shoulder to shoulder and sending the treaty down to defeat?

"But with all the skill with which the [illegible] Senators have opposed it, the credit will not be theirs when the pact is rejected. President Wilson is the man who will be defeated."

Senator Lenroot carefully explained the reservations and attempted to show that they did not destroy the treaty, but merely made it safe for America.

RADICAL DEPORTATION WARRANTS CANCELED

MOST VIRULENT AGITATORS FROM JUSTICE ALLOWED TO GO FREE.

[EXCLUSIVE DISPATCH.]

WASHINGTON, March 19.—Female cancellations of deportation warrants against Communist anarchists have been ordered by the Department of Labor. Of the 100 of the agitators arrested in the recent raids conducted by the Department of Justice who have turned loose during the past few days. These include some of the most virulent reds on the list of Attorney-General, among the fugitives from justice who disappeared after being taken into custody. It was reported that Martin Berger, Russian soviet representative, was among those from whom the bonds were withdrawn, but this is not quite correct. A warrant for his deportation was withdrawn by Assistant Secretary of Labor Louis F. Post, but this was not a sort of a demand by the Department of Justice. It was retained and is supposed to be still active.

LACK ONE JUROR IN DEAN MURDER TRIAL.

NEW VENIRE OF TWENTY-FIVE ORDERED TO APPEAR IN COURT MONDAY.

[EXCLUSIVE DISPATCH.]

SAN LUIS OBISPO, March 19.—Out of the 110 veniremen called thus far in the Dean murder case, there were only eleven jurors in the box when court adjourned this afternoon. Judge T. A. Norton has ordered another venire of twenty-five to be present when court convenes on Monday morning. During today's proceedings it developed that both Sheriff C. J. Taylor and Coroner C. W. Palmer are to be witnesses in the case, and to prevent any possibility of the jury being disqualified, Judge Norton appointed R. R. Hankerson as alisor to secure all future venires.

The remaining members of the second venire were examined yesterday morning, and a new venire of ten was ordered for this afternoon's session. These veniremen were also examined this afternoon, but without completing the jury.

That the prosecution has something up its sleeve became evident today from the questions put to prospective jurors by Dist.-Atty. R. R. Van Wormer. While it is believed that the case of the prosecution will be based entirely on circumstantial evidence, it is believed that several surprises will be sprung during the trial.

The defense is paying unusually close attention to the selection of jurors, and several brisk skirmishes occurred today between Senator A. E. Campbell, who is one of Mrs. Dean's attorneys, and Dist.-Atty. Van Wormer.

The courtroom was crowded yesterday, as it has been each day since the beginning of the trial, but the crowd today was marked by the presence of a large number of young girls.

STATE DEFIANCE A BOOMERANG.

(Continued from First Page.)

"and now, when the outlook seems gloomy, she would like the government to step in and relieve her of her Japanese problems."

When asked if he didn't think the State would be in a worse hole if it hadn't taken steps to check the Japanese industrial invasion years ago, the Senator remarked: "I'm sure I don't know. The State certainly had a right to act on its own best judgment."

Commenting upon reports from Washington and elsewhere to the effect that he has photographic copies of Mexico-Japanese treaties and copies of letters which passed between certain ambassadors of those countries, Senator Fall said he was compelled to deny the statements in their entirety. "I don't attribute such startling statements to bad faith on the part of newspaper men, but rather to the fact that their knowledge of affairs in Mexico is so limited that they jump at conclusions, many times," he asserted.

Paul Collins, well known here as a member of the American Legion, threw a dash of excitement into the Senatorial subcommittee's inquiry here yesterday when he testified that a Mexican named Gen. Azvido Freitas approached him when he was acting as supply sergeant of a local artillery unit, which was stationed at Exposition Park, soon after this country's entrance into the war, and offered him $10,000 for the delivery of an entire battery of artillery equipment into the hands of the Mexicans.

According to Mr. Collins, the Mexican who opened negotiations with him stated that a schooner lay off the Malibu coast waiting to transport the military equipment to Lower California as soon as it could be delivered at a point near Santa Monica by motor truck. Hoping to trick the Mexicans into the hands of the army intelligence officers, Collins said he entered into negotiations with them for delivery of the battery on a certain date, but that they appeared at Exposition Park with auto trucks a day ahead of time. He testified that when he excused himself and went to call army intelligence officers, the Mexicans became suspicious and fled with their trucks.

GUN-RUNNING.

Senators Fall and Smith listened to Mr. Collins with great interest, and said they were not surprised at his statements because they had learned that Mexico had gone the limit to avail herself of military equipment at about the time this country went into the war. They hinted that within the next few days a gun-running story of even greater significance might be unfolded to the subcommittee here.

Arthur Thompson, an Australian, told the subcommittee he had been charged with being an anarchist because he had written a book on Mexico. Senator Fall states that a large number of witnesses are expected to give testimony today and Monday.

NO REFUNDING LIBERTY BONDS.

Secretary Houston Opposes Higher Interest Plan.

Too Much Cashing in; Too Little Thrift, He Says.

Real Investors Holding Issues Have no Complaint.

[EXCLUSIVE DISPATCH.]

WASHINGTON, March 19.—Proposals for the refunding of Liberty Bonds in a new issue, drawing a higher rate of interest, as a means of boosting market values, find no favor with Secretary of the Treasury Houston or other government officials.

As Secretary Houston views the situation, holders of Liberty Bonds have as sound an investment as there is in the market, and there is no reason why the government should give them a bonus in the form of additional interest.

Secretary Houston elaborated his views in an interview on the whole Liberty Bond situation.

"As the Treasury views it, the Liberty Bond problem is chiefly one of quantity," said Secretary Houston. "Unfortunately, many holders of Liberty Bonds, who patriotically subscribed for them and held them during the war, have since regarded them as so much spending money, and have thrown them on the market more rapidly than others could save funds to invest, with consequent depreciation in market prices.

ERA OF SPENDING.

"People generally have been spending money freely and saving relatively little, so that there has not been sufficient capital saved to overcome the pressure upon the market from those who bought bonds as patriots, but not as investors.

"In these circumstances, to add a fraction to the rate of interest borne by the bonds would have no important or lasting effect upon their market prices, while it would have an injurious effect upon the government's credit and burden the government and the taxpayers with higher interest charges over a long period of years. I think there are few competent judges who do not believe that the equilibrium has about been reached between sales and purchases of Liberty Bonds, and that the Liberty Bond market will soon turn upwards.

"Government bonds, in my judgment, cannot be made more attractive than they are at present prices, and the government could not, of course, manufacture savings or create buyers for its securities simply by increasing the interest rate on the outstanding bonds.

LOSS OF BALANCE.

"The only effect of such a course would be to depreciate all other securities automatically and establish a high interest level for many years, which would be burdensome to the development of the country.

"The present market prices of Liberty Bonds are causing no loss to real investors, who are holding their bonds as permanent investments; they are not suffering because others see fit to sell their bonds now for less than they are worth, and neither these investors nor those who sell their bonds have any ground for expecting a donation from the United States in the form of additional interest on bonds."

THREE OIL FIRMS IN TEXAS EVADE LAWS?

STATE RAILROAD COMMISSION DIRECTOR ISSUES EXPLANATORY STATEMENT.

[EXCLUSIVE DISPATCH.]

AUSTIN (Tex.) March 19.—George C. Butte, director of the oil and gas division of the State Railroad Commission, said today that an investigation of the records of his office show that if the Bill Davis Oil Company, the Louisiana Oil Company and the Diamond Oil Company, are operating in Texas, they are not in good standing as they have made no report of such operations to the Railroad Commission as required by law.

Letters of inquiry from stockholders of the Bill Davis Company, which is said to have its headquarters in Fort Worth have been received by Dr. Butte, but he has been unable to give detailed information as to the company beyond the fact that it is in default with the Railroad Commission if it is conducting operations in Texas.

The Diamond C Oil Company of Wichita Falls is a joint stock association. On August 22, 1919, it filed with the Railroad Commission an organization report giving a list of its officers on January 16. The Louisiana Oil Company wrote asking for blanks upon which to make out its organization report. These were sent, but no report of operations, as required by law, has been received from either company.

Fred Chase is secretary of both the Diamond C and the Louisiana companies.

ARMY REPRESENTATIVE IN HUNGARY RETURNS.

[BY A. P. DAY WIRE.]

WASHINGTON, March 19.—Brig.-Gen. Harry H. Bandholtz, for six months American military representative in Hungary, arrived here today and reported to Gen. March, Chief of Staff, and Undersecretary Polk at the State Department.

Genl Bandholtz is understod to be in sympathy with some of the modifications of the peace terms asked by the Hungarian delegation. He was succeeded at Budapest by Commissioner U. Grant Smith.

RED CROSS AIDS NIECE OF TOLSTOI WITH JOB.

[BY CABLE AND ASSOCIATED PRESS.]

CONSTANTINOPLE, March 19.—Countess Marie Tolstoi, niece of the famous Russian author and philosopher, who recently arrived here as a refugee from Odessa, applied on Wednesday to the American Red Cross for relief. The countess, who speaks perfect English, was at once placed on the staff of the Red Cross, the headquarters of which are on the island of Proti, in the Prinkopos group, and will act as an interpreter.

to two conventions. One faction, favorable to the candidacy of Senator Hiram Johnson, elected Congressman Thomas D. Schall and L. M. WOOD BEFORE FARMERS.

[BY A. P. NIGHT WIRE.]

MADISON (S. D.) March 19.—Development of agriculture, the diminishing of the proportion of tenant farmers and the distribution of land among as many persons as possible were urged by Gen. Leonard Wood, Presidential candidate, in an address today.

"One of the most important problems of our country today concerns cultivation of the soil," he said. "There has been a steady increase in the proportion of large holdings of land, in many instances purely for speculation. We must try to correct these conditions.

"Some method of assisting men who have no money to buy land would be most helpful in solving this question. The farmers are the stable, conservative element. The red flag never flies over a farmhouse."

FREE COAL OPERATOR WHO FURNISHES BAIL.

INDIANA SECRETARY ONE OF THOSE INDICTED FOR CONSPIRACY IN STRIKE.

[BY A. P. NIGHT WIRE.]

INDIANAPOLIS, March 19.—Arrest of the first of 175 coal operators or miners indicted by a special grand jury here for alleged violation of the Lever fuel contract act and conspiracy sections of the Federal criminal code, was effected today when Carl J. Fletcher, of Indianapolis, secretary of the Knox county (Indianapolis) Coal Operators' Association, surrendered to the United States Marshal. Mr. Fletcher was released immediately on $10,000 for his appearance May 4. Others of those indicted are expected to surrender soon.

The Indiana operators held a meeting at Terre Haute Wednesday night, it was said, at which definite information as to Indiana operators who were indicted was given out. This information, said to have been authorized by Federal officers, did not contain anything in connection with the specific charges against those indicted.

According to operators, the list furnished them would indicate most of the operators indicted were men present at wage scale conferences in the central competitive field since passage of the Lever act. Operators also ventured the opinion that the charges against them include publication of coal quotations as a means of regulating coal prices, and use of the "check off" system in the mines, whereby dues of members of the miners' union are withheld from their pay and turned over to the union locals.

RISE FOR NEBRASKA UNIVERSITY FACULTY.

[BY A. P. DAY WIRE.]

LINCOLN (Neb.) March 19.—The average annual salary of $1927.50 each of the University of Nebraska teaching staff of 211 professors is to be increased to $2462.50, or approximately 28 per cent., as a result of passage by the board of regents of a salary budget to raise the pay of all university employees. Most of the increases are effective April 1.

CHINESE BANDIT FREES SHELTON.

Ohio Missionary Joins Party of Americans.

Has Tumor on Neck, but is not Seriously Ill.

British Minister is Still Held Captive.

BY FREDERICK SMITH.

[BY CABLE—EXCLUSIVE DISPATCH.]

WUTINGHSIEN, March 9.—(Via Yunnanfu, March 10. Delayed.) After more than two months captivity by Chinese bandits, Dr. A. L. Shelton, the Ohio missionary, was surrendered yesterday.

It was panoplied ceremony that freed him. Dr. Shelton in a chair borne by four men was carried into a bleak little thatched stable two days and a half distant from this city and left there with a single bandit guarding him. The soldiers climbing these wild mountain passes found him, and Dr. Shelton now is en route here.

When news was flashed of his freedom great was the joy about Yunnanfu. This is lessened by the continued captivity of the British missionary, George Metcalf, who was seized at a mission near-by on Thursday with C. G. Gowan. Gowan escaped the same night.

Mrs. Gowan is a Benton Harbor, Mich., girl. She was not molested.

BANDITS AWAITED CARAVAN.

The bandits possibly heard of the approach of the caravan and an imposing array of military with the American, J. P. Thornton, delegated with full powers to reopen and to conduct negotiations. Mr. Thornton is acting under Col. W. S. Dryadale, military attache of the American legation in Peking.

Col. Dryadale remained in Yunnanfu to handle delicate complications there.

Mr. Thornton's first message to the bandits was sent by Dr. Shelton's cook on Saturday and he had been anxiously awaiting an answer when news was brought that Dr. Shelton had been found.

Dr. Shelton has a tumor on his neck, probably requiring an operation, but his other ailments are not serious.

Upon arrival here on Friday Mr. Thornton, who is a Standard Oil man, Dr. Osgood and myself were welcomed by the genial magistrate at the tea house outside the city wall. Then we were escorted within the city limits and quartered in a place on a hill, spreading our cots on floors covered with pine needles.

When the usual inquiry was made whether presents would be acceptable we said only a small token of the magistrate's favor was acceptable.

FREE WITH PRESENTS.

Soon coolies arrived with half of a freshly killed pig, four pigeons, two chickens and a brace of live white rabbits to keep us company in our sleeping quarters. Geese and beef have come in since and our bodyguard lives well.

When Thornton left Yunnanfu he stood at the gate of the city talking to Dr. Shelton's two daughters, trying to jolly them into better spirits when a Tibetan, who has long been a faithful servant of the Sheltons, approached and made an appeal which was interpreted by the girls. It was an eloquent pathetic appeal of a servant that we do not return unless we bring his master.

We would give much to have seen the Tibetan's expression tonight, when the good news got back to Yunnanfu.

IDLE JEST CAUSE OF FATAL RACE BATTLE.

BALTIMORE NEGROES TERRORIZED BY SUGGESTION OF HOSPITAL DISSECTION.

[BY A. P. DAY WIRE.]

BALTIMORE, March 19.—Riddled by shots and probably mortally wounded, W. A. Scott, a negro, was captured early this morning after a desperate three-hour battle waged from a barricaded house.

Two policemen were wounded in the fracas, and another negro mistaken for the hunted man was shot three times by policemen and beaten by a mob before it was learned that he was not the man.

The belief that white physicians are abducting colored persons for dissecting purposes was held by the authorities to be responsible for the trouble. An exchange of greetings between a white dentist and another white man, according to the police, inspired a crowd of negroes with the belief that the dentist and his friend were looking for prey for the dissecting table, and they started to beat the two whites. Two policemen in plain clothes arrested one of the negroes, whose friends turned their wrath upon the officers, and succeeded in releasing the prisoner. The negro continued firing his pistol as he ran. The chase ended only when he entered a house in West Saratoga street.

A riot call brought reserves from three districts and several policemen entered the house while the others held the negro at bay. The policemen in the house chopped away a part of the floor, making "loopholes" through which they fired the contents of two heavily-charged shotguns.

MRS. WARFIELD WITH HUSBAND IN HOSPITAL.

David Warfield, the actor, who was struck down and seriously injured by a motor truck in Los Angeles, was greatly cheered yesterday by the arrival of his wife from New York at his bedside in the Good Samaritan Hospital. Despite reassuring telegrams sent daily by the actor announcing continued improvement in his condition and urging his wife, who has been ill herself, not to worry, Mrs. Warfield hastened here as soon as she was able.

She went directly to the hospital upon her arrival in the city. After a visit with her husband she went to the Alexandria Hotel, where she expects to live during her stay here. The bruises on Mr. Warfield's nose and lips and healing, rapidly and the fractured left leg is doing as well as could be expected, the hospital attendants say.

SHOES TO BE TWENTY DOLLARS; WOMEN'S CLOTHES GO HIGHER; INCOME TAX CHECKS BUILDING.

BY HARRY CARR.

[EXCLUSIVE DISPATCH.]

NEW YORK, March 19.—Cheering news from the folks who make men's shoes. They're going up again. Footwear now being sold for fall delivery to the retail trade shows a sharp rise. Some of the better grades are listed at $13.50 to $15.25 wholesale. A walking shoe for which popularity is expected next autumn is priced at $20 wholesale.

The really baleful effect of these murderous prices, as the shopkeepers admit, will not be fully felt until a year from now, when it will begin to be seen that the only purchasers able to get real quality are those who do not need it. This seems to be particularly true of women's clothes.

In other words, the only women who can afford to buy clothes that will not wear out are the women who only wear a garment a few times and don't care a hoot whether or not it is of lasting material. Most materials within the reach of any but movie actresses are so wretched that they go to tatters at once.

TAX HITS HOUSING.

The high cost of housing in New York has been hit a staggering blow by the income tax, on account of the extreme susceptibility of mortgages to income tax infection, the tendency of capitalists to fight away from building houses to cover the homeless of New York. There is some activity in apartment-house building, but private houses are not going up. New Yorkers expected that a building boom would occur in February, but as a matter of fact, there was a distinct falling off from the January building.

Prospects are that houses will be scarcer than this year. In desperation New York City will be inevitably forced to undertake municipal building on a large scale, utilizing some of the immense tracts of park lands which the city owns.

ADVENTURE FOR COMMITTEE.

The housing problem has been made more severe by the ghastly way which interurban railroads were allowed to run down under government operation. Some improvement has already been shown since March 1, but the service is still pretty fierce. During the closing days of government ownership the life of a commuter became a life of adventure. You could always be prepared to wait from twenty minutes to an hour for a train and then have the engine break down before getting anywhere.

Railroad men say that it will be five years before the rolling stock will be again in an efficient condition.

A cinema company which has just returned from the South was caught in a severe train wreck due to a break in a worn-out rail. The locomotive engineer and fireman were both fatally injured. A large collection was taken up by the passengers for the family of the engineer. Attached to the train was a private car belonging to Harry Payne Whitney, who was entertaining a party of twenty-five guests. They contributed $50 toward the collection. It is not known whether each member of the party burst up with two whole dollars or whether some gave $1.75 and others $2.25. At any rate the Whitney party tore in with a $50 donation.

FURS HARD ON GAME.

It is strongly suspected that the high price of furs has something to do with the fact that open season for wild game has been in session pretty generally through New York and New England this year.

However that may be, there has been a regular debauch of fox hunting this winter. The result is that all the wild game is in sudden danger of extermination.

Some of the most severe execution has been among the beaver of the Adirondacks. It is estimated that more than 10,000 have been slaughtered for their extremely expensive hides. The result of this may be disastrous as beaver dams have been of great value in holding back the floods that follow spring thaws.

Reports from Maine are that the fast going moose will not last through another open season. The same is true of the deer of the Adirondacks.

Strange to say, wild game has been rather plentiful through New York and New England. You can often buy bear meat in the New York restaurants and deer are frequently seen feeding placidly on the New England roads.

SPRING THAW BEGINS.

The hard winter, which has driven hungry black bears down onto the country estates of many Westchester county millionaires, seems to have broken at last. The big spring thaw which began a few days ago has turned the gutters into rivers. The snow has almost gone. The old inhabitant is a singularly bereft individual in consequence of the big snow. He can no longer shake his head and tell newcomers how they "ought to have saw" the big blizzard of 1888.

This winter had the blizzard of 1888 and all other blizzards faded to a midsummer zephyr. It has been by far the worst winter on record.

IT HAS NOT BEEN SO COLD.

In fact there have been very few days when one really suffered from cold. But the inconvenience has been enormous. Trolley and automobile trucks have been entirely out of business for weeks on end. The few taxis that have ventured outside of New York's main traffic zones have been torn to pieces trying to back a way through the snow banks. Life in the suburban towns around New York has been one of adventure and anxiety. You got your provisions whenever your grocer felt like an arctic explorer.

ARIZONA ODDITIES.

[SPECIAL CORRESPONDENCE.]

PHOENIX (Ariz.) March 19.—A miner near Globe thought he heard the crying of a wild cat at his door. He seized an ax, flung the door open and was about to strike at a huddled form on the doorstep when he realized it was a half-frozen Mexican child, 6 years old. The child had lost itself in the darkness and had sought the shelter indicated by the lighted cabin.

The Mesa lettuce crop was of exceptional quality, but difficulty was found in disposing of twenty carloads shipped to New York in refrigerator cars. The shipments could not be unloaded for a waiting and profitable market, for the thermometer was standing around 20 deg. below zero, and the lettuce would have been frozen solid before it had been hauled a block.

At Bakerville, near Bisbee, the fire department, extinguishing a blaze, found in the house one of the largest distilling plants ever seized in the State. The operators had fled as soon as the flames had started from a gas plate that had furnished heat for the distilling process.

At Ajo a careless patron left in Fook Sing's restaurant a wallet containing $4500, mainly in currency. Returning after several hours, he found his property in the Chinaman's possession, undisturbed. The grateful patron proffered as reward a box of cigars. "Me no smoke," said Sing. And there the matter rested!

In Tucson John Jobs, who has attained expertness and a degree of carelessness in catching reptiles, thought to make a Gila Monster perform. He tapped it under the chin and reached to pick it up by the tail. But the monster was too active and Jobs was seized on the thumb. There was difficulty in prying the lizard's mouth open. The man was alive at last accounts.

That some advantage may be attained by going to jail is indicated by a report from the State penitentiary at Florence that that institution has never known a single case of influenza.

BRITAIN WON'T BUILD ANY NEW WAR VESSELS.

AFTER-WAR PROGRAMME OF CONSTRUCTION ANNOUNCED IN NAVAL ESTIMATES.

[BY A. P. DAY WIRE.]

WASHINGTON, March 19.—British naval estimates for 1920-21 provide for no new warship construction, it was said today at the British Embassy, and provision is made for a post-war fleet in full commission of only sixteen battleships, four battle cruisers, thirty-eight light cruisers, with destroyers and submarines in proportion.

The British post-war fleet as described in the announcement will be considerably larger than the combined American Atlantic and Pacific fleets, which constitute the second greatest naval fighting force in the world. In the two American fleets as at present constituted are fifteen first-class battleships, no battle cruisers, eleven armored cruisers and a proportionate number of destroyers and submarines, as well as a few light cruisers and second-line battleships.

ARIZONA NOTES.

YUMA.

Maria Madrizal, alleged to be the common-law wife of Pablo Gomez, is dead at Ajo, and Antonio Flores, aged 21, is charged with her murder. It is told that Flores went to the Gomez home at night and shot through the door. Gomez opened the door and grappled with the intruder, himself escaping serious injury, but apparently affording Flores opportunity to shoot the woman five times, though only one bullet passed through her body.

Nelson Clow, a second-hand goods dealer, has been convicted by a jury in the Superior Court of violation of a city ordinance concerning the making of a weekly report to the police of goods purchased. Clow had been implicated in the confession of a burglar of wholesale operations as one of the individuals to whom he had sold the loot taken.

JEROME.

Late reports from the fertile farming valley of Oak Creek tell of very serious damage there done by flood. In one noted apple orchard, whereon the fruit had taken premiums at the St. Louis Exposition, only thirty trees remain. Homes and barns and barbed wire fencing, all were swept down by the mountain torrent, while the irrigation ditches are declared nonexistent. The valley has been the source of much of the fruit and vegetables marketed in Clarkdale and Jerome.

BENSON.

The San Pedro Valley is to benefit by the transfer to cotton of half the lands in the Salt River Valley. The Pacific Creamery Company, an Armour concern, operating great condensing plants at Tempe and Glendale, is preparing to erect a creamery at Benson, and for the transfer from the Salt River Valley of a large number of dairy cows, to be sold or leased to local farmers.

AJO.

TWO-YEAR AUTO THEFT MYSTERY CLEARED UP.

[BY A. P. NIGHT WIRE.]

SALEM (Or.) March 19.—An automobile theft mystery of more than two years standing was said by police here today to have been solved with the arrest of Russell Eyerly, 23, and Raymond Eyerly, 20, his brother, on information from the Sheriff at Bakersfield, Cal., that they are wanted there on a charge of grand larceny.

The Eyerly brothers, according to the police, admit they stole the automobile more than two years ago, but claim that the affair was settled. The automobile was recovered in Montana several months ago.

ENGLAND ADOPTING COUNTY LIBRARIES.

[EXCLUSIVE DISPATCH.]

SACRAMENTO, March 20.—California's county free library system, by which books are circulated to the remote corners of the State, and reading privileges afforded the citizen whether he lives in the city or country, is to find a counterpart in England.

Copies of an act of Parliament passed late in December, by which county councils are authorized to establish free libraries after the California plan, have just been received at the State Library.

"Californians can feel a particular pride in the recognition of the county free library by the English government and the American Library Association," said State Librarian Milton J. Ferguson.

"It shows that the county library, as developed in California into State-wide service, is no longer an experiment."

GENUINE SPIRITISM IS WORK OF EVIL SPIRITS.

MGR. KELLEY, IN CATHOLIC PUBLICATION, UNDERTAKES EXPOSE.

[EXCLUSIVE DISPATCH.]

CHICAGO, March 19. — That spiritism, where the preternatural phenomena is genuine, and not trickery, is the work of evil spirits is the contention made by Mgr. Francis X. Kelley, head of the Catholic Church Extension Society, in the first of a series of articles on "Spiritism" published in the New World.

Another article to appear next week, the writer says, will be devoted to amplifying this deduction. Mgr. Kelley, after citing much scriptural text in controversy with the claims of Conan Doyle, Stainon Moses, Sir George Stock, Sir William Barrett and Sir Oliver Lodge, draws this conclusion:

"There are three usual explanations offered for spiritistic phenomena. The first is trickery and telepathy, about which latter fogod we know very little. If this explanation is the correct one the 'new revelation' is nothing at best but a reflection of minds tossed about by every kind of doctrine, and therfore, no 'revelation' at all except that of extraordinary mental gymnastics.

"The second is that spiritistic phenomena are what they pretend to be, actual revelations from the dead. If this explanation were correct they are permitted by God in direct contradiction of His own inspired word; and, placed beside his former revelation, are found to be made up of pitiful nothings, served to the accompaniment of clownish tricks undignified and often immoral actions and words, and mixed so much with contradictions as to make constant apologies necessary from even avowed believers.

"The third explanation is that the genuine preternatural phenomena are the work of evil spirits. That some of it is from such spirits is admitted by recognized apologists, such as Doyle.

"But no win this case distinguish between the good and the bad? There is no rule but that of fallible human judgment, since all the rules of the old revelation are supposed to be cast into the junk heap."

ANGELENO IS HEAD OF ELECTRICAL PROJECT.

HUNDRED AND TWENTY THOUSAND IRRIGATED ACRES TO BE BENEFITED.

[EXCLUSIVE DISPATCH.]

PHOENIX (Ariz.) March 19.—Louis Melczer of Los Angeles, a former Phoenix merchant, is at the head of an enterprise designed to furnish electric current to Casa Grande and to the pumps that are to irrigate a plain on which 120,000 acres of irrigated lands are expected eventually to be under cultivation.

The initial power plant, to be located on the railroad at Casa Grande, is to be of 5000 horsepower, steam-generated with oil fuel. At the present time the farmers of the locality are using about 2000 horsepower for pumping, usually in small gasoline or distillate units, operated at large relative cost. It is proposed to extend the scope of the new enterprise eastward to Red Rock and westward to Maricopa. At the latter point a large acreage of cotton is being planted this spring by a syndicate of Mesa men. There also is planned the absorption of the Casa Grande municipal lighting and power plant, which has proved insufficient for the growing needs of the town.

Melczer has been granted all necessary authority by the Arizona Corporation Commission to proceed with his project. He states that its first unit probably will be in operation by July 1.

STATE GETS SHARE OF EXPOSITION FUNDS.

[BY A. P. DAY WIRE.]

SACRAMENTO, March 19.—A check for $50,000 was received today by State Controller Chambers money remaining after as part of the State's share of settlement of the affairs of the Panama Pacific International Exposition.

Besides the cash received today, Controller Chambers said property valued at $470,000 would be deeded to the State.

Twenty-nine thousand dollars additional has accrued to the State from the sale of the California building.

INLAND WATER ROUTE DEVELOPMENT URGED.

[BY A. P. DAY WIRE.]

ST. LOUIS, March 19.—Comprehensive development of inland water transportation routes to meet the growing needs of the United States was advocated at the spring convention of the National Industrial Traffic League in the closing session here today.

A conference report recommended the improvement and maintenance of channels by Federal or State governments, or both, establishment of favorable rates, and construction of adequate terminal facilities for handling freight.

HUNDRED KILLED IN BERLIN RIOT

(Continued from First Page.)

Congress of Workers' Councils of those districts at Chemnitz yesterday.

DEMAND DISARMAMENT.

With only two dissenting votes they passed resolutions demanding the disarmament and disbanding of regular troops, security guard and volunteers; formation of workmen's guards under control of the workers councils; organization of revolutionary employees and workers' councils, convocation of a central soviet congress; establishment of revolutionary courts to try Dr. Kapp, Gen. Von Luettwitz and their supporters, release of all political prisoners and payment for time lost during the general strike.

At Kottbus, Prussia, an agreement is reported to have been reached between the senior garrison officer and leaders of a so-called Red Guard formed of workmen of the Senftenberg lignite region. The officer promised not to have the Red Guards prosecuted if they immediately surrendered their arms and ammunition and released prisoners they had taken, while at the same time the troops would release about a hundred workmen who had been made prisoners.

A Dusseldorf dispatch says that while the general strike committee is summoning the workers to resume their employment, the Communists want to continue the strike until establishment of a soviet dictatorship.

The government has declared the Leipzig region in a state of siege.

According to advices dated Thursday, Independents and Communists in Arnstadt, ten miles south of Erfurt, formed an Executive Committee under whose jurisdiction the Burgomaster placed himself. Quiet is reported in the city.

ANTI-SEMITIC MOVE.

[BY CABLE AND ASSOCIATED PRESS.]
BERLIN, March 18.—A sudden and widespread revival of the anti-semitic movement made itself felt today. At intervals leaflets were distributed protesting against the presence of Jews in public offices and attempting to inflame the public mind by cartoons picturing the German people as starving in a cage while well-fed and prosperous Jewish merchants looked on and are made to say: "Don't feed the animals." Prominent Jewish residents are outspoken in expressing their serious apprehension over the recurrence of the movement at this time.

The Baltic troops which made such a sanguinary departure from the city are accused of taking a leading part in the agitation.

Since the first German revolution in November, 1918, it has been estimated that about 80,000 Jews from Russia, Poland, Galicia and East Prussia have come to Berlin. The Jewish population of the capital is now estimated at 210,000 persons. The great influx of Jews stirred up feeling because of the widespread circulation of reports that many of the Jews were speculating in foodstuffs and other necessities and also operating as money lenders.

Rear-Admiral Evers has been appointed station commander at Kiel, replacing Rear-Admiral Levetzow, and has been given an advisory council of four burgesses belonging to various parties.

HUNDREDS OF MINERS KILLED.

[BY CABLE AND ASSOCIATED PRESS.]
LONDON, March 19.—Hundreds of persons have been killed in the mining districts of Germany in collisions between miners and troops, it is declared in reports from Germany received at Copenhagen, the Central News correspondent in that city telegraphs.

Telegrams received from the big towns in Germany, the message states, show that fighting is proceeding in nearly all the thickly populated areas where soldiers and workers were opposed.

BRITISH EMBASSY BOMBED.

A bomb exploded outside the British Embassy in Berlin last night as a naval division was marching past, a dispatch says. Several persons were killed or injured, but the Embassy apparently suffered no damage.

Reports from Lord Kilmarnock, British Charge d'Affaires at Berlin, stated there was nothing to suggest that the bomb explosion was meant as an attack on the embassy.

Private advices from Paris state that the Ebert government has asked the Allies to permit it to send German troops to put down Bolshevism in parts of the neutral zone which was established by the peace treaty and in which the Germans were not to have troops.

There is no intimation what action the Allies will take in this matter. President Ebert maintains that military action is necessary to save this section of the country from the Reds.

WARRANT FOR LUDENDORFF.

[BY CABLE AND ASSOCIATED PRESS.]
COPENHAGEN, March 19.—Warrants have been issued for the arrest of Gen. Ludendorff and of Col. Bauer, characterized as Ludendorff's "right hand man," says a dispatch to the Social Demokraten from Berlin today.

The Berlin correspondent of the Politiken declares that Gen. Ludendorff is compromised in the highest degree in connection with the revolt.

The same correspondent reports that with the government's consent the Republican Officers' League has armed three battalions of Socialist workmen. The Independent Socialist party, he adds, has been split into right and left wings.

A Berlin dispatch to the Berlingske Tidende says the position of the government has been made difficult because the trades union leaders are going over to the Independents.

NOSKE QUITS, REPORT.

Both Gustav Noske, Minister of Defense in the Ebert government, and Dr. K. W. W. Heinig, Prussian Minister of the Interior, have resigned, according to a dispatch from Stuttgart quoting the Hamburg Fremdenblatt.

A semiofficial message from Stuttgart says it can be stated on good authority that reports of the retirement of Gustav Noske as Minister of Defense in the Ebert government are not in accordance with fact. At a meeting of the Social Democrat party it was decided to ask him to retain his post, the message adds, and the Centre and Democratic parties unanimously joined in this vote of confidence.

Another message from Stuttgart states that at the conclusion of the National Assembly's meeting yesterday, Konstantin Fehrenbach, president of the assembly, declared it was plain that all parties condemned the revolt.

"We mourn the dead and convey our condolences to their dependents," he said. At this point the Deputies stood up.

RESIGNATION ACCEPTED?

[BY CABLE AND ASSOCIATED PRESS.]
FRANKFORT (Germany) March 19.—It is reported that the resignation of Gustav Noske as Minister of Defense in the Ebert government has been accepted.

Chief of Police Ernest of Berlin is also likely to resign, it is said.

EBERT TO RETURN.

[BY A. P. NIGHT WIRE.]
COBLENZ, March 19.—The Ebert government will return from Stuttgart to Berlin tomorrow. The National Assembly and the Prussian Diet have been convoked to meet in Berlin on Sunday.

GIVE IN TO KAPP?

[BY CABLE AND ASSOCIATED PRESS.]
BERLIN, March 19.—While statements have been issued in Stuttgart by the Ebert government that there were no negotiations of any nature with the Kapp regime in Berlin, and that a compromise of any kind was out of the question, the developments here regarding the formation of a new Cabinet would make it appear that the chief demands made by the Kapp interests have been virtually agreed to.

There appears to be little doubt, for instance, that a cabinet reorganization has been decided upon.

LUETTWITZ FLEES.

[BY CABLE AND ASSOCIATED PRESS.]
LONDON, March 19.—Gen. Von Luettwitz is reported to have left Berlin by airplane, and it was impossible to arrest him while the Iron Division was in the city, says a Berlin dispatch to the Exchange Telegraph Company. In fact, the dispatch says it is not known whether orders for the arrest of Luettwitz or Dr. Wolfgang Kapp, Chancellor of the reactionary government, were ever issued.

REVOLT EXPOSE.

[BY CABLE AND ASSOCIATED PRESS.]
BERNE, March 19.—Chancellor Bauer caused a sensation at yesterday's sitting of the German National Assembly at Stuttgart, when he revealed the conditions presented the government by Wolfgang Kapp and Gen. Von Luettwitz before they entered Berlin last Saturday morning.

"They wished to prepare for a war of revenge and plunge the country into another cataclysm," cried the Chancellor. "Pitiless punishment must come to these offenders."

Philipp Scheidemann, leader of the Majority Socialists; Herr Burlage of the Centre party, Herr Kron of the German Nationalists, and Herr Becker of the People's party are unanimous in their condemnation of the attempted revolution, according to advices received here.

MINISTERS TO BERLIN.

[BY CABLE AND ASSOCIATED PRESS.]
STUTTGART, March 19.—Premier Bauer, Dr. Hermann Mueller, Minister of Foreign Affairs, and Herr Giesberts, Minister of Posts and Telegraphs, left for Berlin on a special government train tonight.

The Baltic troops retiring from Berlin have intrenched themselves on the west side of Berlin, according to reliable reports.

EBERT IN BERLIN?

[BY CABLE AND ASSOCIATED PRESS.]
PARIS, March 19.—A dispatch from the Cologne Koelner Tageblatt says President Ebert has arrived in Berlin and requested Philipp Scheidemann, former Minister of Foreign Affairs, to form a Cabinet. The dispatch adds that Bavarians, Wurttemburg and Silesian troops have been sent to the Rhenish Westphalian industrial districts.

News reaching the German delegation in Paris shows the situation is most serious in the Ruhr district, particularly around Essen, where there is much fighting with Spartacan. The same situation is reported in Dusseldorf.

Reports of the resignation of Gustav Noske as Minister of Defense are not confirmed in the delegation's advices, but the Germans have received confirmation of the statement that the Ebert government will not leave Stuttgart tomorrow.

REDS ADVANCING.

[BY CABLE AND ASSOCIATED PRESS.]
LONDON, March 19.—According to the Exchange Telegraph, Russian Bolshevist forces are advancing from the Russian frontier.

Two weeks before the revolt in Berlin, says a wireless dispatch from Moscow, a secret conference was held in Berlin between supporters of Dr. Wolfgang Kapp and representatives of the Russian "Black Hundreds," the latter including Alexander J. Guchkoff and Prince Volconski.

LEIPZIG FIGHT CONTINES.

[BY CABLE AND ASSOCIATED PRESS.]
LEIPZIG, March 19.—Although an agreement had been reached Wednesday night between leaders of the workmen and the military authorities for a peaceful settlement of the prevailing situation, the workers yesterday rejected the agreement and fighting was resumed.

HITS SYMPHONY MANAGERS.

Boston Music Strike Chief Decries Offers of Jobs; Two Players Coming Here.

[EXCLUSIVE DISPATCH.]

BOSTON, March 19.—Frederic Fradkin, deposed concert master of the Boston Symphony Orchestra, and Arthur Berensen, attorney for the striking players, discussed before an audience which appeared to be entirely sympathetic, in the Clarendon-street Baptist Church today, the strike of the thirty-two players, the efforts and methods of numerous symphony managers throughout the country to secure their services and the future of the orchestra.

Mr. Fradkin offered considerable evidence to bear out his allegations of mistreatment he says he has suffered at the hands of the trustees, especially Dr. Cabot and Conductor Monteux.

He scathingly arraigned the attempts which had been made to secure the services of other striking members and himself by managers of several of the country's largest orchestras. He referred several times to managers of Los Angeles, Detroit and Philadelphia, but especially to a Los Angeles manager who, he said, had made the most flattering offers as to salaries and other advantages.

"These men who make these flattering offers are men of money and seem not to understand the view of the man who has to work for a living. For instance, one cannot but help wonder at the presumption of the Los Angeles managers in asking us to disrupt all home ties and travel 3000 miles to join their organizations. We are striking musicians; we realize it and so would the very managers so eager to employ us. For a while it would be art, but after a time we would be subject to the same conditions and treatment as here in Boston, and our protests would be met with the answer that we were 'only striking players.' What could we do or say? Then, again, should there be trouble in Los Angeles, how would their organization feel if an eastern manager who would travel or send 3000 miles to take his men, loyal or disloyal, away from him? Should any of us accept any of these flattering offers, I fear that our reception by their audiences would indeed be cool, if not cold, which would be our just deserts. Sure, you must agree with me, my good people, we are being considered no less than weak-minded children. My associates and I resent the attitude of these men to whom we have tried to make our attitude clear, but I fear they are quite beyond understanding, or as we ourselves have so often been termed by Judge Cabot, 'thick, decidedly thick.'"

Two prominent players of the Boston Symphony Orchestra have been engaged for the Los Angeles Symphony Orchestra for the coming season, according to L. E. Behymer. These players will be used to fill vacancies in the orchestra.

GOTHAM DOCK STRIKE INCLUDES TEAMSTERS.

[BY A. P. NIGHT WIRE.]
NEW YORK, March 19.—Striking longshoremen engaged in coastwise traffic announced today that union teamsters, in sympathy with the strikers, would refuse to move freight from piers here until the strike is settled. Five hundred teamsters, according to strike leaders, already are on sympathetic strike.

Fears that marine engineers and the masters, mates and pilots unions would join in the strike were allayed temporarily when negotiations for wage adjustments began. The men demand a wage increase of approximately 50 per cent.

T. V. O'Connor, president of the International Longshoremen's Union, left tonight for Washington to confer with Chairman Benson of the Shipping Board on proposals to end the strike.

IRON WORKER IS VICTIM OF FALL.

[EXCLUSIVE DISPATCH.]
FULLERTON, March 19.—T. R. Erpenbach, Union Iron Works foreman in charge of the crew engaged in the construction of a packing-house for the Placentia Orange Growers' Association at Placentia, fell twenty feet from a scaffold this afternoon, together with half a ton of iron rods, and is believed to be fatally injured.

One arm was broken in two places and his body a mass of bruises from the iron falling upon him. It was believed by physicians in attendance that he received internal injuries. He was taken to the Pacific Hospital in Los Angeles in a local ambulance.

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

DENVER, March 19.—The grand jury returned a report yesterday with indictments against fifteen keepers of disorderly houses, but found no evidence implicating Dist.-Atty. Foley, his deputies or assistants. Foley in open court refused to accept congratulations from Judge Hersey, who resented Foley's attitude and instructed the jury to continue investigations of Foley and his office. Vic Walker, colored deputy Sheriff, indicted for running a disorderly house, was arrested yesterday.

Katherine Christenson, 13 years old, was standing at the corner of Eleventh and Larimer streets waiting for a car when the high wind blew out the wall of a two-story building behind her and buried her under the debris. She was killed instantly.

Between 12 and 1 o'clock yesterday the fire department was fighting twenty-four simultaneous fires, most of which were caused by the high windstorm. Seventy-five calls were turned in during the day.

Modish Apparel for Children who are Particular---
in the Children's Store

THE daintiest and frilliest of white frocks to meet the needs of little misses from four to ten years of age are among the many splendid lines of clothing in the Children's Store.

White dresses of voile or organdie, trimmed with lace, are recommended for the little girl's Easter outfit.

Quite appropriate for wear with these sheer little frocks is the lovely, serviceable underwear of Barker Bros.' Own Make.

The Children's Story Hour

The Story Lady's corner of the Children's Store is a charmed nook where the children are entertained by their beloved characters of story and rhyme. Every day this delightful event takes place—from two to three o'clock every afternoon except Saturday, when the hour is from eleven to twelve in the forenoon.

The Children's Store on the Third Floor supplies the Furniture, Apparel and Toy Needs of infants and children.

SAYS OREGON WILL LINE UP FOR HOOVER.

FORMER GOVERNOR EXPRESSES UTMOST CONFIDENCE; SAN DIEGO FOLK ORGANIZE.

A determined effort to place Herbert Hoover's name on the Republican ticket in Oregon is being made, according to advices received yesterday by the local "Make Hoover President" Club. O. C. Leiter, prominent manufacturer of Portland, wired the local club yesterday as follows: "Am organizing Hoover Republican Club and making plans for a vigorous campaign on the Republican ticket in the Presidential preferential primaries, May 21." A communication received from Oswald West, former Governor of Oregon, also said, in part: "Do not worry; we will carry Oregon for Hoover."

W. C. Shelton, chairman of the Executive Committee of the "Make Hoover President" Club, returned yesterday from San Diego, where, at a meeting in the auditorium of the U. S. Grant Hotel, Thursday evening, a Hoover club was organized. Lyman J. Gage, Secretary of the Treasury under McKinley and Roosevelt, presided at the meeting, which was attended by about 500 supporters of Hoover. The speakers of the evening were former Judge Hugh V. Wells and W. C. Shelton of Los Angeles and Miss Olive Lee, cousin of Theodore Roosevelt, and one of the nominees for delegate to the convention on the Hoover Republican ticket.

Lyman J. Gage was elected temporary chairman of the San Diego club. The other members of the committee elected to perfect the permanent organization of the club are Duncan McKinnon, former superintendent of schools of San Diego; Col. Ed Fletcher, Dempster McKee and Dr. Margaret Ritter.

LIGHT RAINFALL CURTAILS POWER.

State Railroad Commission Calls Hydroelectric Firms for Parley.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, March 19.—Ninety electric light and power utilities in the State were directed to make an appearance before the State Railroad Commission on Wednesday, March 24, "to arrive at a plan for handling and distributing the State's supply of electrical energy that will minimize the menace caused by the water shortage," according to an order issued by the commission here today.

The meeting was part of the campaign undertaken by the commission in common with other State and Federal agencies to insure an equitable distribution of the deficient water supplies between power utilities, irrigation interests and others entitled to such supplies, it was announced.

WILSON EXPECTS COAL REPORT TO BE HEEDED.

WANTS WAGE CONTRACTS FIXED ON COMMISSION'S FINDINGS.

[BY A. P. DAY WIRE.]

WASHINGTON, March 19.—President Wilson expects the bituminous coal operators and miners to work out their contracts for the new coal year beginning April 1 on the basis of the majority report of the coal strike settlement commission, Atty.-Gen. Palmer said today after a conference with Secretary Tumulty at the White House.

Mr. Palmer said the minority report, made by John P. White, the miners' representative, would be submitted by the President along with the majority report merely because it would have some bearing on any settlement reached at the proposed conferences between the operators and miners.

The Attorney-General said the President, in submitting the two reports to the miners and operators, would point out the points at issue for their consideration when they met to arrange the new contracts.

No date for such a meeting has yet been announced.

IRISHMAN RENOUNCES "REPUBLIC OF IRELAND."

[BY A. P. NIGHT WIRE.]

CHICAGO, March 19. — Patrick King, appearing in naturalization court today, not only renounced allegiance to the British empire and King George, but also, by order of Judge Kavanaugh, he renounced his allegiance to the "republic of Ireland and Eamonn de Valera, its president."

Judge Kavanaugh declared his action was an official recognition of the Irish republic and its representatives.

"It is a de facto government, which exists with the consent of nine-tenths of Ireland's people," he said.

AN AMENDED COMPLAINT.

[BY A. P. DAY WIRE.]

SAN FRANCISCO, March 19.—Although Superior Judge Louis Ward was ready to hand down his decision today in contempt proceedings brought by the District Attorney against William Kehoe and C. H. Connick, attorneys for Edgar Woodcock, in relation to Woodcock's failure to answer to a perjury indictment against him, the District Attorney was permitted to file an amended complaint. The action was continued until tomorrow in order to give Kehoe and Connick opportunity to answer the amended complaint.

Won't Pay Income Penalty?

[BY A. P. DAY WIRE.]

EUREKA, March 19.—Numerous persons in this district subject to the Federal income tax, who failed to make the required returns before the tax became delinquent, are refusing to pay the 25 per cent. penalty for delinquency imposed by law, according to Deputy Collector of Internal Revenue Reid. They take the stand, Reid said, that they tried to pay, but were unable to do so because the supply of blanks had become exhausted.

Detective, a Veteran, Ousted.

[BY A. P. DAY WIRE.]

OAKLAND, March 19.—Captain of Detectives Walter J. Petersen was removed from his position today by order of Commissioner F. F. Morse, head of the department of public health and safety. Morse charged Petersen with various derelictions of duty and insubordination. Petersen is head of the local post of the American Legion. He was chief provost officer of American forces at Marseilles during the war.

Sugar Bandits Battle Police.

[BY A. P. DAY WIRE.]

OGDEN (Utah) March 19.—Police officers and deputy Sheriffs engaged in a revolver duel with alleged box-car robbers last night when a posse surrounded a deserted house in the outskirts of Ogden, where it is alleged there was a cache of stolen sugar and condensed milk. The officers assert that a Mexican who escaped was injured in the battle. Four arrests were made.

ORDERED ABROAD, SOLDIERS MARRY.

[BY A. P. NIGHT WIRE.]

OMAHA, March 19.—At least four new soldier brides will have a 10,000-mile honeymoon starting next week when two Fort Omaha balloon companies leave for the Philippines to be gone two years. Three weddings have taken place since the men were ordered to go and another is to occur soon. Several others are expected. The government pays ocean transportation.

Do You Look As Young As You Feel?

MAYBE because you feel fine you fail to notice as others do the little lines stealthily forming in your face. Take care of your skin now.

Try this simple formula—"A little CREME ELCAYA rubbed gently into the skin; then if you need color, a very little rouge spread carefully over the cheeks before the cream is quite dry; and after that the film of Elcaya face powder over all."

CRÊME ELCAYA

Is a delightful, non-greasy, disappearing toilet cream that makes the skin like velvet.

H-I INQUIRY BOARD TO BE NAMED TODAY.

SALVAGE APPARATUS ON WAY TO ISLAND WHERE NAVY DIVER IS BEACHED.

A board of inquiry to investigate the cause of the H-1 disaster, which occurred on the beach of Santa Margarita Island, last Friday morning, resulting in the death of four members of the submarine's crew, will be appointed today, according to an announcement made yesterday by Rear-Admiral J. L. Jayne, commandant of the Twelfth Naval District.

"The board will be appointed tomorrow," Rear-Admiral Jayne stated yesterday. "It has not been decided whether to appoint the officers from the vessels in the vicinity of Redondo Point or from other sources."

Rear-Admiral Jayne also announced that all survivors of the ill-fated submarine who are physically able are to return to the wrecked vessel to aid in the salvage work.

Wrecking apparatus from Mare Island navy yard was ordered yesterday to proceed to the place where the submarine is grounded. From Los Angeles Harbor the steamer Vestal, equipped with salvage appliances, a tug and a barge departed for Santa Margarita Island. Capt. Chauncey Shackford, commandant of the Submarine Base, stated yesterday the H-1 will be towed to Los Angeles Harbor unless it is in such a battered condition that a trip to Mare Island for repairs will be necessary.

"ALL TIRE PLANTS MUST COME HERE"—FIRESTONE.

"We will not Build This Year, However," Declares Rubber Chief in Significant Announcement.

Because conditions at Los Angeles offer the possibility of producing automobile tires more cheaply here than anywhere else in the United States, it is only a question of time till all the big tire manufactories will have to establish themselves in this community. This significant announcement was made yesterday by H. S. Firestone, president of the Firestone Tire and Rubber Company of Akron, O., speaking at a luncheon at the Clark Hotel that was attended by some thirty leading business men. He added that the Firestone company will not build here this year, however, as he believes the country is expanding too fast, especially in building operations.

Mr. Firestone has just returned from a trip to the Imperial Valley, where he went to study the local cotton situation at first hand. When he was here more than a year ago, he stated in his luncheon talk, he spoke to the Chamber of Commerce and outlined the advantages for the manufacture of tires here—at the city's doors, the only land in this country that will grow long-staple cotton; in the city's port, an opportunity to import rubber direct from the Far East by the Pacific; natural resources for development of the cheapest power in the United States, and a climate that offers workmen splendid facilities for owning homes and planting vegetable gardens.

ABOUT HOUSING.

Mr. Firestone declared that to assure the highest prosperity Los Angeles must look to housing conditions—the building of houses. If the city puts in commercial plants and does not provide houses at reasonable cost, he said, the best economic growth cannot obtain. Unsatisfactory housing and high rents are among the prime causes of the high cost of living, he stated, and the more prosperous the city, the worse are conditions in this regard today.

In introducing his subject yesterday, Mr. Firestone spoke of general conditions in the country.

"It may be unbecoming for me to say anything about our President," he said, "but I think that we have too much sentiment and theory at the head of our country, and we are too sentimental and theoretical and are not practical, which is another primary cause for our unsettled and disturbed condition. We have great theories and they do not work out, and the many disappointments that come to the people make them unhappy and dissatisfied and they are not prepared to accept, the simple, practical conditions of life.

"How are we going to change this condition? The first thought, of course, is a new President, and the next thought is, where is the man who is qualified to serve the country best? I do not know. I think there is a question if he has yet been named as a prospective candidate. I will qualify that by saying to the gentlemen of California, who, I understand, largely believe Mr. Hoover is the man, that I do not know him and know very little of his qualifications to serve the country in the capacity of President. My ideal for the next President naturally is a business man, a man who knows human nature, an unselfish man who does not lose his head when he gets a great power that brings him a great deal of glory, and with it a great deal of grief if he sincerely and unselfishly serves the people."

AUTO'S INFLUENCE.

In giving a "little picture" of the automobile and accessory interests, Mr. Firestone said: "I had one automobile man tell me that the automobile is a contributing factor to unrest, and I think that is true—but it is also a contributing factor to our commercial standing in the world. We must be very careful that we do not get into the theoretical as to what the automobile can accomplish.

"It might be interesting to know that in 1914 we had only 1,574,000 passenger cars and only 136,907 motor trucks and that in 1919, within five years, we had 6,800,000 passenger cars and 800,000 trucks. It is anticipated that between 3,000,000 and 3,500,000 autos will be built in 1920 and between 375,000 and 450,000 trucks.

"What would we do today without the automobile? I have been very enthusiastic about the ship-by-truck movement. I will not take the time to give you any figures, but it is really a great economical saving in the transportation to cities of foodstuffs; and while it may bring unrest and ill health to some people living in cities, it brings satisfaction and a better condition of living to those living in the rural districts, and they are the large majority.

"How far the automobile is a means of transportation for passengers and products it is difficult to say. In Toledo, O., last year they had a municipal difficulty and the street railway line shipped all its cars into Michigan and quit business in Toledo for about six weeks, if I remember correctly. The commerce of the city went on just the same and the people were carried in automobiles.

FUTURE EXPENSE.

"Of course, in the cities automobile transportation is not as economical as the electric lines, but I predict that it will reach that stage where it will be just as economical and will take up less space on the streets. There are just three things to contribute to economy—gasoline, fabric and rubber. I am sure we shall take care of the gasoline and cotton in the United States. Rubber is controlled by England, but I hope the United States will come to have a greater financial interest. If we could get the right kind of government in the Philippines, the United States could grow rubber under its own flag, a very desirable thing. Conditions in the Philippines, especially in Mindanao are as good for rubber culture as are those in the Malay Peninsula.

"In 1909 our total production of rubber was 69,600 tons. Of this

WILL BUILD GREAT CHURCH.

Immanuel Presbyterians to Erect Four-Hundred-Thousand-Dollar Edifice.

The construction of a new temple of worship in Los Angeles, to be built at 1000 South Figueroa street at a cost of $400,000 is the high goal set by the members of Immanuel Presbyterian Church, who will publicly launch their building fund campaign tomorrow morning at a mass meeting at the church when Dr. Herbert Booth Smith will preach on "Immanuel's Opportunity and Responsibility," Dr. Smith being followed by Dr. William W. Newell of Chicago, who will outline plans for the big campaign.

It was stated yesterday by Immanuel Church officials that the campaign will close Easter Sunday and that work on the new building will probably begin soon afterward. The lot adjoining the church property on the south has been purchased. In connection with the building fund campaign the members will also start a drive to gain a membership of 3000 by Easter Sunday. The church membership enrollment is already well over the 2500 mark, the largest number of members of any Presbyterian Church in the United States.

"It is a shame that this church, with a membership larger than that of any church of the denomination in New York, Chicago or Philadelphia, is still housed in an old frame building, erected thirty years ago when Los Angeles was only a little pueblo," declared Dr. Smith yesterday. "The increasingly large congregations which are being drawn to this church demand a greater seating capacity than the present building affords and the Sunday-school, Young People's Society, Board of Church Extension and various other branches of the church are sadly in need of more commodious quarters. It is my hope, as well as that of the church officials and the congregation in general, to erect a building on the present site, and on the lot adjoining, which has already been purchased, that will be an honor to the church architecture of the Coast."

Dr. Smith will speak along the lines of the campaign tomorrow morning and on the following Sunday Dr. Newell, who has a reputation for his ability to raise big sums for worthy causes, will supply the pulpit. Tomorrow evening Rev. Henry A. Atkinson, general secretary of the Church Peace Union, who represents the international and interdenominational work founded by Andrew Carnegie, will deliver an address on "Service in the New World Order."

BIGAMY CHARGE BY BATCHELDER.

Sued for Maintenance, Asks Annulment of Marriage.

Did not Wed Before Divorce, Declares His Wife.

He Denies Sinning with Mate of Man Who Shot Him.

Joseph D. Batchelder, who was shot and seriously wounded last June by Charles I. Collins after the two men had signed an amazing agreement which stated Collins was to care for the former's wife for life, yesterday declared that his marriage to Mrs. Jemima E. Batchelder was illegal and asked that it be annulled. Mr. Batchelder's demands for annulment of the marriage were contained in his answer and cross-complaint in Mrs. Batchelder's separate maintenance suit. The answer and cross-complaint was filed yesterday through his attorney, Walter T. Casey, and Nathan Newby, counsel for Mrs. Batchelder, was served with a certified copy.

The Batchelders were married at Raton, N. M., on February 27, 1909. They have three children, 2, 5 and 9 years old. Though they lived together more than ten years, Mr. Batchelder in his cross-complaint asserts "that at the time of marriage Mrs. Batchelder had a former husband living and that her marriage to the former husband was, at the time of the defendant's marriage to her, in force and undissolved by decree of divorce or otherwise and that she was not free under the law to contract a marriage with the defendant."

WIFE'S VERSION.

In her bungalow home at 1001 South Park View avenue last night, Mrs. Batchelder stated in reply to her husband's startling charges:

"I was divorced from my first husband in Colorado in 1909. A certified copy of this divorce decree, granted to me by the Colorado courts, is now in Mr. Newby's office. Following my divorce from my first husband, Mr. Batchelder and I crossed the State boundary into New Mexico, where we were married, Mr. Batchelder charges that I have never been legally separated from my former husband, by divorce or otherwise. The certified copy of my decree in my attorney's office answers this charge well enough. If he endeavors to prove by some technicality of law that this decree was illegal, I am sure I can prove to the contrary, for several test cases have been tried in the Colorado courts and the legality of such remarriages as mine has been substantiated."

In his answer Mr. Batchelder also denies that he has ever been guilty of a statutory offense with Mrs. Charles I. Collins, as Mrs. Batchelder charges in her separate maintenance suit.

In reply to this denial Mrs. Batchelder told last night of two occasions when she said Capt. Garfield Gillis, a private detective, located Mr. Batchelder and Mrs. Collins in a beach cottage.

Mr. Bachelder also denied that he had ever deserted his wife and three children or had, at any time, willfully not supported them, nor has he ever completely abandoned them, he says.

NO MONEY, SHE SAYS.

Mrs. Batchelder stated that she has not seen or heard from Mr. Batchelder since the day he was shot, eight months ago, that he has never contributed a cent toward the support of her and his three children and that he was not supporting his family even for some time prior to the sensational shooting.

Replying to Mrs. Batchelder's statement that she is in danger of becoming a chronic invalid, Mr. Batchelder enters another denies. Mrs. Batchelder was unable to stand on her feet last night without the aid of a walking stick. She said she had been in the care of a nurse for many months and can procure sworn statements from her physician and attendants, proving she is an invalid.

In her separate maintenance suit Mrs. Batchelder asks for $250 a month for the support of herself and children. Mr. Batchelder replies that "$250 is an unreasonable sum for the support of the children" and denies that he is capable of earning $5000 a year, as his wife states. He says he is now in poor health, has been unable to work for eight months and is unable at present to provide for his family.

ABRUPT ENDING TO PASTORATE.

First Christian Church and Daugherty Part.

Latter Quits when Overruled by Official Board.

Matter of Principle, He Says, No Ill Feeling.

The First Christian Church and its pastor, Rev. Edgar Fay Daugherty, have parted. The severance of relations came abruptly following the issuing of a church letter by the official board of the church at Wednesday night's meeting. Mr. Daugherty says the letter was issued to one who for some time had shown no sense of responsibility for the church and who had been refused by the pastor the usual letter affirming good standing.

Mr. Daugherty does not know personally the person to whom he refused the letter, but says it was strictly a matter of principle for which he relinquishes his $4000 a year salary. He says he has nothing but the kindliest feeling toward the church board and congregation with whom the third year of his pastorate began the 7th inst. Mr. Daugherty is a native of Indiana and came here from an eight years' pastorate at Vincennes, Ind. He was also with the Redpath Chautauqua system of Chicago and Pittsburgh.

James G. Warren, prominent member of the church and of the official board, last night expressed regret that Mr. Daugherty has taken the position that he has. He says he feels very kindly toward Mr. Daugherty and that if the latter considers that he has been dismissed it is because he has dismissed himself and not because the board had any such intention.

BOARD'S POSITION.

The merits of the application for a church letter were fully gone into by the board, Mr. Warren says, and it was the unanimous opinion that the applicant was entitled to a letter. "I am very sorry," said Mr. Warren, "that Mr. Daugherty feels affronted. It was Mr. Daugherty's opinion that the letter should not be given, while it was the unanimous opinion of the board after investigation that the applicant was entitled to a church letter. We have only the kindliest feelings toward Mr. Daugherty, we have had no thought of dismissing him and his parting with the church is solely his own act."

"The board's refusal to support my position that a church letter should state facts, rather than be an innocuous and untruthful form, could be taken by no man of conscience as anything other than peremptory dismissal," said Mr. Daugherty. "No abuse is more winked at by churches than the easy-going one of testifying members are in 'good standing' though long lost to the church's programme; a person whose attitude toward the church is such that if all embraced it the church would be extirpated, is not entitled to a certificate that they are in 'good standing.'

Considers Himself Dismissed.

Rev. Edgar Fay Daugherty.

FOURTEEN ARE INDICTED.

Federal Grand Jury Acts Against Rail-Pass Conspiracy Suspects.

An omnibus indictment, covering a number of the suspects in the conspiracy to defraud the government by the use of counterfeit railroad passes, was returned by the Federal grand jury yesterday.

Those charged are Theodore W. Powell and wife; David W. Weatherby, father of Powell; Ned Williams, chief of the bell boys at the Lankershim Hotel; Dave Grosher, Louis Gordon, William E. Stewart, Frank Price and O. E. Brown.

There are five others in the list, whose names are not available, as they are not yet under arrest. They include a well-known Broadway business man and others active in various spheres. They will be taken into custody today.

Powell and Brown are said to be heads of the conspiracy, the others being associated in the case only by the purchase and use of counterfeit passes. Esther Kleinfield, alias Esther Field, who went to Chicago, on a pass said to have been furnished by Gordon, was not indicted, and Mrs. Frank Price, whose husband was indicted, escaped. Price was arrested as he got off a train in New York, and is held there for his appearance under bond. Price and his wife were traveling on a bogus pass, it is charged. He is well known in the local automobile accessory trade.

The defendant Stewart is a Chicago business man who "borrowed" one of the passes from Williams, and made a trip from Los Angeles to El Paso, Tex. He returned voluntarily as soon as he learned that the transportation was crooked.

The investigation conducted by the special agents of the Department of Justice has been thorough, but just where the pasteboards were printed is as yet unrevealed. Powell and Brown charge each other with the manufacture of the passes, but it is known that Powell made a mysterious visit to the East just before he left with his wife and daughter for Portland, Or., where the trio were arrested. Wherby, it is admitted, delivered several of the passes furnished him by his son, Powell.

The past named is willing to plead guilty to the charge that he disposed of the passes, and it is understood that several other defendants are eager to travel the same road, but they all claim to know nothing of where the counterfeits were made.

TERRORIST ON THE STAND.

How I.W.W. Opposed War by Using Sabotage Told in Steelink Trial.

The I.W.W. throughout the United States carried on a well-planned campaign of opposition to the war, using the general strike and sabotage as weapons, Elbert Coutts, confessed terrorist of the organization, testified yesterday in Judge Willis's court during the trial of Nicholas Steelink, reputed member of the I.W.W., who is accused of criminal syndicalism.

Elbert Coutts.

The witness told of joining the I.W.W. when he was 16 years old, at San Francisco, January 2, 1913, and of immediately joining an expedition of forty I.W.W. agitators and terrorists who started for Denver to join a "fight for free speech." He said the forty terrorists took possession of a freight train in Nevada and planned to blow up the Denver water works, take possession of the city and subject all to their rule. When they arrived there, said the witness, they found the "free speech" fight settled. He said the plan to terrorize Denver failed and the terrorist crew went on to Chicago and other Middle West cities, where they took part in almost every agitation of the moment.

Questioned by Dist.-Atty. Woolwine and Deputies Keyes and Turney, the witness said that the I.W.W. did everything in its power to oppose the government in the prosecution of the war, from burning any farmer's haystack to ruining high-priced mills and machinery. Coutts testified that after serving a term in San Quentin for burglary, he was rearrested twice and served two minor sentences. Then he joined the terrorist crew again. At one time, he said, he and one other man set fire to fifteen haystacks near Medesto. He had no complaint against the owners, he said, except that they were property holders. Later, he stated, he returned to Modesto and started the same number of fires in that city.

Coutts, during verbal tilts with J. H. Ryckman and S. G. Pandit, defense counsel, explained that the I. W.W. are opposed to what they call the "petit bourgeoisie," or small property owners, and to anyone with property. In telling of wandering over the West, Coutts explained that the I.W.W. consider the robbery by what they call a "highjack" of a nonmember of the I.W.W. is allowable, but robbing of a member is "confiscation of wealth." He said an I.W.W. who carries on sabotage is called a "saboteur."

While in San Quentin Coutts met "Dublin Rob," now at McNeill's Island prison, and learned of methods of evading the military draft, which methods he found out later were advocated by the I.W.W. These included keeping a bar of soap in the arm pit, thus affecting the heart, and putting a copper cent on the breast to give an appearance of cancer. He said these and other methods were generally advocated by the I.W.W. He explained that the use of hydrocyanic acid was to poison cattle, by placing some in watering troughs. He stated that waiters and cooks in the organization carried on sabotage by putting soap in soup and other articles in edibles.

The witness further testified that at meetings in the I.W.W. Hall at Sacramento discussions were held as to the best methods of sabotage and that careful plans were made for the campaign later carried out. He said C. L. Lambert and other agitators declared that if Ford and Suhr, then in jail on a charge of the murder, were not released, the I.W.W. would burn up the whole State of California.

BARNES CALLED WHITE SLAVER.

Circus Magnate Taken Into Technical Custody.

Wife of Animal Trainer is Named in Complaint.

Showman Denies Charges at Prager Park Grounds.

Alpheus George Stonehouse, known in the amusement world as Al G. Barnes, proprietor of the circus now showing at Prager Park, this city, was placed under technical arrest last night, charged with violation of the Mann White-Slave Act.

Mr. Barnes was not formally taken into custody, but is at liberty on his promise that he will appear this morning at 10 o'clock and file a bond of $2500.

The complaint was issued by Asst. U. S. Dist.-Atty. Lawson, on the affidavit of William P. Hall, special agent of the Department of Justice. It mentions but one name, that of Jane Thompson, said to be the wife of an animal trainer connected with the show. It is understood that the testimony taken before the Federal grand jury yesterday involved other women, as well.

The complaint charges Mr. Barnes with taking Jane Thompson from Phoenix, Ariz., where the show wintered, to various points within the jurisdiction of the southern division of the southern district of California.

Mr. Barnes made a general denial of the charges at the show grounds last night. He declared he does not know Jane Thompson.

HIS SIDE OF IT.

"Nothing to it, you can say that for me. But I bet my wife is somewhere behind all this business. It's all news to me. I never heard of Jane Thompson. Who is she? If I transported anybody from Phoenix or anywhere else, I had a right to do it. I'm in the business of transporting men and women and elephants and the whole show. You take it from me, it's only a part of my old trouble with Mrs. Stonehouse."

This, delivered in snatches and with many interruptions, was the gist of a statement made by Mr. Barnes last night in a running interview with a Times reporter just as the big Barnes show got under way under the huge tent at Prager Park. Dodging elephants and rubbing elbows with clowns and lion tamers, the circus magnate and the reporter covered considerable ground and a part of the old divorce case, while Mr. Barnes directed a stream of people to their seats, bossed th...

SCHOOL OF METHODS HERE.

Sessions Next Week for Church Workers of Various Denominations.

Several hundred ministers, Sunday-school teachers and other delegates from churches of various denominations of the Southland are expected to be in attendance at the school of methods to be conducted at the First Christian Church, next week, beginning Monday afternoon. The sessions will be held every day from 3:45 p.m. until 9:30 p.m. with the exception of an hour for the evening meals. There will be classes for teachers and workers in all departments of Sunday-school work and each class will be led by an expert sent here by the Bible school department of the American Christian Missionary Society of Cincinnati, O. The theme of the school of methods will be "Better Bible Schools" and the faculty of experts who will address the meetings includes Miss Cynthia Pearl Maus, superintendent of young people's work, and Rev. Charles Darsie, adult division superintendent, both of Cincinnati; Miss Ida May Irvin, elementary specialist, of St. Louis, and Edgar Lloyd Smith, regional Bible school superintendent of the South Pacific district, Los Angeles. Miss Maus, the senior member of the faculty, is well known in the Sunday-school world. She is an author of no little note, has traveled widely and spends ten months out of every year in the training schools.

"The school of methods is a college of religious education on wheels," said Miss Maus yesterday. "They bring within reach of Sunday-school teachers and officers a complete and full-rounded viewpoint concerning the whole task of the church as a Christian educational institution."

"OUR TRAFFIC TRAGEDIES."
WESTLAKE PRESBYTERIAN.

The recent death of a prominent minister of Los Angeles and the injury of a noted actor through being struck by an automobile have increased the volume of discussion as to the reasons why so many traffic accidents are occurring in this city. Who or what is responsible for a condition that records 8741 traffic accidents for the six months ending December 31, 1919? How does Los Angeles stand in its record of such accidents as compared with other cities of the country? Does the majority of automobile drivers act with indifference to the rights of pedestrians? Are pedestrians always free from responsibility in the matter of accidents? Should the State enact laws making it necessary for those who desire to drive machines to pass an examination before being given a license? These are a few of many similar questions which will be discussed at the Westlake Presbyterian Church tomorrow evening by Dr. G. A. Briegleb, who will preach on the subject, "The Price of a Human Life in Los Angles, or Traffic Tragedies and Their Lessons." At the morning service Dr. Briegleb will preach on "Modern Idolatry."

"PROHIBITION VS. LIBERTY."
CHURCH OF THE PEOPLE.

"Prohibition Propaganda vs. Liberty and Democracy" will be the subject of a discussion between Col. John Sobieski and Reynold E. Blight before the Church of the People tomorrow morning. The discussion is the result of a recent address by Mr. Bright in which he vigorously arraigned the methods which he said the prohibition leaders used to put over the prohibition amendment. Preceding the debate a musical programme will be rendered by Miss Ruth Snow, pianist, and Mrs. Paula Dohrman, soprano. At the lessons which will meet at 9:30 a.m., Mrs. Maud Fletcher Gallagher will speak on "The Training of Parents." Next Friday evening the Cosmopolitan Club will give a Bohemian musical programme in Blanchard Hall.

WOMEN AND POLITICS.
WESTLAKE METHODIST.

"In view of the assured victory of the woman's suffrage amendment it is well to pause and ask whether or not women have, in the past, done anything to make the world better." This was the statement made yesterday by Rev. Thomas O. Grieves, pastor of the Westlake Methodist Church, who announced that he will preach tomorrow morning on the subject, "Women and the World's Conquests." In the evening Mr. Grieves will preach on "The Haves and Have Nots." Westlake Methodist Church is preparing a programme of exceptional interest for Palm Sunday, Holy Week and Easter Sunday and a letter outlining the plans for the Holy Week services will be sent to the church members next week.

MOURN PASTOR'S PASSING.
UNITED PRESBYTERIAN.

Sorrow over the loss of their beloved pastor, Rev. Edwin C. Little who came to his death in a traffic accident last Monday, combined with a determination to press steadily forward and carry out those ideals which Mr. Little eloquently advocated, will feature the services to be held tomorrow by members of the First United Presbyterian Church. Owing to a rather remarkable coincidence the pulpit will be supplied tomorrow by Dr. T. B. Edgar of Wilkinsburg, Pa., a lifelong friend of Mr. Little. Dr. Edgar came to Los Angeles a few days ago for the purpose of taking charge of a conference of the Men's Forward Movement which was to have been held at the First United Presbyterian Church last Thursday. Following the funeral on Thursday, Dr. Edgar announced his intention of returning to the East, but was persuaded to remain over Sunday to present a special message to the bereaved congregation. Dr. Edgar's subject for tomorrow morning will be "The Church's Present Opportunity" and in the evening he will discuss "The Holy Passion."

PROF. BRONSON RESIGNS.
FIRST METHODIST CHURCH.

Officials of the First Methodist Church yesterday announced the resignation of Prof. Carl Bronson as leader of the choir of that church. At the services tomorrow Prof. John A. Van Pelt, Prof. Bronson's successor, will be introduced to the congregation. Mr. Van Pelt, who comes from Chicago, has had wide experience as a choir master and is said to be a brilliant singer. In his sermon tomorrow evening Dr. Charles Edward Locke promises to handle "without gloves" the subject of spiritualism and among the questions which he will ask and answer are: "Is Sir Oliver Lodge right? Can we talk with the dead? Are all spiritualists impostors? What about the Ouija board? Where is heaven? Shall we know each other there?" A feature of the evening service will be an address by Mrs. E. B. Weirick on "The Delinquency of Wandering Girls—Who is to Blame?" Tomorrow morning Dr. Locke will preach on the subject, "Remember the Week Day."

"LET MINISTERS LIVE."
$100,000,000 DRIVE.

Fifty-thousand minute men and women of the Baptist denomination will, tomorrow, seek to drive home to the members of the Baptist churches the meaning of the New

BUILDING CAMPAIGN STARTED.
WILSHIRE PRESBYTERIAN.

The building campaign for $75,000 for the new church, to be built by the members of the Wilshire Presbyterian Church, was launched last night at a "kick-off" dinner, held in the church, and attended by nearly 300 people. The principal speakers were: Dr. John Willis Baer, moderator of the general assembly, and W. A. Bixby, campaign manager. Success seems assured by the fact that, while the actual work of solicitation will not begin until tomorrow, more than $20,000 has already been subscribed. One hundred solicitors, organized into twenty teams, will have charge of the soliciting. Tomorrow morning Dr. John Albert Eby will preach his final sermon in the series on "Springs of Perpetual Joy," his special topic for tomorrow being "The Joy of the Will."

"THE COMMON PEOPLE."
PLYMOUTH CONGREGATIONAL.

"Most of the work of the world is done by people who have only one talent. These people have difficulties to face and discouragements to meet that are unknown to their more gifted fellow beings. They also have exceptional opportunities for the achievement of success, and, especially in a democratic government, they have great responsibilities and privileges. The common people can lower the high cost of living, and they can name and elect the next President." These were some of the sentiments expressed yesterday by Dr. George A. Andrews, pastor of Plymouth Congregational Church, who announced his intention to preach tomorrow morning on the subject "The Common People." In the evening Dr. Andrews will preach on "Jesus, on Lake Galilee, Speaking Peace."

BIBLE SEA STORIES.
FIRST PRESBYTERIAN CHURCH.

Dr. Hugh K. Walker confesses to a special admiration for sea stories. Clark Russell and Joseph Conrad are among his long-cherished favorites. But the minister of the First Presbyterian Church insists that the best sea stories are to be found in the Bible. In his sermon tomorrow evening, Dr. Walker will tell two of the most exciting of these old-time stories. He will describe the scenes on the Mediterranean—the tempest-driven ships—the terror-stricken sailors—the unexpected developments—the plight of an ease-loving passenger and the prestige of a plucky prisoner. The miraculous element involved in both stories will not be dodged or evaded. In the morning Dr. Walker will speak on "The Way Religion Works with Real Live Men."

"THE SERMON SUBLIME."
ST. JOHN'S EPISCOPAL.

"Jesus—What He is and What He is Not" will be the subject of a sermon by Rev. George Davidson, D.D., tomorrow morning, at St. John's Episcopal Church. In the evening Dr. Davidson will preach on "The Beatitudes," which he considers the most sublime of the utterances of the Master while He was on earth. At 4 o'clock tomorrow afternoon a confirmation lecture will be given on "The Meaning of Confirmation." Lenten services will be held next week as follows: Wednesday evening at 7:30 o'clock, Thursday at 7 and 9 a.m., and Friday afternoon at 4 o'clock.

"SITUATION IN CHINA."
BIBLE INSTITUTE.

Sidney Gamble of Pasadena, who for three years had an unusual opportunity to study the religious, political and social conditions in China, will be the principal speaker at the meeting in the Bible Institute Auditorium, at 3 o'clock tomorrow afternoon. In the morning Dr. R. A. Torrey, pastor of the Church of the Open Door, will speak on "The Real Christ and His Love for Souls." Evening worship will be in charge of Dr. Ralph Atkinson.

CHURCH NOTES.

Following are the announcements of subjects to be discussed in sermons by Los Angeles ministers tomorrow:

"A Sermon for Everybody" is the subject of a sermon to be preached by Rev. Herbert E. Hays at the West Hollywood Presbyterian Church tomorrow evening. The morning topic will be "The Church's Impact Upon the World."

"Christian Science—Is It Science?" will be the theme of a discourse by Rev. W. F. Richardson at the Hollywood Christian Church tomorrow evening. Morning services will be in charge of Rev. Charles R. Hudson of Pomona.

"The First Quest" is the sermon subject of Rev. Howard D. Friend's tomorrow morning at the Church of the Messiah (Congregational.) The 5 o'clock vesper service will be in charge of the Young People's Society.

"The Finality of the Gospel of Christ" and "Our Hope" are the sermon subjects for tomorrow morning and evening, respectively, of Rev. Wilbey Martin, D. D., at the First Methodist Episcopal Church of Hollywood.

Rev. M. Grant Nelson will preach at both services at the Orchard Avenue Baptist Church tomorrow, his subjects for morning and evening, respectively, being "The Daily Impression of One's Life" and "The Story of Samson, or The Only Safe Attitude Toward Sin."

"The Blood of Christ that Purges the Conscience from Dead Works" is the subject of a sermon by Rev. William Hohberger at Mount Calvary Evangelical Lutheran Church tomorrow morning. In the evening Mr. Hohberger will preach on "The Personal Union of the Divine and Human Natures in Jesus." Lenten services will be held at the church next Friday evening. Rev. Charles Kilgore will be in charge of services tomorrow morning at Trinity Baptist Church. Evening services will be under direction of Rev. J. E. Twitty.

"Theories and Facts of Redemption" is the subject of a sermon by Rev. A. S. Donat at Pilgrim Congregational Church tomorrow morning. At the afternoon vesper service, Mr. Donat will preach on "The Little Man with a Big Heart."

At the invitation of Rev. M. Howard Fagan, W. C. Pearce of Chicago, one of America's most prominent Sunday-school workers, will be in charge of Sunday-school work and of the regular service at the Wilshire Boulevard Christian Church tomorrow morning. No evening service will be held at the church, on account of the union revival now in progress at the Wilshire Methodist Church. Plans are being made by the pastor and board of elders for a week's evangelistic campaign, to start March 28.

"Saved to Service" and "True to Our Colors" are the sermon subjects of Rev. Daniel T. Thomas at the Carvanna Congregational Church tomorrow morning and evening.

"Outis-Mania—What is It?" is the topic for a lecture by Mrs. Margaret LaGrange tomorrow morning in the assembly-room of the Hotel Alexandria, headquarters for the First Ensenada New Thought Church.

Dr. R. M. Donaldson will preach at Highland Park Presbyterian Church tomorrow morning on the subject, "Christianity and Educational Atmosphere." In the evening Dr. Campbell Coyle will preach on "Sound Impatience." During the coming week, Gospel meetings will be held every evening except Saturday.

Rev. S. M. Bernard will preach on "No Man Careth for My Soul" tomorrow evening at the Pico Heights Christian Church. The morning service will be in charge of Miss Cynthia Pearl Mann of Cincinnati, who will give an address on "Youth, the Hope of the Future Church."

"Bringing our Friends to Jesus" is the theme for a discourse by Rev. George C. Wright at the Atherton Baptist Church tomorrow morning. In the evening Rev. D. S. McGlashan will speak on "Some Observations of Mission Fields on a Trip Around the World."

"The Believer's Refuge" and "Quenching the Spirit" are the subjects of sermons for tomorrow morning and evening, respectively, by Dr. W. K. Bell at the Angelus Mesa Congregational Church.

Dr. Otto Wilke will preach at both services at the Larchmont Heights Methodist Church tomorrow, his subjects for morning and evening, respectively, being "Supplementing the Affections of Christ" and "The Gospel in the Brief."

Dr. W. K. Dysinger will preach at the First English Lutheran Church tomorrow morning on "Christ's Testimony Concerning Himself." The subject for the evening will be "Consequences of Our Choice." The sublect for the Young People's Meeting at 6:15 p.m. will be "Jesus Rejected." Solos will be rendered by Earl C. Hook.

The subject of the lesson-sermon in the Christian Science churches and societies of Los Angeles tomorrow morning, will be "Matter." Sunday evening services are held in First, second, Third, Fifth and Sixth churches, and every Wednesday, in these churches, meetings are held which include testimonies of Christian Science healing.

A free lecture on the subject, "Transformed" will be delivered by F. P. Sherman at the Gamut Club Auditorium tomorrow afternoon at 3 o'clock. The lecture is to be given under the auspices of the International Bible Students' Association.

"Sharing God's Time" and "The Christian's Reward" are the sermon subjects for tomorrow morning and evening, respectively, of Dr. W. G. Mills at St. Paul's Presbyterian Church.

Rev. J. M. Schaefe, pastor of Pico Heights Congregational Church, announces that services for which are located in the Berendo Auditorium, will preach tomorrow evening on "The Greatest Achievement." A sacred recital will also be rendered in connection with the service. In the morning Mr. Schaefe will preach on "A Positive Faith."

"The Long Trail" and "Early Christians" are the sermon subjects of Rev. W. K. Tilroe, D. D., for tomorrow morning and evening, respectively, at the Lake Avenue Methodist Church, Pasadena.

The following ministers will be in charge of the Lenten services to be conducted next week at the Union Congregational Church: Tomorrow evening, Dr. James Hamilton Lash; Tuesday evening, March 23, Rev. William Davies; Wednesday evening, Dr. Lash; Thursday evening, Rev. Henry Stauffer; Friday, Saturday and Sunday evenings, Dr. J. F. Hyland.

"The Greatest Commandment, or the True Religion" is the subject for a sermon by Dr. C. F. Winbigler at the Central Baptist Church tomorrow morning. The subject of the evening discourse will be "A Coward and His Doom," and, in a prelude, Dr. Winbigler will answer the question, "How Can We Practically Meet the High Cost of Living?" Harold de Gress will sing at morning and evening services.

Rev. James R. McIntire, who for five years was pastor of the Vermont Square Christian Church, will preach at the Little Church, Fifth Avenue and Fifteenth Street, tomorrow morning and every Sunday thereafter until after Easter. Mr. McIntire's subjects for tomorrow morning and evening, respectively, are "A Child's Life of the Mighty Spirit" and "Ideal and Real Foundations."

Rev. L. Thornton Rathman will preach tomorrow morning at the Lincoln Heights Baptist Church on "Life's Storms." Vesper services will be conducted at 5 and a Young People's Meeting at 6:30 p.m. At 7:30 p.m. Mr. Rathman will preach on "Crossing Over on the Other Side."

"Christ the Way, the Truth and the Life" and "The Conversion of a Great General" are the subjects to be discussed tomorrow afternoon and evening, respectively, by Rev. Ray C. Barker, D.D., at the West Adams Methodist Church.

Rev. Marcus F. McClure will preach on "A Notable Trades and Labor Assembly Platform" tomorrow evening at the First Presbyterian Church of Hollywood. Morning worship will be in charge of Dr. Charles L. Borlaugh of Cleveland, O.

"God's People Forward—Spying out the Land" is the subject of a sermon by Rev. Dan Amos Trundle at the Alvarado Street Christian Church tomorrow morning. In the evening, Mr. Trundle will preach on "The Workman, Unashamed."

Rabbi Edgar F. Magnin will interpret a masterpiece of the Bible at 10:30 o'clock this morning at the Congregation B'nai B'rith.

Rev. Thomas Van Ness of Boston, who has just returned from a trip through China and Japan, will give a lecture, at the First Unitarian Church tomorrow evening, on the subject, "The Soul of America as it is Displaying Itself to the Orient."

"All Things Work Together for Good—Do They?" This will be the subject of a sermon by Dr. John Snape at the Hollywood Baptist Church tomorrow morning. At the evening service, Wayne Allen will speak on "What a Flier Thinks About When He is up in the Air," and Dr. Snape will preach on "Mounting up on Wings as Eagles."

Two free lectures, in the Swedish language, will be given tomorrow evening at the Flower Auditorium by R. Sunesen and Axel Walman. Mr. Walman will speak on "The Millennium and Its Culture" while Mr. Sunesen will lecture on "The Danger that Threatens the World."

Dr. Bruce Brown will preach tomorrow morning at the White Temple on "The Gain of Giving." The subject for evening will be "John Calvin and the Presbyterian Church."

Rev. Louis Tinning will be in charge of both services at the Sunset Hills Presbyterian Church tomorrow, preaching in the morning on "Dollar a Year Men" and in the evening on "Are Men Fair with God?"

C. P. Wadis will give a free lecture at 3 o'clock tomorrow afternoon in the temple at Krotona Institute of Theosophy, speaking on "Karma, the Maker of Destiny."

Members of the "University of Christ" will hold a special meeting next Tuesday evening at the Home of Truth. The men of the class of 1920, will be the hosts.

"Spiritual Healing—Is It Real and Has it a Place in the Church?" is the question to be discussed tomorrow morning by Rev. F. C. Marshall at St. Athanasius Episcopal Church.

Swami Paramananda of India returned to Los Angeles yesterday after an absence of a year during which time he conducted meetings at the Vedanta Center in Boston. During his stay in Boston, Mr. Paramananda translated the Upanishads into English.

Rev. William Davies will preach at the Vernon Avenue Congregational Church tomorrow morning on "The Church of the Living God," and in the evening on "Shall We Recognize Each Other in Heaven?"

"The Higher Happiness" and "The Imperious Ought" are the subjects to be discussed tomorrow morning and evening, respectively, by Rev. Henry Stauffer at the Park Congregational Church.

A memorial service for the late Rev. Edwin C. C. Little will be conducted next Monday morning at the Y.M.C.A. at the meeting of the Ministerial Association of Los Angeles.

PASTOR QUITS CHARGE HERE.

(Continued from First Page.)

particularly when the individual's congregational infidelity has been inexcusable through more than a year.

"The First Christian people and I have had a fairly happy two years' association, and I had hoped to make my pastorate long and constructive in Los Angeles as the best place on earth in which to live and work, but when my official board repudiates my moral leadership, by compliance with a wrong and pernicious custom, strengthening the world's contempt for the church, and makes affirmations unsupported by the facts, I prefer to stand by the facts, and lose the support of friends however hitherto agreeable. The church which fears criticism by an unfaithful member and his sympathizers is spaghettized in the spinal-column."

Mr. Daugherty says there has been no trouble between him and the church, that their relations have have been friendly and agreeable until this matter came up. He says his plan has been all with the First Christian Church and that he has nothing in prospect. He added that it is embarrassing to lose his position and salary and that he proposes to take the first honorable job offered to him.

Charles H. Lemmex will preach at the church tomorrow morning and Charles Darsie, national Bible school superintendent, will preach tomorrow evening.

MRS. JOY CLARK DIVORCED.

Mrs. Florence Wood Clark, whose wedding to Joy Reichelt Clark, in this city, September 1, 1913, was a brilliant social event, was granted a divorce in Judge Crail's court yesterday on the ground of desertion and nonsupport. Mrs. Clark told a brief story of marital unhappiness due, she said, to the fact that Mr. Clark would not work and support her. She finally told him two months before he left her that he would have to seek employment, as her father, though wealthy, should not be further burdened with their support.

Mr. Clark told her, she said, that he would not work. Charles Medini-Wood, Mrs. Clark's father, testified that he had secured his son-in-law a position paying $200 a month. He said that he had supported the couple for some time.

Attorney Sam Haskins, representing Mrs. Clark, showed by letters and other documents that Mr. Clark had been served with the divorce papers by publication. Mr. Wood testified that he did not know where his son-in-law is.

Mrs. Wood was in the hospital when her husband went away. She said he told her he would be absent three weeks. At that time he was in Red Cross work. An official of the Red Cross testified that Mr Clark's work took him to France.

Mr. and Mrs. Clark have two children, Betsy Ann Clark, aged 4, and Perry Wood Clark, 3 years old. The parents separated May 14, 1918, the complaint says.

WEARS FUR AND GOES TO JAIL.

Jones Looks so Hot in Bear Skin that Sheriockian Officer Grabs Him.

A heavy bearskin overcoat, in which he appeared to be very hot, yesterday brought about the arrest of Frank J. Jones, 32 years of age, by Patrolman George Henry, on a charge of grand larceny, and saved the coat for G. P. Mathewson, manager of a large downtown hotel. Jones was taken into custody at Sixth and Broadway.

According to Patrolman Henry, he first saw Jones at Fifth and Broadway, wearing the heavy fur coat, and after following him to Sixth street, placed him under arrest. At Central Police Station Jones confessed to stealing the coat from a downtown hotel. He stated that he had been ill, and needed money.

WANT PLAYGROUNDS AT BUDLONG SCHOOL.

More than 300 taxpayers in the vicinity of the Budlong-avenue school this morning asked the City Council, by formal petition, to begin proceedings for the acquirement of land for a public playground in the vicinity of this school. It is proposed to form an assessment district for this purpose.

The site desired is land bounded by Kansas avenue, Vermont avenue, Fifty-ninth and Sixtieth streets, and it is proposed that the assessment district shall include the area lying bounded by South Park avenue, Vernon avenue, Manchester avenue and Arlington street. The petition was referred to the City Engineer for a report on the street frontage represented.

ENTERTAIN MANY ALIENS.

Under the auspices of the Americanization department of the Y.M.C.A., with Fred Meyer in charge, a programme, including songs and literary numbers and the showing of motion pictures, was given last evening in the Italian mission at Avenue 20 and Mozart street, with 300 aliens of many nationalities as guests.

DISCUSS PLAZA DEPOT PROJECT.

Subcommittee Names Barnard as its Chairman.

Will Consider Engineering Problems Involved.

Canvass Shows but One Member Opposed to Site.

W. K. Barnard, representing the Business Stability Association, was yesterday elected chairman of the subcommittee appointed by the City Council and State Railroad Commission to consider, from an engineering standpoint, the recommendations of the Railroad Commission concerning the location of a union passenger terminal at the Plaza.

With the exception of Ralph Bennett, representing the Municipal League, the members of the subcommittee yesterday informally expressed themselves as generally approving the report of the Railroad Commission, and the future meetings of the subcommittee will be devoted to considering the possible solution of engineering problems which the building of the proposed station at the Plaza will involve, such as the practicability of closing Alameda and Los Angeles streets.

Samuel Storrow, representing the Civic Center Association, expressed the opinion that Los Angeles fifty years hence will require more than the forty-acre site contemplated for a station at the Plaza, and suggested that plans for enlarging the station and trackage at a future date be considered in the report of the submitted by the subcommittee. The next meeting of the subcommittee will be held at the offices of the Railroad Commission in the Union League Building at 2 p.m. Monday, at which time Mr. Bennett will set forth his objections to the Plaza site.

Other members of the subcommittee present yesterday were H. Z. Osborne, Jr., chief engineer of the Board of Public Utilities; Harry Hawgood, representing the Chamber of Commerce; George A. Damon of the City Planning Association; W. H. Workman, Jr., of the City and County Viaducts Committee; Roy C. Seeley of the Realty Board; Herbert Goudge of the Business Mens' Association; H. G. Weeks and A. A. Anderson of the engineering department of the Railroad Commission.

ADMITS HE'S DESERTER.

Frank O'Connor, alias Frank Kelly, charged with contributing to the delinquency of Charlotte Grist, 18 years of age, confessed to Judge Reeve of the Juvenile Court yesterday that his real name is Edgar O. Donovan, of Wilmington, Del., and that he is a deserter from the army.

The confession came after Judge Reeve continued the case for two weeks to ascertain whether or not the defendant is still an enlisted man. A valise belonging to Kelly has attached to it a Camp Kearny sticker.

Kelly asked if he could talk to the judge privately, and was taken into chambers. He said he deserted from the Eleventh Cavalry Machine Gun Battery at Calexico some months ago. The court remanded him to the County Jail and ordered that the military authorities be notified.

Donovan met Miss Grist while he was employed at a moving-picture studio. He made the unique defense that she had smiled at him and he could not resist her smile.

LOSES HER CASE.

Miss Edith Kennedy, a scenario writer, who claimed she was injured in an automobile accident, lost her suit for $20,000 by the verdict of a jury in Judge Myers's court yesterday. The action was against Theodore E. Burger, a manufacturer of electrical equipment.

How Union Labor Feels Toward the "Red" Agitators

For months editorials from city and country papers alike have warned us of the danger of "Red" agitators. We have been told that they are making every effort to foment strikes, hoping they eventually will end in revolution; that the American workingman is becoming infected with the virus of Bolshevism; that he is already turning Bolshevik, as evidenced by recent strikes of great magnitude. For these reasons The Literary Digest was determined to find the views of the workers themselves. We accordingly sent a letter to hundreds of labor-leaders throughout the country, and in order to make no mistake about it, we did not merely ask if the workers disliked or disapproved the "Red" agitators—we asked if they approved their deportation. In plain language, should they be kicked out of the country?

A comprehensive summary of the 526 replies received is given in THE LITERARY DIGEST for March 20th. It will prove astounding reading to those who have ventured to doubt the loyalty of the American workingman. The article is well illustrated with pertinent cartoons.

OUT OF PEACE.

It is with regret The Times records that ratification of the peace treaty has again been beaten in the Senate. The administration forces, coupled with a small group of Republican bitter-enders, voted down the compromise resolution of ratification which the majority had been more than two months in drafting. As the sentiment of the country is overwhelmingly against a separate peace with Germany, the United States must remain technically at war until there is a change of administration next year. The result was unfortunate, but not unexpected. Ten days ago sixty-one Senators had tentatively agreed to vote for ratification with reservations; but word of the compromise reached the White House and President Wilson sent a letter to Senator Hitchcock calling upon all friends of the administration in the Senate to oppose the resolution of ratification as drafted. The President demanded ratification without reservation, or rejection. The result was rejection.

While the treaty will be dragged through a national campaign, the issue is not likely to be presented to the people in the form the President desires. He would like to have a popular vote on the treaty as written; but a majority of the Democratic leaders are not willing to risk a campaign on ratification without reservations. The San Francisco platform will probably call for ratification with mild reservations, and the Chicago platform for ratification along the lines of the resolution beaten yesterday by Democratic votes in the Senate.

Four years ago the Democratic slogan was, "He kept us out of war"; but this year the Democrats will have to go before the country on the record of having kept us out of peace. The responsibility for the defeat of ratification rests with the President himself. His letter to Senator Hitchcock demanding ratification without reservations defeated the last hope of a compromise. His attitude is a crushing disappointment to millions of Americans who hoped for ratification in some form, in order that America might help to stabilize world conditions and make reconstruction on an international scale possible.

Hope deferred still remains to the friends of the League of Nations. Ratification for the present is impossible; but a new administration will be in the White House twelve months hence, and the bitter-enders will have been unhorsed, most of them.

SWAT THE MOSQUITO.

Plasmodin vivax is the name of a protozoan that finds lodgment in the mosquito and is responsible for malaria and a nasty bunch of diseases that wrack the human frame. Vive the ax for the vivax!

A NEW COMPLEXION.

The War Department appropriation bill has items for talcum powder and chamois skins. If war is going to take on a new complexion, as thus indicated, there should be no dearth of enlistments. But maybe this stuff is for the infantry only.

WASTING TIME.

When a country is chopped up in small pieces and is a chopping block for half a dozen different parties it seems foolish to start another fight over the question whether a man should stand up or lie down when the band plays "Deutschland Uber Alles."

GOOD OLD DOC.

The Health Commissioner wants about ten more doctors assigned to the city schools at a cost of about $30,000 more a year. There are children staying out of school because the Board of Education has no money to pay the necessary extra teachers, and yet it is proposed to install another squad of trained physicians to check up on adenoids and symptoms of sleeping sickness. Of course, the Board of Health can demonstrate the vital importance of all this, but there are a lot of people who will really have to be shown.

GOING DOWN.

The head of the national psychopathic laboratory sees very little but gloom ahead. He gravely announces that decadence of the nation can only result from the ascendancy gained by women in affairs. He puts it quite bluntly. Says he: "The women have secured the drop on the men in this country. The nation has put its head in the noose of puritanism. Degeneration of the individual and national failure are inevitable."

Men who cannot get a drop for love or money will wonder how the women secured it and will feel that if the dames have that much start they might as well have the country. Poor old man doesn't amount to much any more. The professor admits it. He says: "American pep, which was the result of a masculine-dominated country, is almost a thing of the past."

Without his drop and his pep man is indeed a goner. Little he thought when he gave woman the vote that he was at the same time passing over the title deeds to his own inheritance.

According to the professor he is only a feeble imitation of a skirt.

Another thing to be blamed on prohibition.

CRIMES OF VIOLENCE AND LUST.

HOWEVER calloused one may have become to human suffering he cannot fail to be impressed by the increasing volume of frightful crimes of violence which are sweeping over the country like a strange mental malady. They are startling alike in their number and variety. There are automobile killings that are nothing short of murder; there are holdups, crimes against chastity, burglaries, bank robberies, murderous assaults of husbands upon wives; mothers kill children newborn and yet unborn; wives and children are killed by husbands and fathers; addicts kill to secure money to buy prohibited drugs and liquors; defaulters kill to cover traces of their crimes; radicals burn and slay, cloaking their murders under the guise of patriotism. Daughters accuse their fathers, and nieces accuse their uncles.

There seems to be an irrepressible mania for shedding blood and experimenting with vice and the illicit. The laws of God and man are alike helpless to prevent this Saturnalia of crime. A whole generation is seeing red. Some of the killings are from mere wantonness. Cults of Reds commit murder in search of a new sensation. Often a crisis of nerves is deemed sufficient justification for taking human life. The inhibition "thou shalt not kill" is as much out of date in certain social and unsocial circles as the other nine commandments.

It is not a whole generation gone mad; but the homicidal mania has become more acute; crimes of violence are bursting forth like escaping gas; it is a wild, uncontrollable force that fascinates while it shocks, and weak intellects are carried wholly off their mental balance. It matters not what vengeance follows swiftly after; even the death penalty has ceased to be a potent preventive force. Pent-up passions burst forth, regardless of consequences. Almost every day in Los Angeles some store is robbed: almost every day there is a shooting, and generally a woman in the case; almost every morning brings a sensational divorce scandal or family break-up; almost every week has its sordid court trial, such as that now going on for an alleged violation of the Mann Act—one of the most shocking of them all. The public records teem with depravity. One nasty horror succeeds another in the day's annals—and meanwhile thieves multiply and automobile tragedies, due to devilishness, increase. It is a haggard, affrighting picture of the community that the press must portray.

Many of the symptoms are indicative of latent anarchy; and it is well to remember that anarchy is born of repression. Either the lid of the kettle must be tipped or the fire must be turned down. Thoughtful citizens are coming to the opinion that the lid has been screwed down without turning off the gas. Panaceas have been tried; but none of them serves as a specific. Preventive and punishment are helpless to stop the increase of crime. Something in the social machine is not functioning properly and The Times regrets to admit that no one has yet been able to locate definitely the fault.

Citizens are demanding a greater police force; they imagine that it will be possible to so thoroughly patrol the city that crimes of violence can be prevented. The Chief of Police says that more men are necessary to protect the public safety, that crime, which once seemed to be localized to certain districts, now spreads over the whole city. But it is doubtful if this remedy will achieve lasting results. The modern vandals of violence no longer cringe at the sight of the police. They seem to have lost all fear of or respect for the law. During the last six months the police of Los Angeles and the deputy sheriffs of Los Angeles county have been remarkably successful in apprehending criminals, and the courts have imposed sentences that are increasingly severe. But life and property are not more secure. The deeds of violence are greater in number and more horrible in detail than ever before.

Some men seem to have grown more brutal, and the divorce court records indicate that women of a certain type are more faithless. Never before did so many men go home at night and beat their wives; never before were so many men so heartless in the treatment of their children. Curiously enough, the crimes committed by children have decreased but the adults have grown more bloodthirsty. No subject which confronts the public at this time commands more serious attention; but no remedy has been found. We have reached a state of civilization which recalls the witticism, "It is dangerous to be safe."

Those who have given the subject the most thoughtful consideration have reached the conclusion that there has been too much repression, that too many bricks have been piled upon the safety-valve. The experience of the ages proves that human emotion must have some means of expression; that human passions must have a vent. It was one time held that fasting was conducive to spirituality; but there have been very few spiritual manifestations among the starving peoples of Europe.

Perhaps the most egregious of human follies has been to believe that human nature could be modified or subdued by legislative action; that a whole generation could be inoculated with the moral virtues of the teachers of the Sunday-schools, that they could be rid of the desire for occasionally breaking loose. Blue laws have an uncanny knack of inciting red revolts. Repression is the mother of insurrection. The age of the Stoics was followed by an era of wild license that destroyed the Roman empire. After Cromwell came a reign where lasciviousness was king. When the Czar took from the Russian people their vodka he signed the final act of repression that cost him and his family their titles, their property and their lives.

In human nature there is a something that grows wicked under too much restraint. We are not propounding a theory but stating a fact. Robespierre found when too late that he could establish his republic of virtue only on the graves of a slain generation; that men and women could be imprisoned, tortured and murdered by government decree, but that they could not be made to abandon a single custom or vice inherited from their fathers.

It is not in the statutes of the government but in the hearts of the new generation that morality and a love of virtue must be written. It is plain that the efforts of the present generation to reform and make over men and women by legislative enactment has not proved a success. The more prohibitory laws, the more crimes and a louder call for more policemen. If there is to be any defense against increasing acts of violence it must be along the lines of giving a greater legal vent to human emotions, to providing a safety valve until the hot fires of passion can be cooled through the proper instruction of the coming generations. We are in the midst of the storm and whirlwind of insurrection awakened by excessive repression. The only consolation comes in the thought that the clouds of today, however deep their shade, cannot obscure the sunshine of tomorrow.

HOOVER ON THE LEAGUE.

Herbert Hoover made a final appeal on Friday for the immediate ratification of the peace treaty. He pointed out that "the world is steadily drifting back to a worse state of international antagonism than existed before 1914," and expressed the belief that the only recourse to preserve the ideals for which America fought was to join at once the League of Nations and help make international justice superior to selfish national interest.

Mr. Hoover preferred, however, that the resolution of ratification should contain reservations which will fully protect American sovereignty and keep this country from being involved in scores of treaty commissions dealing with purely European matters. He is not in sympathy with the coterie of administration Democrats who have defeated the treaty because they object to interpretative reservations. Like the good business man that he is, Mr. Hoover wants to set the League of Nations functioning, leaving the settlement of minor differences to the future. He is entirely too practical to permit "the best" to be the enemy of "the good."

The stand which Mr. Hoover has taken accords with that of Mr. Taft, Mr. Root and Mr. Hughes. He would make plain to the other members of the League that this country will not give up its sovereignty to join an international organization, but that it is willing to take up its fair part of the burden of preserving the peace of the world. Mr. Hoover does not advance any new arguments in support of his position. He simply affirms what others have said in favor of America bearing its share of the responsibilities of the "League that was created at our inspiration and upon which the entire theme of settlement—our real hope of a better world—revolves."

The "flu" has come and gone and nobody has yet suggested a remedy.

CONSTANTINOPLE AND THE BRITISH.

There is a good deal of dissatisfaction over the decision, probably arrived at through British influence, to retain the Sultan at Constantinople. Driving the Turk out of Europe has become a hopeful slogan with many people, but there are factors to militate against this consummation so devoutly to be wished.

The whole question is largely a religious one, embodying respect for the susceptibilities of the Moslem faith, of whose adherents the world contains many millions. Britain's empire contains nearly two hundred millions of them, chiefly in India, all of whom recognize the Sultan as their spiritual head, and Constantinople as the sacred capital. To drive the Sultan out of Constantinople would be equivalent to driving the Pope out of Rome, and the long-heralded "Holy War," in which all Moslems in every part of the earth would combine against the Christians, might become a dread reality in such a contingency.

Britain is not alone in recognizing this condition. Most of the powers, including the United States, rule over large Moslem communities. The recent census gives us nearly a million in the Philippines. France and Italy have their North African Moslem dependencies. And in addition the Moslem faith is held by enormous quotas in China and Japan.

It is therefore disturbing to imagine the stressful pass to which the Allies must have been brought when Constantinople was conceded to Russia by secret treaty in the early days of the war. Russia must, indeed, have seemed to hold the whip hand in those dread days—the period when she was making her successes against Germany under the Czar. It is easy to see the ominous misgivings which must have followed the bargain, and the virulence with which the Allies are now repudiating it as against the Bolshevik government in Russia. The Sultan is mighty in his apparent weakness, and with all his misrule and seeming impotence Constantinople will remain his stronghold by, as is now becoming obvious, the will of the big European powers. Dire expediency must protect the integrity of Constantinople for the Moslems, otherwise another and more terrible world war would seem inevitable.

It is easy for the enthusiastic but uninformed to shout "Drive the Turk out of Europe" and to condemn the present action of the Allies. It is easy to cite a hundred reasons, including the Armenian atrocities, for so doing. But the question is far wider and deeper, as the informed are poignantly aware. Not for nothing did the Young Turk party, with all its progressive republican theories, retain the Sultan in power with his religious supremacy. To Moslems the Sultan is no ordinary human being, no ordinary monarch, but has divine mandates direct from God. An insult to their Sultan is an insult to their religion, and to the Moslem his religion is life itself.

World statesmen have therefore a mighty problem in regard to Turkey. Every move they make now is watched by many millions of critical Moslem eyes. The final solution will be found to leave the Sultan and his European possessions practically intact, subject to essential restrictions and watchful guidance. But if the United States is anxious to avoid entangling alliances it is wise in its day to refuse a mandate in that quarter. The Turkish question is loaded to the muzzle.

AROUND TOWN. By GALE

RIPPLING RHYMES.

A WINDY DAY.

The wind was blowing hard today, it nearly blew my rags away; it filled my ears with sand and dust, there was a kick to every gust; it lifted off my only tile and carried it about a mile; to keep it from abducting me I had to anchor to a tree. With hair and sideboards twisted loose, perhaps I had a good excuse to sin a while as others sinned, and curse the blamed dingbusted wind. But I was tempted much to sing, for winds are harbingers of spring; they come before the gentle rains that bring the verdure to the plains; they are the heralds of the time when roses make the world sublime, and all the air with gladness throbs, and doodads bloom and thingumbobs. The wild wind pushed me through a fence, it raged as though it had no sense, it dumped me in a muddy pool hard by the village eighth-grade school; it split and spoiled my Sunday coat and wound my shirt around my throat; it hustled me all over town, then took and stood me upside down, and still, until my voice grew hoarse, I loudly blessed its pep and force, for it was proof, and something more, that spring was smiling at the door.

WALT MASON.

OUR SUNNY FRIEND

My Brother John and I.

My brother John hath a goodly store
Of things that the world calls rare,
Houses and lands and yellow gold
Wherever chattels are boughten and sold,
My brother John hath ware.
Ships he hath in the strange Levant,
Mines in far Peru,
I have my dreams and you, dear heart,
Only my dreams and you.

My brother John hath friends a-plenty
Among the rich of earth and the great,
Lord and baron and millionaire
Are proud to know him and greet him fair;
A power is he in the state;
Much power hath he in the world of men,
With Turk or Christian or Jew,
I have my dreams and you, dear heart,
Only my dreams and you.

We are two sons of a mother born,
My brother John and I,
And one of us dwells in a world of care
And turmoil and envy are ever there,
And one 'neath a cloudless sky.
The world calls my brother Fortune's son,
Not I, though my goods are few,
I am rich in wealth he may never know,
Since I have my dreams and you.

No Royal Road.

Billie Lale says when he was a bashful young buck around town he used to hear and to envy the young fellows as they bragged around the poolrooms about how popular they were with the ladies.

Later he roomed in the same house as two of these same guys and he used to hear them talking and trying to make dates over the phone and he learned that there isn't any royal road to queening any more than to the mastery of any other of the useful or ornamental arts.

A William Desmond face helps and a Hiram Johnson tongue helps, but persistence is the high card of the queener's deck.

The one who had remained in the village was showing the sights to the one who had come back on a visit.

"Yes," he said, "Rollo realized the promise of his youth. He got a position in the bank and spent thirty years there respected and honored by the entire community. That is his house you see there overlooking the harbor," and he pointed to a comfortable cottage with green window-blinds.

"And whose is the adjoining one?" and the visitor pointed to a pretentious Swiss chalet, even the garage of which overshadowed the banker's residence.

"Oh, that belongs to Henry, his rattle-brained brother. He couldn't and wouldn't heed the advice of others and so was nothing more than a longshoreman."

Events That Should Have Happened.

The beggar of the doleful countenance continued to weep, even after Haroun al Raschid had given him a second purse of gold. Scenting a tale the good caliph seated himself on a near-by stone and besought the beggar for an account of his life.

"Thou hast heard, of course, of the Enchanted Cavern of the Genii of the Rubber Arm?" asked the beggar.

The caliph nodded. Some of the court ladies had tried to walk through it without asking any questions.

"Know, then, bountiful stranger," proceeded the beggar, "that I have a wife who was born dumb. Last week it occurred to me that she could on this account make the trip according to specifications, winning the bushel basket of precious stones offered by the genii.

"Thursday we made the start. We passed the Lake of the Floating Catheads, the Cauldron of the One-Eyed Wampus, the Crater of Lost Souls and, in fact, the Nine Wonders of the Cavern. My wife's eyes were living interrogation points, but her lips remained sealed.

"The genii met us as we passed the Ninth Wonder.

"On his arm hung the bushel basket of stones glowing like live coals even in the somberness of the cavern.

"'Wonderful woman,' he said, 'surely the first that Allah ever created devoid of curiosity. I will go beyond my offer and give you in addition to these stones any earthly gift you may desire.'

"My wife pointed to her lips.

"'She desires her speech,' I said for her; he waved his hand—

"'And I want to know,' she burst out, 'the meaning of the Floating Catheads, and—' but at that there was a crash and we were again in our miserable hovel and minus the precious stones, and alas for me my wife retains her speech and talks me to death with the fool questions that have been accumulating during the sixty speechless years of her life." He said he would like to see a practicable arrangement for loaning the Allied countries $2,000,000,000 to $3,000,000,000 without immediate interest demands, to enable them to get on their feet, bring exchange to normal and re-establish these European countries as producers of their own goods and consumers of the products of the United States.

Business men of America should not lose their heads and become pessimistic, he asserted, but should consistently work to bring conditions once more to normal. If this is not done, he declared, the abnormal conditions of today will become fixed, and will be the normal conditions of tomorrow.

...DOUBLE POWER OUTPUT.

...ipal power system of ...has a present annual ...,000,000 kilowatt hours, ...1925 it is expected this ...ed to 300,000,000 kilowatt hours, by reason of bringing into commission the new power plant in San Francisquito Canyon. By January 1 of next year it is expected the city will be in a position to produce 300,000,000 kilowatt hours of electrical energy.

These are figures set forth in a statement just made by the Board of Public Service Commissioners to the State Railroad Commission. A short time ago President Edgerton of the State board sent to the city commission a letter in which he set forth the great shortage of electrical power that is imminent in California, and urged the necessity of the city of Los Angeles doing all within its power to help relieve the situation by developing more hydroelectric power from the Los Angeles Aqueduct. The reply of the Public Service Commission states:

"Receipt is hereby acknowledged of your letter of the 26th ult., regarding the electric power situation in this State as the result of water shortage, and urging further development of power by the city.

"We are pleased to say, in reply, that the city, despite harassing litigation and obstructive tactics resorted to by enemy interests, and having the effect of tying up funds specially authorized and provided for the purpose, has undertaken the construction, out of its general resources, of its No. 2 power plant in San Francisquito Canyon, at a cost of approximately $1,500,000, and the work has proceeded to the point where there is good prospect of completing the first unit of the same within the next ninety days.

"At the time of the receipt of your letter, our board had under consideration plans and specifications prepared by its chief electrical engineer for two small additional plants, with an aggregate capacity of approximately 12,501 horse power, to be located quite near the city and designed to utilize the flow of water in the city's aqueduct. Acting upon the urgency of the situation to which your letter related, the board on the 28th ult., ordered advertisement for bids for the machinery for these plants to be received early in the coming April. It is anticipated that these plants will be completed and put into operation by the coming fall.

"The situation of the municipal power system of Los Angeles as regards present and immediately prospective output is a follows: Present annual output, 170,000,000 kilowatt hours; by June, 1920, 260,000,000 kilowatt hours; by January 1, 1921, 300,000,000 kilwoatt hours."

POWER-RATE RISE SURE.

Due to an increased demand for electric power and a corresponding need for equipment to supply that demand, a rise in the power rates of the State is inevitable, according to Fred Darlington, Power Administrator during the war, who is here making a survey of the hydro-electric development in California.

"There are numbers of industrial establishments looking to this district who have announced their intention of locating here as soon as sufficient power is available," he said yesterday. "The power companies were unable, during the war, to take care of the demand made by local organizations. Equipment has been taxed to its utmost capacity. Replacement is now necessary and as there has been little, if any, increase in rates, it is only fair to the producer that the rise should be granted now."

All the steam generating plants of the State are being run at full capacity as well as the hydraulic plants, he said, and in some sections manufacturing plants are operating in the night in order to spread the power load over the twenty-four hours.

"The State will be permanently effected unless some action is taken," he continued. "The people realize that the companies must receive a revenue in order to continue business and it is my belief that an increase will not be denied. The public has the right to demand an adequate supply of power for all industrial and domestic needs but this can not be given without an increase in rates."

Mr. Darlington is connected with the Westinghouse Electric and Manufacturing Company and is here with A. A. Brown, sales manager of the corporation. Following a consultation with K. E. Van Kuran, local manager, they willl eave to complete their tour.

TO BRYN MAWR FUND.

Southern Californians Contribute Sizable Sumfi Helen Taft Coming.

Southern Californians already have pledged $2000 to the Bryn Mawr endowment fund, it was stated yesterday by Mrs. A. S. LeVino, chairman for the Southern California campaign district. The principle reason for the campaign is to secure sufficient funds to raise the salaries of the Bryn Mawr professors and teachers. The sum aimed at by the campaigners is $2,000,000, of which $269,000 has already been subscribed. Mrs. LeVino stated yesterday that she expects that $25,000 of the total amount will be raised in the Southland.

Miss Helen Taft, acting president of Bryn Mawr and daughter of former President Taft, will arrive in Los Angeles, April 1, to speak in the interests of the campaign. She will speak at the Friday Morning Club on the morning of April 2 and on the following morning to the Woman's University Club. On Saturday night, April 3, Miss Taft will attend a subscription dinner to be given in her honor at the Valley Hunt Club in Pasadena.

ASK CITY TO RESTORE WILD-FLOWER GARDEN.

ACADEMY OF SCIENCES MAKES PLEA FOR AGRICULTURAL PARK WORK.

Dr. H. O. Collins, president of the Southern California Academy of Sciences, appealed to City Council yesterday as spokesman for the academy, urging an appropriation of public funds for the purpose of restoring the wild flower garden in Agricultural Park, a five-acre tract that was formerly a notable attraction in Los Angeles. There was much favorable comment on the work of the academy and the request was referred to the Finance Committee of Council.

In his plea Dr. Collins pointed out that in 1915 the city had provided money to create the wild flower garden from a weed-grown five-acre tract in the park facing Figueroa street. He told of the splendid profusion of colorful bloom that covered the tract for several years after the weeds had been cleared away and seeds planted. For several years the garden was well cared for, he said, and today on the tract is a small forest of thriving Monterey and Torrey pines, elderberry, oak, sycamore and varieties of redwood and other big trees, and flowering shrubs of various kinds.

But the annual flowers of which 246 native species were sown, each in its own bed, have for the most part disappeared, it is pointed out, due to lack of renewed plantings, and the garden which once was comented upon by eastern newspapers as one of the most remarkable displays of its kind in the world, has lost its distinctive beauty, and aside from the trees and shrubs of woody fibre, is rapidly returning to its original sterile aspect.

FIND OIL IN VALLEY WELL.

First Real Strike Reported from Brawley.

Evidence of Elusive Fluid at 1600 Feet.

Speculators Offer Big Prices for Stock.

[EXCLUSIVE DISPATCH.]

BRAWLEY, March 19.—What is believed to be the first authentic oil strike in the Imperial Valley was reported early this morning from the oil well of the Imperial Oil Development Company, fifteen miles northwest of Brawley and near Kane Springs, when after several months of drilling and when the well had attained a depth of 1600 feet bubbles of oil came floating to the surface late yesterday afternoon, forcing their way through several hundred feet of water.

According to those on the ground evidence that the oil strike is genuine may be secured by placing a small portion of muddy water on a piece of paper when the oil will be plainly visible.

There seems to be no doubt in the minds of hundreds of Brawley citizens that oil in the Imperial Valley has actually been struck and the road to the well all day today has been one continuous line of moving vehicles of all descriptions.

The first particles of oil came to the surface when the drill was going through a strata of asphaltum and Supt. Freeman, who is in charge of the drilling expects to strike the real oil pocket when the present strata is passed.

The water brought from the well today was extremely muddy and apparently was dotted with particles of oil.

The wells have been under way for the last six months and early last fall a flow of gas was encountered. So heavy was the flow that matches were forbidden near the well and at one time the derrick caught on fire and it was only by the hardest of work that the rig was saved. Drilling was shut down for repairs about a month ago and resumed again about ten days ago. A week ago another heavy flow of gas was encountered and it was announced that if the flow became any heavier and oil was not struck, gas could be furnished valley towns.

Frank Beal, Supervisor from the Brawley district, is president of the company.

The oil strike produced the usual scenes with reference to stock in the particular well affected. It was said that several men toured the valley in automobiles this morning in an effort to buy up all the stock they could.

One person in Calexico who had heard of the reported strike asked $1000 for his few shares and when purchasers returned with the money he had raised his price to $10,000.

ADVERTISES CHURCH.

[LOCAL CORRESPONDENCE.]

REDLANDS, March 19.—There is some thief who seems determined to give the First Baptist Church plenty of publicity.

His latest stunt was to steal the automobile of Martin Lindblom from in front of the edifice, go for a joy ride, and on his return before the time for church to be out, to drive it over the curb, the sidewalk and up to the front door of the church.

Some nights ago the thief robbed the communion closet of the church, taking two dark bottles therefrom. No doubt he was completely astounded and disappointed to find that sweet grape juice is used in the communion of this particular church.

NEW THEATER FOR VISALIA.

[LOCAL CORRESPONDENCE.]

VISALIA, March 19.—Construction of a $90,000 theater building for the Pantages vaudeville circuit will begin here within sixty days, according to the announcement of D. S. Markowitz, general manager, and A. N. Jackson, secretary of the Crescent Theater in San Francisco. The house will have a seating capacity of 1700, and a special heating, ventilating and cooling system.

FRESNO NOTES.

[LOCAL CORRESPONDENCE.]

FRESNO, March 19.—Fred Hepner, a well-known citizen, was today arrested for maintaining an illegal liquor still. A large quantity of liquor made from raisins and apples was confiscated. A Federal charge will be made against him.

Holland & Holland, who have conducted a large department store here for a quarter of a century, disposed of their business amounting to $1,000,000 a year to Graff & Co., competitors. The Hollands will engage in building and realty investments.

W. A. Sutherland, former Senator, and law partner of Frank H. Short, was today elected to be manager of the new bank merger of the Central California Bank and Trust Company and the Farmers' National Bank, which will be merged into one bank soon, with Wylie M. Giffen, head of the Raisin Association, as its president. Sutherland will retire from the law practice.

ENDEAVORERS IN CONVENTION.

Christian Endeavor Delegates Assemble in Pasadena.

Plan to Organize Rotary at Crown City.

Special Train Takes Party to Ship Launching.

[LOCAL CORRESPONDENCE.]

PASADENA, March 19.—The twenty-eighth annual convention of the Christian Endeavor Society of Los Angeles county opened tonight at the Central Christian Church, with delegates present from many cities and towns of the county. Many more delegates are expected for tomorrow's sessions, and for the special religious exercises on Sunday, which will conclude the sessions.

Chairman A. L. Hamilton of the Pasadena City Commission welcomed the delegates in behalf of the municipality, and Rev. B. B. Jacques, pastor of Calvary Baptist Church, in behalf of the church organizations of the city. Dr. Lincoln Ferris of San Diego made an address on "The Name Above Every Name—Jesus." Harold Cross of Los Angeles, county president of the Endeavorers, presided.

With Pasadena filled with guests from the East, Middle West and North, the entertainment committee had to make wide canvasses to secure accommodations for the Endeavor delegates, but Mrs. J. B. Welles, chairman of the committee, announced late today that through the generosity of families which agreed to take delegates into their homes, the housing problem was solved.

ROTARY CLUB PLANNED.

Pasadena is to have a Rotary Club. A meeting will be held here next Tuesday for the organization of the club, C. J. Hall, vice-president of the Union banks, will preside, and Leo Chandler of the Los Angeles Rotary Club will speak.

MORE WOMEN JURORS.

Juries in the local justice courts will be comprised principally of women in the near future, says Constable J. C. Sosey, who avers there is a pronounced shortage of males for jurors.

WILL GO TO LAUNCHING.

A special train will leave Pasadena tomorrow morning at 7 o'clock over the Pacific Electric to take Pasadena officials and dignitaries to Los Angeles Harbor for the launching of the freighter Crown City. The ship will be christened by little Lila Dalrymple, daughter of G. N. Dalrymple, and grand-daughter of President William H. Vedder of the Pasadena chapter, American Red Cross. City officials and delegations from the Board of Trade and Chamber of Commerce will attend.

BIG DEMAND FOR COACHELLA DATES.

Date Industry Most Promising in Country; Sugar Savers.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, March 19.—"There will be no necessity of hunting a market for dates. New York will take the entire production of the Coachella Valley for years to come."

This is the declaration of Dyer B. Holmes of New York, who is in the city for a few days, and who is the owner of a large acreage of dates in the valley. While in Washington recently, he says, he found the Department of Agriculture had come to look upon the date industry as one of the most promising in the country.

"In New York," says Mr. Holmes, "the people look upon the date as a confection rather than a fruit, calling it 'nature's candy' because of the amount of sugar the date contains. One confectioner who took a consignment of Deglet Noors from the Coachella Valley disposed of them at $2 a pound and demanded more."

FORM SILICA COMPANY.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, March 19.—Articles of incorporation of the Hemet Silica Company were filed today. The capital stock is $200,000, of which only $250 has been subscribed. In addition to operating the mines, the company will carry on a rock-crushing business. The directors are: H. H. Spaulding and John Deegan of Hemet, Edward Poorman of San Jacinto and William P. Preston and Thomas T. Barrett of Los Angeles.

WALT MASON TO MAKE A SPEECH.

Poet will Have His Maiden Fling at Oratory Today.

Unprecedented Event is to Mark Kansans' Picnic.

Author of "Rippling Rhymes" Breaks Rule of Silence.

An event unprecedented in history is scheduled for Lincoln Park this afternoon. Walt Mason, author of "Rippling Rhymes," is to make a speech there.

Though Uncle Walt talks to millions every day through his syndicated poems, which appear in newspapers in this country and Canada with a combined circulation of about 20,000,000, all efforts heretofore to get him to make a speech have failed. He gets tongue-tied in front of an audience of fifty. Even ordinary conversation is a thing he shuns, because of a slight deafness which he imagines inconveniences other people. His idea of a good time is to browse about old book shops or play the Victrola. He has more than 1000 phonograph records at home in Emporia, Kan.

The career of Walt Mason demonstrates that you cannot keep a good man down. He's no broiler, this beloved Uncle Walt. He was born in Ontario May 4, 1862, and for many years he knew the ups and downs of life—hardships, disappointments and misfortunes that would have broken many a man. He was self-educated, which at first handicapped him in newspaper work, the only work which appealed to him, and for many years the best his friends could say was:

"Too bad about Walt. He's a mighty bright feller in some ways. But he's just a drifter. Guess he'll never amount to much."

Mr. Mason drifted from paper to paper in those old days, the best job he ever had being with the Washington News, on which he was a paragrapher. But it seemed as if he couldn't stick. Everywhere he worked he did good work, but he became known as a drifter.

FINDS HIMSELF.

It was not till 1907 that Walt Mason found himself. He was in Kansas City at the time, sick and out of a job. Lots of men would have quit right there, but there isn't any give-up in Uncle Walt. He went to a hospital with a unique proposal.

"I'm sick and have no money, but cure me and if I can't pay you I'll advertise you. Turn me out of here fit to work and I'll hold the next job I get till hell freezes over. And I'll never take another drink."

From the hospital, Mr. Mason wrote letters to editors far and near. One was to William Allen White of the Emporia, Kan., Gazette. Mr. White was not at home at the time, and the letter was forwarded to him. He didn't need any help on the Emporia Gazette, but he wasn't going to refuse a man who needed help. William Allen White is that sort of man. He wrote:

"If you haven't anything better, take this letter out to my newspaper at Emporia and tell 'em to put you to work at $18 a week. I don't need you and as soon as you get a better job you may leave."

Mr. Mason arrived at Emporia with one shirt, 15 cents and a grim determination to stick to that job till the aforementioned cold snap.

The Gazette used to run what it called a star head on the front page, a news item in a box of stars, like those you see in The Times every day. That day there wasn't a bright news item in the whole batch. In desperation the city editor turned to the newcomer.

"Write something to fill a star head," he ordered.

HITS THE BULL'S EYE.

That was what made Walt Mason a famous and internationally loved poet. He wrote a prose poem. It made such a hit that the editor told him to write one every day after that. By the end of the week, all the Midwestern papers were copying them, for they ran on the front page of the Gazette, and Mr. White's paper is one the exchange editors all grab for back there.

In a very short time Walt Mason was locally famous. All his misfortunes and trials had only strengthened and sweetened his brave philosophy of life and tempered his wit with both keenness and kindness, perhaps the rarest combination in the world. He knew men, good, bad and indifferent, and that bad and indifferent ones are just good ones gone wrong, or else not developed right. He knew how to preach at them without ever getting preachy, to joke with them without ever getting coarse. And, above all, he wanted to help them, because he knew what it is to fail and what it means to be helped.

In 1911 someone asked Mr. Mason how old he was.

"Just 4 years old," he said. "It was just four years ago that William Allen White straightened me up."

O. Henry once said that the only way to write a story is to make the human nature in it so human that it will appeal alike to the man on New York's Broadway or one on Main street, in Waco, Tex. That is the way it is with Walt Mason's verse. It appeals alike to East, West, North and South. It is a big go in Canada, and during the war his books became very popular in England. They were in all the libraries for service men from this country and Canada, and the English got in touch with them through those libraries.

MOST-READ POET.

Walt Mason undoubtedly has more readers and more admirers than any other living poet—and is making far more money from his verse. Of course, mere literary people wouldn't put him in the same class with Alfred Noyes, but he reaches far more people and does them more good.

Since fame has come to him Mr. Mason has been entreated many times to make a speech, but as yet speech No. 1 still is locked up behind his grimly humorous lips.

But men who are away from home will do lots of things for the first time, and today, at the all-day reunion of the Southern California Kansas Society, in Lincoln Park, Mr. Mason has promised to make a speech. And he's a man of his word, Walt Mason is. He's still associated with William Allen White, as in 1907 he vowed he would be; he's never taken another drink, as he vowed he wouldn't at that time. So if he's promised to be there and make a speech, he'll be there and make it. And though it will be his maiden effort, the chances are it will be a rippling, jingling, good one.

NOTED ONES RETURN.

INCE AND PARKER READ ARE BACK FROM NEW YORK.

By Grace Kingsley.

Arriving yesterday from a month's stay in New York, during which both gentlemen duly qualified for membership in the Sleep Haters' Union, were Thomas H. Ince and J. Parker Read, Jr., prominent members of the organization of noted directors known as the Associated Producers.

Not only were all the members of the organization wined and dined within an inch of their lives, but they also spent hours upon hours in business conferences among themselves and with heads of various film companies.

These conferences, while the two members mentioned had nothing special to report beyond the fact that the market seemed in fine condition for their output, must have been entirely satisfactory, since both gentlemen wore wide and genial smiles, not to mention brand new fur-lined overcoats.

The matter of release for the output of the organization is not yet fully settled, although, as presaged some weeks ago in this column, it still seems likely the members will form their own releasing medium. The organization is now, by the way, to be called, if you please, the Big Seven, inasmuch as J. Parker Read is a member.

A new enterprise of the Associated Producers is the projected output of two big special productions, to be made soon with all-star casts. What these will be is not yet ready for announcement. A new official of the J. Parker Read organization is Lincoln Hart, who is now production manager.

Several new stories were purchased by Mr. Ince and Mr. Read for immediate production, and the names of these will shortly be announced.

No new stars were signed. When Mr. Ince was asked that question, he answered:

"No, we didn't sign up any new trouble."

A delegation of newspaper folk and others were at the train to welcome the two members of the Associated Producers, including Mrs. Thomas H. Ince, Mr. Hart, Mr. and Mrs. Thomas, and Louise Glaum.

Bernstein Home.

A further appearance of Old Home week was given to the Santa Fe Station yesterday afternoon by the presence of the family and friends of Isadore Bernstein, president of the National Film Corporation. Mr. Bernstein likewise arriving from New York, where he has been attending to certain business details connected with his company.

Mr. Bernstein announced he had signed up three new stars, These are Capt. Locklear, the noted aviator, who has just finished making a picture for Universal; Neal Hart and Helen Gibson.

Rumors were set at rest by Mr. Bernstein concerning his reported connection with Universal as its head.

Remains to be Seen.

Mai. Robert Warwick, Lasky star, had quite an exciting argument with a high school principal who chanced to be visiting the studio yesterday, on the question as to whether boxing should be taught in the high schools. The Major won the argument. It is not known whether he demonstrated it.

Family Note.

Bryant Washburn's father and mother, who have been visiting the Lasky star and his wife at their Hollywood home, have returned to their native Oak Park, Ill.

CHILDREN'S PLAY TO BE PRODUCED TODAY.

"Racketty Packetty House" will be given its Los Angeles premiere this afternoon at Egan Little Theater. Scenery for the production arrived from the Children's Theater of San Francisco a few days ago. The performance is to be purely for education and not commercial, according to Miss Hattie Mooser, who, with Garnet Holme, will direct the play. It is stated that all the money realized above expenses will be devoted to other theatrical projects for children. There will be two performances this afternoon.

FROM UNKNOWN RIVAL.

Letter Helps Wife of Bank Examiner Win Divorce.

Mrs. Winthrop Dunning Malone, who yesterday was granted a divorce from Richard Harwell Malone, Jr., assistant State bank examiner for Colorado, produced in Judge Crail's court a copy of a letter she testified came to Mr. Malone's address in Denver from a woman she did not know. Mrs. Malone charged her husband with cruelty.

The letter said, in part:

"Here's hoping you find a way up here soon, as I, for one, need a friendly smile or two.' I spend my extra time singing 'Lonesome, That's All.'"

Mrs. Malone, in addition to the decree, was granted the custody of a minor child.

MUSICAL.

TRIUMPHS IN WAGNER.

ROTHWELL AT ZENITH IN HIS INTERPRETATION.

By Jeanne Redman.

With Sophie Braslau, the contralto, as soloist, the Philharmonic Orchestra played, yesterday afternoon, at Trinity, to a packed auditorium.

There is a feeling of exaltation which lifts the listener out of the affairs of routine life when, after listening to an hour of music, thoughtful music, excellently played, the orchestra begins the first notes of a composition by a man of genius. Such was the case at yesterday's programme, which opened with the "Pathetique" Symphony by Tschaikowsky, followed by three short pieces by Percy Grainger, and then came the first long-sustained notes of the Prelude of Wagner's "Lohengrin."

Instantly the man of genius lifts the tone of the entire concert, and saturates it with his own magnificent gifts. There is, in Wagner, the very essence of youth and vitality. He comprises the heights and depths of emotion, and — frankly announcing myself a Wagner maniac, and a devotee of many famous Wagner conductors—it seems to me Walter Rothwell, in this role, is entirely satisfying. He speaks for Wagner, and sheds his personality for the varicolored moods of the master. His interpretation brings out the poetry, the mysticism and the dramatic intensity of the great Wagner, and makes us feel that among the blessings of peace, this being able to listen to the great master of lyric-dramatic music is not the least.

Sophie Braslau and her gorgeous contralto won an immense appreciation. Her Moussorgsky group was beautifully done and altogether interesting, and the songs of the Russian are among the best of the literature for the voice. The aria from "La Favorita" was excellent, especially the singer's rendering of the recitative parts, but the writings of old Donizetti scarcely satisfy the admirers of this vivacious young singer.

Tschaikowsky's Symphony had its usual quota of enthusiasts, and Rothwell was heartily applauded for his interpretation, but, whether Grainger's short pieces brought a high relief after the doleful Russian, or whether they were liked for their light and wholesome sanity, it is interesting to note that Rothwell was called back four times by plaudits after the rendition. Grainger is the exponent, par excellence, of the jig rhythm, and he always entertains. The representations chosen were his "Irish Tune from County Derry," "Mock Morris" and the well-known "Shepherds Hey." The programme will be repeated this evening.

FIRE PREVENTION FILM SHOWS TODAY.

Having as its object the combatting of carelessness that results in the starting of fires, Thomas H. Ince's production, "America's Greatest Crime," a photoplay made for the Pacific Coast Fire Prevention Bureau, will have a special showing at Grauman's Theater this morning before an audience of more than 2400 Boy Scouts and members of various civic and patriotic organizations.

In addition to the five-reel production, Mayor Snyder, Fire Chief Scott and Jay W. Stevens, special representative of the fire prevention bureau, will give brief talks. Sid Grauman donated the use of the theater as he is particularly anxious that the Los Angeles fire department shall win the Thomas H. Ince challenge cup, that will be awarded June 30, it is announced, to the fire department on the Pacific Coast which shows the best record during the intervening period in combatting conflagrations.

SUES RICH AGAIN.

Maid Who Accused Her Employer Asks $50,000 Damages.

Robert B. Rich, capitalist, who was recently discharged in the Justice's Court after Miss Violet Gibbons, a maid in his home at 2248 Harvard boulevard, testified he attacked her, was made defendant yesterday in a complaint filed by Miss Gibbons asking $50,000 damages for suffering and embarrassment caused by his alleged acts.

The suit was filed by Attorney Clara S. Foltz, who alleges her client is in a delicate condition as a result of her experience.

The alleged attack is said to have been committed in Mr. Rich's home January 31 last. Miss Gibbons ran from Mr. Rich's home partly disrobed, she testified before Justice Hanby at the hearing of her charge. The justice, in dismissing the case, said he did not think the evidence showed that she put up enough resistance against the alleged approaches of Mr. Rich.

VOLSTEAD ACT CASE.

Frank Martinelli, charged with violation of the Volstead law, was arraigned before U.S. Commissioner Long yesterday and held in $500 bond. His hearing was set for March 30.

HEAR DOCTOR IN WILSHIRE CASE.

Declares Testator's Mind was Affected by Stroke.

She Talked of $5000 Gift to Y.M.C.A., Witness Says.

But Large Part of $800,000 is Left Association.

Dr. Susan Balfe, a witness called by Gaylord Wilshire, contesting the probate of the will of his stepmother, Susan Emerson Wilshire, in Judge Rives's court, testified yesterday that after Mrs. Wilshire had suffered a stroke of apoplexy, November 2, 1916, there was a perceptible change in her mental and physical condition. She said Mrs. Wilshire had to be dressed and undressed.

In conversing, the witness said, Mrs. Wilshire would reply to questions by reference to matters not under discussion, but being able to carry the subject of conversation in her mind.

Dr. Balfe stated that Mrs. Wilshire discussed with her several times her wish to give the Y.M.C.A. $5000 or $10,000, provided she had enough to make provision for her relatives. Dr. Balfe quoted Mrs. Wilshire as saying after she had made the will she did not attempt to ascertain what property she owned because of the mental effort it would require.

Gaylord Wilshire asserts that his step-mother was incompetent to make a will and that she gave to the Y.M.C.A. the residue of her estate which was much more than she intended for the association. This residue, it is said, will approximate a large portion of the estate, valued at $800,000. The hearing was continued until next Wednesday.

BARNES DENIES SLAVE CHARGES.

(Continued from First Page.)

rank of flunkies in the construction of a board gangway, and in general ran the major part of the opening of the show.

If he knew of the action of the U. S. Attorney's office earlier in the day, he did not show much concern over the matter. In spite of the repeated assertions of a "hard-boiled" individual in a fancy coat that Mr. Stonehouse was out of town, and won't be back for a long time, the "old man," as he is called, was the center of activities. As the band struck up and the elephants and other animals trundled into the three rings for the opening, Mr. Barnes and the reporter retired to the comparative privacy of the animal cages, where Mr. Barnes laid the blame for the new development at his wife's door.

"Why doesn't she let me alone? She's got lots of property and money from me, and she was denied the divorce. It's just another effort to get me, that's all," he said, motioning a lot of new arrivals into the tent.

"This matter of Jane Hartigan has been thrashed over and over, and that's the only thing I know. I don't know anything about the new proposition, not a thing. I've been absolutely clean, and everything I did was on the level."

Later, while the $50,000 hippopotamus was trotting around the ring, Mr. Barnes was joined by his attorney, Leo V. Youngworth. "You can say for my client that we'll be able to meet these charges. It's nothing but the old case brought to light again. I was notified over the telephone today, and will produce Mr. Barnes in court at the proper time tomorrow," Mr. Youngworth said.

Mr. Barnes and his wife, Mrs. Dollie Barnes Stonehouse, have figured in various court battles here and in other States. The latest in the Los Angeles courts was the divorce proceedings last December, which furnished several sensations in the testimony of witnesses. Jane Hartigan, one of the co-respondents named by Mrs. Stonehouse in her cross-complaint to Mr. Barnes's suit for divorce, occupied the center of the stage at many points in the testimony. A division of property, to which Mrs. Stonehouse laid claim, was back of the court battle. Judge Taft denied a decree to both, but held that Mrs. Stonehouse deserted her husband and that Mr. Barnes was guilty of misconduct with Jane Hartigan and Vivian Bordeaux. The trial last December was preceded by other contests in 1917 and 1914 here and in New Jersey and Oregon. The circus property is said to be valued at $1,000,000.

REPUTED LOVE NOTES WIN WIFE A DIVORCE.

PICTURE-KISSING LETTER TO HUSBAND AMONG SEVERAL READ TO THE JUDGE.

Communications described as love letters, which were received by L. E. Ross, statistician in the Department of Labor at Sacramento, from another girl, formed the basis for a decree of divorce which Judge Crail yesterday granted to Helen Ross. Mrs. Ross testified that the letters were torn into pieces when Mr. Ross tried to get them away from her.

Mr. Ross filed the suit, and Mrs. Ross replied in a cross-complaint. Among other things, Mr. Ross charged that his wife persisted in having cats in the house, and on the bed, when she knew he did not like them. She testified there were only two cats, and one of them he had turned over to her.

The letters, she said, caused her worry and humiliation. Attorney Griffith Jones produced several, one of which read:

"Darling, you don't know how barren this room seems. I can hardly bear it. I have my baby's picture here before me as I write, and at the rate I have been kissing it, I will have it worn out before long."

The picture referred to was one of Mr. Ross, Mrs. Ross declared.

She was granted alimony of $40 a month. Mr. Ross was represented in court by Attorney Goodwin.

"POLLYANNA" TO STAY.

"Pollyanna," Mary Pickford's picturization of Eleanor H. Porter's widely-read novel, which is having a Broadway showing at the Garrick Theater this week is to be held over another seven days. Miss Pickford brings to life on the silver sheet the lovable little character that became endeared to the thousands who read the book. The cast of players were chosen for their parts with the idea of making the screen version as much like the original story as possible.

POLY TRACKSTERS DOWNED.

There was a wild scramble yesterday afternoon between Los Angeles and Polytechnic high schools in a high-powered track meet held on the former's grounds. The L. A. athletes had the best of the argument all the way and copped honors with a score of 85 to 28.

In most of the events on the bill Polytechnic had to be content with second or third place. Stofella, Walker and Tuller came through with firsts, but the rest of the initial positions went to the Los Angeles camp.

Although some very good times were recorded there was nothing unusually sensational. Clarke of L. A. showed some speed in the 100-yard dash, and needed it for he was closely pressed at the finish.

The summary:

880-yard dash: Holcomb (L.A.) first, Wilson (L.A.) second, Coleman (L.A.) third. Time 2m. 9 4-5s.

100-yard dash: Clarke (L.A.) first, Kimble (L.A.) second, Walker (P.) third. Time 10 2-5s.

Shot put: Richards (L.A.) first, Anderson (L.A.) second, Knox (P.) third. Distance 42ft. 2in.

Pole vault: Dennis (L.A.) first, Coll (P.) second, Sherrod (L.A.) third. Height 10ft. 2in.

440-yard dash: Bothe (L.A.) first, Salmelian (L.A.) second, Rathburn (P.) third. Time 53 4-5s.

High Jump: Drake, Becker, Burgess and Hughes, all of L.A., tied for first place at 5ft.

120-yard high hurdles: Jodson (P.) first, Park (L.A.) second, Cuddeback (P.) third. Time 18 1-5s.

Discus thrower: Richards (L.A.) first, Anderson (L.A.) second, Cuddeback (P.) third. Distance 113ft. 3in.

220-yard dash: Clarke (L.A.) first, Kimble (L.A.) second, Kahlert (P.) third. Time 23 1-5s.

Broad jump: Stofella (P.) first, Tousley (L.A.) second, McCrae (L.A.) third. Distance 20ft. 9 1-2in.

220-yard low hurdles: Walker (P.) first, Park (L.A.) second, Jodson (P.) third. Time 28 4-5s.

Mile run: Bond (L.A.) first, Tuller (P.) second, Chandler (L.A.) third. Time 4m. 54 2-5s.

Eight-man one-mile relay won by L.A.

TIGERS SNARL IN THE NINTH.

Come Within Ace of Slashing the Chicago Cubs.

Visitors Win a Close and Exciting Contest.

Alexander and Fromme do Some Swell Heaving.

BY HARRY A. WILLIAMS.

The Tigers lost another leg on the Wrigley cup yesterday when pastiming was resumed with all the spring trimmings.

This, the fourth game of the series, went to the Cubs, 4 to 3, and was attended by great excitement in the closing rounds, when two of the paid patrons stood up and yawned in unison. The count in the spring battle for possession of the handsome legs on the Wrigley trophy now stands three victories for Chicago as against one for Vernon.

The loss of another leg, however, does not put Vernon out of the running for the cup. This is a high-speed cup, and is said to have almost as many legs as a centipede. The club winning the largest number of legs also gets the tonneau of the cup. In short, the whole artistic works. The Tigers, by virtue of their one victory, still retain possession of a drum stick, and will not let go of that.

It was a hard fight from gong to gong with a number of bitter-enders on each side.

OVER TO ROOKIES.

For five rounds Grover Cleveland Alexander and Arthur Tecumseh Fromme battled in a manner worthy of the trophy. Then, having uncorked this big league stuff, they turned the pastime over to the rookies to be mussed up as they saw fit. The rookies finding themselves unrestrained went at it, and the scoring commenced. Hitting, while free, did not become entirely unconfined, but passes were prolific, as is usual in the spring when the garden is tended by rookies.

Twelve trained walkers took the short cut to first base with the long easy stride of the born pedestrian.

Mitchell followed Alexander up with Ole Hanson and a pinch-hitter, and then sent Speed Martin in to save the game before it was too late. Mitch didn't act a minute too soon. The game ended with Speed pitching everything that he knew, the bases full and the Tigers ready to bite a leg off the cup.

LEG ESCAPED.

When Fromme faded from the film, Bill Essick did some experimenting with Elmer Hill and Lefty Mann, and it was these rookies who let the coveted leg escape from the Tigers. Hill was too wild to make the grade, hopelessly wild, in fact, but Mann displayed a flash of left-handed stuff that had the bugs barking for joy.

Chicago started scoring by the rookie route in the sixth, counted one, and continued collecting one run at a time in the seventh, eighth and ninth.

Vernon busted through for two runs in the eighth, scored the final in the ninth, and had enough men left on bases to win a flock of legs.

MATCH FOR ALEC.

Alexander met his match in Fromme. This was a surprise. Alex sometimes meets his match in July or August, but mighty seldom in March. Both men displayed stuff that was skillful and soulful. In fact, both looked so good that strangers in our midst didn't know which was which. With these birds pitching, second base remained a wild and unexplored waste.

Just two men reached first base. Fromme passed Dode Paskert, the first man to face him. Dode was immediately evaporated from the scene when Buck Herzog drove to Mitchell for a double-play. Just fifteen men faced Fromme in five rounds, which is a perfect example of one-two-threeing. As much can be said for Mr. Alexander. Alex was pure and passless. Hap Morse had the honor of making the only hit off him, and this was a scratch. Hap proved a lot faster than a slow grounder to Herzog. He, like the guy who walked on Fromme, fell into a double play, and second base remained as much unknown as the North Pole before it was discovered.

EXCURSION RATES.

However, right after this, excursion rates were made to second base, and there was heavy tourist travel to that interesting point. Hill was sent in at the beginning of the sixth, and Essick gave him Sullivan to shoot at. He found him a difficult target. Elmer passed Pearce, first up, and then did hit Sullivan. This so surprised Sullivan that he let the shot get away from him for a passed ball, and the runner took second. Hill then passed Reindeer Killefer and Twombly was sent in to bat for Alexander. Having passed a rookie and a regular, Hill now walked a pinch-hitter and then walked himself, thereby establishing a reputation for versatility.

This baseball proposition and nobody out was turned over to Lefty Mann, who accepted it with a smile. A guy who will accept a situation like that and smile about it either is very game or extremely foolish. Lefty proved the former. Cool, as the submarine sailor which he once was, Mann held Paskert down to a short fly in center—so short that Pearce didn't move from third when the ball thudded into Chadbourne's mitt.

SLIM CHANCE.

Herzog grounded to Borton. There was a bare possibility that Babe might have forced Pearce at the plate, but the chance was so slim that he let the run come in unmolested, and retired Buck at first. Barber bumped an easy grounder to Fisher for the third out. Mann had shown the stuff, but lost some of it later.

Robertson singled in the seventh, stole second and took third on Pearce's infield hit. With Fisher going over to cover second, Daly drove a grounder off his fingertips, Robertson scoring. Paskert and Deal bracketed doubles for a run in the eighth. A brace of passes and Paskert's single gave the Cubs their final in the ninth.

Hanson pitched himself out of a peck of trouble in the seventh when two walks and his own fumble on High's sacrifice loaded the bags with none down. Long and Fisher popped easy flies to the shortstop, and Borton ballooned to Barber.

TO CLOUD UP.

Two had been retired in the eighth, when Hanson began to cloud up. Mann started the trouble for him with a single. Two passes stocked the corners. High then jarred Hanson loose with a single that counted Mann. With Martin now on the mound, Deal snared a line drive by Long.

One out in the ninth when the Tigers made their final grasp for the leg. Borton singled, and was forced. Sullivan beat out a hit infield. Four wide ones to Hesse, batting for Mann, put three on. Martin, having contracted lack of control from the rookies, walked Mitchell, forcing Morse across the pan. Chadbourne crabbed the killing with an easy roller to the box.

Red Held, although he is no longer in the Coast League, umpired the game from a box in the stand through force of habit. Red's work seemed to give complete satisfaction. The score:

Relay race, 4-men, one-half mile: Won by Redlands.

LINCOLN HIGH IS WINNER AT TRACK.

Lincoln High School defeated Long Beach in a track meet yesterday afternoon by the heart-breaking score of 57½ to 55½. The result of the meet was in doubt up to the time of the relay and this event, won by Lincoln, decided the winner. Some good marks were made in many of the events.

The summary:

880-yard run: Bengal (L.) first, Wood (L.B.) second, Lampleir (L.) third. Time 2m. 11 2-5s.

100-yard dash: Purtell (L.) first, Lefebvre (L.B.) second, Passner (L.) third. Time 10 4-5s.

440-yard dash: Horst (L.B.) first, Orth (L.) second, Rides (L.B.) third. Time 52 2-5s.

120-yard high hurdles: Hooton (L.) first, McMullen (L.) second, Evans (L.B.) third. Time 18s. flat.

220-yard dash: Purtell (L.) first, Horst (L.B.) second, Hannon (L.) third. Time 23 1-5s.

220-yard low hurdles: Evans (L.B.) first, Hooton (L.) second, Wells (L.) third. Time 27s. flat.

Mile run: Anderson (L.B.) first, Marvin (L.) second, Lampleir (L.) third. Time 4m. 52s.

Relay race, 8-men, one mile: Won by Lincoln High School.

Shot put: Rich (L.B.) first, Trautwein (L.) second, Miller (L.B.) third. Distance 39ft. 7½in.

MISSOURI VALLEY FORMS TENNIS BODY.

[BY A. P. NIGHT WIRE.]

ST. LOUIS (Mo.) March 19.—The Missouri Valley Tennis Association, embracing clubs in Missouri, Iowa, Kansas and Nebraska, which are members of the U. S. Lawn Tennis Association, was formed here today. The new organization is intended to be the district representative of the national body in the Missouri Valley, this depending on the indorsement of the National Association.

REVISED SCHEDULE.

[BY A. P. NIGHT WIRE.]

WEST POINT (N. Y.) March 19.—The revised baseball schedule of the army team, announced today includes: April 17, Harvard; 24th, Lehigh; May 1, West Virginia; 5th, Pennsylvania State; 8th, Washington and Lee; 15th, Catholic University; 19th, University of Pittsburgh, all at West Point and April 29, U. S. Naval Academy at Annapolis.

JESS WILLARD UNDER ARREST.

[BY A. P. NIGHT WIRE.]

LAWRENCE (Kan.) March 19.—A warrant for the arrest of Jess Willard, former heavyweight pugilistic champion, for disturbance of the peace was sworn out today by Fred Logan, negro policeman. Logan was driving a wagon along a narrow road when Willard attempted to pass in a motor car. Logan says Willard called him names for not giving up the road, and challenged him to fight. Logan refused the challenge, he said, and took the matter to a justice of the peace.

BIG STAMPEDE PARADE TODAY.

Procession to be Mammoth Wild West Affair.

Real Thrill at Ascot Park Tomorrow Afternoon.

Medley of Exciting Events, Including Steeplechase.

Today is Stampede day in Los Angeles and to signalize the event Manager George Bentel will stage a mammoth street parade which, for fantastical display of color and medley of Wild West tournout, will undoubtedly be unique in the annals of local street processions. The big parade will start from Pico and Los Angeles streets, at 2 p.m. sharp. The line of march will be as follows: North on Main to the postoffice, thence south on Spring from the postoffice to Ninth; east on Ninth to Broadway and north on Broadway to First street.

The big tournout will comprise clowns, cowboys, cowgirls, Indians, stage coaches, prairie schooners, wild horses and the queen of riders, Miss Adele Van Ohl. A brass band of eighty cowboys will discourse the latest up-to-date melodies. The procession will be over a mile and a half in length and will require some time to pass a given point.

IN FRONT OF STAND.

At Ascot Park tomorrow afternoon the big Stampede show opens at 2:30 o'clock. The events will all take place in the arena in front of the grand stand and on the quarter-mile track, except the steeplechase which will be over the two-mile course. Arrangements have been made to accommodate an extra large crowd which the advance sale of tickets indicates will be present.

Thrills a-plenty will mark each event. The iron courage of the tried stock hand will match skill and wits with the natural obstinacy and love of freedom of wild cattle and horses. A buck a second thoroughly describes what is in store for the public. Events will be staged fast and furious so that time will neither drag heavily in the grand stands nor on the field.

Several hundred of the wildest of wild horses that can be found have already arrived at Ascot for the contests.

ARIZONA STEERS.

Long horned, wiry and big-eyed, a herd of Arizona steers roams restlessly through the corrals waiting to be subdued by cowboys keen for the contest.

When the starter's pistol pops tomorrow afternoon the last great Stampede at Ascot and the greatest ever held on the Coast will become a realty.

The programme arranged is a varied one ranging from the roughest of cowboy sports to a national steeplechase event over the infield hurdles each day. Among the contests which will be run off are bronco riding, steer riding, Roman, stage coach and chuck wagon races, trick and fancy riding by both men and women; trick, fancy and utility roping, tieing and throwing, relay and pony express races, quarter-mile dashes for cowboys and cowgirls, stake races, goat roping contests, potato and novelty races.

SCHULTE RE-ELECTED UNIVERSITY COACH.

[BY A. P. NIGHT WIRE.]

LINCOLN (Neb.) March 19.—Henry F. Schulte has been re-elected head of the football and track coach of the University of Nebraska with an increase in his salary from $3500 to $3600 per year, while Paul J. Schissler has been re-employed as head basketball and baseball coach with a pay advance from $2000 to $2500, the university board of regents announced today.

GRAHAM'S SEALS UP IN THE AIR DAILY.

[BY A. P. NIGHT WIRE.]

STOCKTON, March 19. — The San Francisco Seals, here for training preliminary to the opening of the Coast League season, are one at a time being taken aloft for airplane rides by Aviator F. W. Farris, of Stockton.

Yesterday Manager Graham, Schick, Kerr, Agnew, Anfinson and Couch were taken skyward in the plane and tomorrow Farris plans to take Johnny Couch to Palo Alto for a visit to the pitcher's wife.

The trips will continue until each Seal has been taken up.

BOWLING LEADERS ARE UNDISTURBED.

[BY A. P. NIGHT WIRE.]

PEORIA (Ill.) March 19.—Leaders were undisturbed again today at the American Bowling Congress, but high games on late afternoon shifts brought frequent changes among the runners-up. The leaders are: Five men, Brucks, No. 1, Chicago, 3096; two men, O. Whitehead, E. Grubb, St. Louis, 1257; individuals, B. McGeowan, Evansville, 698. All events, R. Meyer, St. Louis, 1885.

BEARS VS. TROJANS TODAY

One of the most important track meets on the local slate will be pulled off under way this afternoon when Coach Dean Cromwell leads his California athletes up and sacrifices them on the altar of the Olympic club. Everyone around the Trojan institution expects the affair to be a walkaway, a Roman holiday, with the home talent in the role of innocent victims.

Walter Christie has been whipping the California squad into fighting shape for the past several weeks and has some high-class material which to tackle the U.S.C. team.

The northerners are expected to make their greatest stand in the two-mile grind. The local athletes have failed to dig up a single man who would look pleased over the prospect of traveling that distance and it is probable that the Bears will spin into a large number of points here without a struggle.

In the high jump, Cottrell of California looks about three inches better than anything home-grown. The Bear broad jumper, Moulton, has an awful edge.

But things are not altogether black. Our old college dean, Charley Paddock, looks like certain money in the 100 and 220 dashes, and Fowler has a much better record in the 440 than anything the Bears can hope to uncork. Evans ought to put up some pretty stiff competition in the discus.

The meet will start promptly at 2:30 p.m. on Bovard Field.

CHAMP BASKETERS TO PLAY IN SOUTH.

[BY A. P. NIGHT WIRE.]

NEW YORK, March 19.—New York University, which recently won the national basketball championship, will invade the South again next year, according to announcement today by Frank H. Cann, director of athletics. He said New York York University would meet the University of Georgia and the Atlanta Athletic Club and that several other games doubtless would be scheduled.

COURSE RECORD WRECKED AGAIN

De Palma Tears Around Beverly Hills at High Rate.

Pullen and Boyer Furnish a Few Real Thrills.

Motor Cars Set for Sprinting Classic Tomorrow.

Driven to desperation by two pestiferous parties, who clung to the flanks of his Ballot the way movie stars chase the photographer, Ralph de Palma shaved another fifth of a second from the official record for the Beverly Speedway when he pushed his cream-colored chariot across the line in 38.80 seconds. This business of cracking the track record is now becoming a habit with Ralph, as only the day previously he had lowered Jimmy Murphy's mark of 39.12 seconds to 39 seconds flat.

HAD TO DO IT.

This time Ralph broke his own record in order to keep from being run down by Joe Boyer and Eddie Pullen, who were hounding him around the big wooden oval at breakneck speed. Lap after lap De Palma would dash past the stand only inches ahead of the smooth-running Frontenac and the clattering Richards, and mile after mile was reeled off at the rate of 114 miles an hour. Pullen and Boyer couldn't pass De Palma, but they could hang on like a couple of tax collectors, and the only way Ralph could get away from them was to open up his wonderful car and pull away by sheer speed.

De Palma's wonderful showing of the past two days has intrenched him strongly in the position of favorite for the three fifty-mile sprints to be held on the speedway tomorrow, as he has clearly shown his ability to push the Ballot around the track for an indefinite length of time in better than 40 seconds to the lap. However, it cannot be denied that every car in the race is showing more speed than it did before the 250-mile opening event at the new board bowl.

FAILED TO SHOW.

Eddie Hearne, Art Klein, Joe Thomas and several other pilots professed themselves ready for the race, and didn't show up for practice yesterday, while Tommy Milton and Jimmy Murphy, the Duesenberg twins, failed to show up for another reason. The news of the fast time being made by all the pilots gave the Duesenberg drivers a real thrill, and they took their motors down yesterday and gave them a thorough overhauling. Both Milton and Murphy expect to be out at the speedway all day today, and may take a crack at De Palma's nice new record.

The glad tidings of the fast time made by De Palma had a very forceful effect on the demand for tickets yesterday, and the management reports that the crowd promises to be even bigger than at the opening event three weeks ago. Tickets will be on sale at the Automobile Club of Southern California and at the B. H. Dyas Company all day today, and a number of choice locations can be had at both ticket offices. It was announced late yesterday afternoon that the races will be started promptly at 2 o'clock Sunday afternoon.

ORANGE BASKETERS WIN CHAMPIONSHIP.

Before one of the largest crowds that has witnessed a basketball game this season Coach Dowden's Orange High basket tossers Thursday won the championship of Southern California by defeating the Colton High team 28 to 16.

The game was played at Colton on an out-of-doors court. The Orange boys' victory marked their fifteenth in seventeen games. Their next goal is the State championship, and Stockton their probable opponent.

The line-up follows:

Orange.		Colton.
Roberts (c)	Forward	Brown (c)
		Jenner (2)
Grainger (c)	Forward	Gould (c)
Rudolph (12)	Center	Carey (1)
Dwight (2)	Guard	Rutherford
Richards (2)	Guard	Hosgood

RICHARDS HAS CLOSE ESCAPE.

Mahoney Almost Puts Him to Sleep at Vernon.

Roselli and McCoy go Four Rounds to Draw.

Capacity Crowd on Hand for Boxing Bouts.

BY ED O'MALLEY.

Eddie Mahoney left no doubt whatever as to his class in the fistic line when he decisively trimmed Tommy Richards at Jack Doyle's pavilion last night. The two lads put up one of the niftiest exhibitions of boxing ever seen hereabouts. The first round found both boys fiddling carefully for information. Both were crafty-careful and took little chance. It was an upsticks session. In the second, however, Eddie Mahoney's shiftiness and cool head began to bear fruit. He visited Tommy's nose several times with straight left jabs and the juice began to flow.

He tried his right now and then, but Tommy was on the alert and always kept out of harm's way. In the third session Richards took a brace for a spell and showed a flash of class, but toward the end Eddie plugged him a few times more on the sore nose and the blood responded with alacrity. The fourth almost spelled the undoing of Tommy.

RIGHT TO JAW.

Mahoney was all over him and in the middle of the round slipped over a lightning-like right to the jaw that staggered his man. Richards wisely fell into a clinch and it required all the strength the referee possessed to pry him loose. Again Eddie poked him with a right to the jaw and again Richards clung on for dear life. The gong just about saved Tommy from a canvas dive. Mahoney showed that he was about the cleverest piece of scrapping machinery that has been seen here in some time.

The results of the other bouts were as follows: Benny McCoy and Charley Roselli, draw. Bob Grant almost had Tony Roselli out in the fourth round and won decisively. Eddie McKenna outpointed Young Papke. Fred McManus was given the decision over Johnny Leach and Tommy Chappelle easily won over William Riley.

U.S.C. BABES HANDED THEIR FIRST DEFEAT.

MANUAL ARTS TRACK TEAM SLIPS SURPRISE OVER ON FRESHMEN.

The U.S.C. freshman track team tumbled to its first defeat of the season yesterday afternoon when the Manual Arts experts slipped a surprise score of 61½ to 51½ over on them. Two of the best U.S.C. demons were out of the line-up, due to a technical rule.

Redman of Manual Arts snorted through the 220-yard dash in nifty time, winning the event in 23⅕s.

Blewett showed form in the pole vault and took five points for Manual in this contest at a height of 10ft. 6in. The high school team also ran away with the eight-man one-mile relay.

The summary:

880-yard run: Frank Scovel (M.A.) first, Foss (S.C.) second, Chick (S.C.) third. Time 2m. 17s.

100-yard dash: Redman (M.A.) first, Leahy (S.C.) second, Wright (S.C.) third. Time 10 2-5s.

220-yard dash: Redman (M.A.) first, Leahy (S.C.) second, Wright (S.C.) third. Time 23 3-5s.

440-yard dash: McGarry (M.A.) first, Art Nichols (S.C.) second, Wright (S.C.) third. Time 58 2-5s.

Mile run: A. Scovel (M.A.) first, Baumgartner (M.A.) second, Hite (M.A.) third. Time 5m. 18s.

120-yard high hurdles: Lewis (S.C.) first, Laney (M.A.) second, Dye (M.A.) third. Time 16 4-5s.

220-yard low hurdles: Lewis (S.C.) first, Laney (M.A.) second, Morris (M.A.) third. Time 27 3-5s.

High jump: Dye (M.A.) Minsker (S.C.) and Lewis (S.C.) tied for first. Height 5ft. 6in.

Pole vault: Blewett (M.A.) first, Toy (M.A.) second, Parker (S.C.) third. Height 10ft. 9in.

Broad jump: Deipsbe (S.C.) first, Minsker (S.C.) second, Rinkens (S.C.) third. Distance 20ft. 3in.

Discus throw: Boyle (S.C.) first, Toy (M.A.) second, Rhodes (M.A.) third. Distance 110ft. 1in.

Shot put: Furman (S.C.) first, Epperson (M.A.) second, Boyle (S.C.) third. Distance 42ft. 10½in.

Relay, 8-man, mile: Won by Manual Arts, McGarry, Dunn, Hutchins, Blewett, McLean, Doigher, Mollitor, Redman. Time 3m. 20s.

L. A. CASTING CLUB TO HOLD WINTER MEET.

The Los Angeles Fly and Bait Casting Club will hold their last tournament for the winter season, 1919-1920, at Lincoln Park, tomorrow, starting at 9:30 a.m. sharp. All anglers are cordially invited to participate in the wind-up of a very successful season.

The local club is now affiliated with the National Association of Scientific Bait and Fly Casters, and is holding its own with most of the clubs throughout the country. During the present season, Charles Van Horn has on two occasions tied the world's record for dry fly accuracy.

JOE McGOWAN KNOCKS JOHNNY SCHIFF COLD.

[EXCLUSIVE DISPATCH.]

ST. JOSEPH (Mo.) March 19.—Joe McGowan, champion lightweight of Great Lakes knocked out Johnny Schiff of Los Angeles, in the second round of a scheduled fifteen-round bout here tonight. The bell saved Schiff in the first round after being floored three times for the count.

SPIRITED TENNIS PLAY.

[BY A. P. NIGHT WIRE.]

NEW YORK, March 19.—Spirited playing at the net by Mrs. L. G. Morris accounted for defeat of Miss Edith Sigourney and Miss Leslie Bancroft of Boston in the semi-final round of the women's national indoor tennis championship doubles at the Seventh Regiment Armory here today.

Mrs. Morris paired with Miss Helen Pollak, both of New York, and they scored at 6-4, 2-6, 6-2.

Miss Gertrude Dellatorre and Miss Caroma Winn, New York, won in the other semifinal. Miss Dellaterre performed brilliantly at the net, carrying her side through against Miss Margaret Grove and Miss Royal Victor, New York, 6-2, 7-5.

The stormy day made it necessary to play under electric lights, which did not, however, change the results.

DAILY TRADE TALK.

Bond Market Analysis; Many New Issues; Business News.

BY CHAPIN HALL.

The bond market puzzles; puzzles not only the novice, but the expert is often at a loss to estimate the probability of trend. Railroad, corporation, our own government and foreign government bonds are obviously selling at a figure far below their actual value. There seems little immediate relief in sight. Why?

A premise something like this was propounded yesterday to Mr. C. E. Woodside, who is manager of the bond department of the Citizen's National Bank and close to the market.

"It is the operation of the age-old law of supply and demand," he said. "Nearly every railroad and corporation in the United States has bonds outstanding, many of which must be refinanced in the near future. In addition to this many new industries have started; old ones have been enlarged, and nearly all of them have or will issue bonds. It seems as if every foreign country in the world and many large foreign cities are also offering their bonds in this country. There appears to be no limit to the supply.

CONCERNING THE DEMAND.

"Now concerning the demand: In the past it has been the men of large wealth who bought bonds, especially the low-rate 4½ and 5 per cent. bonds of our railroads, and public service corporations. Now with the normal income and surtax a man with a taxable income of $100,000 per year would get as large net return from a municipal bond yielding 5 per cent. as he could from a corporation or foreign bond yielding 11 1-3 per cent. So that the large investor is now interested only in disposing of his corporation or foreign bonds, and investing his money in municipal, county, State or farm loan bonds, all of which are not subject to the income tax. As fast as taxable bonds mature the holder, if a large investor, does not buy the refunding bond no matter how attractive, but puts his money in tax exempt bonds. As a result the bonds issued by the smallest towns from Maine to California sell on a lower interest basis than Liberty Bonds, although the latter are the best known and safest security in the world. While numerous high-grade railroad and corporation bonds are selling at unheard of low prices, not because they are unsound, but because there are many for sale and but few buyers.

"While the income tax will temporarily produce a revenue from the income on bonds it will only be a short time when those who have to pay a large income tax will either sell or collect their taxable bonds and either invest their funds in bonds that are tax exempt or take it out of the country. So the revenue from this source will soon be very small. But in the meantime the law will have had its effect and corporation, railroad, and foreign government financing will either have to stop or pay an exorbitant rate of interest for every dollar borrowed. In turn corporations and railroads will have to charge a higher rate for service rendered and in the end the people will pay. Foreign governments will borrow here only so long as absolutely necessary and will pay their loans and go elsewhere, foreign commerce suffering accordingly.

"In its present form the income tax law results in creating an unusual demand for municipal, county, State and other tax exempt bonds and they are selling on a correspondingly low interest basis, so that the ultimate result of the income tax as applied to bonds will be, not revenue for the government, which was its original purpose, but a changed interest basis for different classes of bonds."

INVESTMENT OPPORTUNITIES.

A phase of the bond situation which Mr. Woodside did not touch upon, but which is emphasized by developments in corporate and railroad issues is that these bonds at present prices afford investment opportunities which far-seeing purchasers are not losing sight of, and while they fall temporarily under the income tax shadow it will not be long until the readjustment period is entered upon bringing with it the reward of handsome returns. The bond business is at the present time, in a transitory stage, and probably never before in the history of financing have so many unusual profit-making opportunities been offered the public.

Along this same line A. S. Kleeman, manager of the bond department of George H. Burr & Co., who is in Los Angeles for a few days on a tour of inspection, yesterday expressed the opinion that we are headed for a distinctly better bond market. "There is plenty of money in the country," the New Yorker said, "and investors are looking for a place to put it. We strongly advocate the merchandising of investments, that is, when a bond or security appreciates in value, we advise our clients to sell out and take the profit, providing there is an equally good investment, offering equal rates of interest, and equal opportunities of appreciation, to be obtained. We take the position that it is just as important for the banker and investor to take advantage of the opportunity to turn his investment profitably as it is for the merchant to turn his stock. Los Angeles is one of the best bond fields in the country, containing as it does a large class of conservative bond and preferred stock buyers."

New Municipal Issues.

More municipal bond sales will be offered between this date and the 6th of April than have been put out in any similar period for months. The demand for this class of securities is growing, and local dealers are planning to participate in the bidding for the following list compiled by R. H. Moulton & Co.:

Farm Land Issue.

Stephens & Co. are offering a new farm land bond issue consisting of $350,000 El Solyo Land Company first mortgage 6 per cent. serial gold notes. The issue has been approved as a legal investment for California savings banks. These bonds are secured by a closed first mortgage on 3783 acres of high-grade agricultural land, the greater part of which is already under irrigation, in Stanislaus county, the property being owned in fee by the company. This year the land will be planted to barley, rice, celery, cauliflower, alfalfa and garden truck. The appraised valuation of the property is placed at $691,681, an average of $182.83 per acre, against which there is a bonded indebtedness of $92.51 per acre, with no underlying district debts. For 1920 the net earnings of the property are conservatively estimated at over four times the interest charges on this bond issue.

Otis Steel Company.

A syndicate has been formed, with William Salomon & Co., as managers, to underwrite $5,000,000 7 per cent. cumulative preferred stock of the Otis Steel Company. This issue is to provide funds to construct eight new sheet mills, doubling the present sheet capacity, and to provide approximately $2,500,000 additional working capital. Annual earnings for the past four fiscal years, after allowance for Federal taxes, are equal to over five times the annual dividends on the preferred stock, including the new issue. Otis Steel Company says it has all the orders on its books the management deems wise at this time to accept for future delivery, and the company has practically withdrawn from the market on nearly all its lines. This is one of the first issues to be brought out by William Salomon & Co. since that firm opened offices in

LATEST NEWS OF FOOD PRICES.

Government Beef on Local Market Reduces Fresh Supply, but not the Price.

The latest price list issued by local meat packers shows no material changes in the price of beef, pork or lamb. No. 1 steers are listed at 20 cents per pound, to the retailer, No. 1 cows at 18½ cents per pound, dressed hogs at 24 cents, and lambs at 31 cents per pound. Practically the only changes in the new price list consist of slight alterations of the prices of special cuts, but the list in general gives no indication of lower meat prices in the near future.

The sale of frozen meat in the local markets by the government has had the effect of slowing up business, and of reducing the fresh beef kill, say the packers. Government frozen meat is being shipped to Los Angeles in carload lots. Retail prices for government meat range from 13 to 15 cents per pound.

NEW YORK SPOT COTTON.

[EXCLUSIVE DISPATCH.]

NEW YORK, March 19.—The local market for spot cotton was steady, unchanged at 41 cents for middling uplands, sales, none.

Southern spot markets: Galveston, 42 cents; New Orleans, 41 cents; Savannah and Little Rock, 40.75 cents; Augusta, 40.38 cents; Memphis, 40.50 cents; Houston, 43 cents.

PRODUCE MARKET IS ACTIVE AND FIRMER.

POTATOES STEADY AT STRONG GAINS OF PRECEDING DAY; NEW POTATOES LOWER.

With demand for all lines of produce active yesterday, the tone of the local market was very firm throughout the session. Rail receipts were light in quantity and limited as to variety, and country arrivals were only moderate in supply. Price advances were small, but there was little evidence of weakness toward the close of the leading lines. The potato market was firm and unchanged at the level of the preceding day, although the majority of sales yesterday were made at $4.75 per hundred, the top price of Thursday's market. In car lots, sales were made at $6 for Burbanks and as high as $6.25 for russets. Special growers were selling up to $7 per hundred, but the demand at that level was very dull. Oregon russets were firm at about $6.50 per hundred. New potatoes again declined a cent per pound, under pressure of heavier receipts from the country. The range yesterday was from 11 to 12½ cents per pound, a fall of 6 cents per pound during the past week.

Beets reacted to the higher level of Thursday's market, bringing 50 to 60 cents per dozen bunches, with the sales as low as 45 cents. Cauliflower was very scarce and prices advanced 10 cents per dozen on the low side of the range. Some poorer stock, however, was available as low as $1 per dozen. Field crates were up 25 cents each, the range yesterday being $2.75 to $3 per crate, as compared with $2.50 to $2 of the preceding day. Sweet potatoes were also higher, moving readily at $1.60 to $1.85 per lug, an advance of 10 cents per lug. Some extra fancy stock was selling readily at $2 per lug, but the bulk of the sales were made at the lower level. Celery was practically unchanged, although fancy grades were bringing a premium of 10 cents per dozen bunches over the prices of the preceding day. California grapefruit was comparatively light in supply and the market for this commodity was firmer, registering 25 advance averaging 10 per packed box. Yellow and brown onions advanced sharply for the fancy grades, sales being made as high as $6.50 per hundred as compared with $4.25 of the preceding day. White globes were firm and unchanged.

Lettuce was one of the few commodities to show weakness. The supply was again very heavy and the offerings were mostly of poor grade. By the dozen heads, the market ruled around 25 to 40 cents, as compared with yesterday's range of 35 to 50 cents, while, by the crate, quotations were 85 cents to $1, a decline of 10 cents per crate. Parsley also weakened slightly, selling as low as $1.10 per lug for the better grades, a fall of 15 cents. Rhubarb arrivals were heavy and the market was slightly lower, fancy grades bringing around $2.25 per box, a decline of 25 cents. The quality of yesterday's offerings was very good, however. Asparagus was again very weak, prices ranging all the way from 15 to 25 cents per pound, according to quality and condition. The lower prices ruled for the majority of the sales, however.

CHARGES MAN WITH TWO AWFUL CRIMES.

HEARING CONTINUED UPON REQUEST OF DISTRICT ATTORNEY.

[EXCLUSIVE DISPATCH.]

LONG BEACH, March 19.—John Galvin, 61 years old, who is charged with criminally assaulting Lela Cross, 17 years old, on the night of January 15, late this afternoon was also charged with a like offense in which Miss Lucile Sims, 18 years old, of 1406 Alamitos avenue is the complainant.

This startling development in the shocking case that has stirred practically the entire city resulted when, at the preliminary hearing of Galvin this afternoon before Justice S. H. Underwood, Deputy District Attorney Clark, for the people, moved that the case against the elderly man be dismissed. An amended complaint was then filed immediately, charging Galvin with the two crimes and naming Lela Cross and Lucile Sims as prosecuting witnesses.

Ben W. McLendon, detective of the local police department, who has been working on the case, swore to the two counts.

The attack upon Miss Sims, the news of which was not made public until late this afternoon, occurred late on the night of November 17, two months previous to the assault upon Miss Cross. The man who assaulted the Sims girl was frightened by the girl's screams and the timely arrival of her brother, who ran half clad from the house to her assistance. The tug made his escape in the darkness.

Fixing herself in the clutches of a man about a half of block from her home on Alamitos avenue, the Sims girl told the investigating officers that she struggled and fought to free herself, but was released only after her screams had attracted the attention of her brother.

Miss Sims, according to the officers, picked Galvin out of a group of prisoners as the man who resembled the one who attacked her.

Following the filing of the amended complaint, Justice Underwood raised Galvin's bail from $2500 to $5000, in default of which he was remanded to the City Jail. The preliminary hearing was continued until Monday.

Galvin has retained Attorney Newton M. Todd as counsel.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE.]

NEW YORK, March 19.—Virtually the same influence that governed the course of recent stock markets, such as stock dividends, easy call money rates and the continued strength of sterling exchange, were operative again today, though in less substantial degree.

Additional stock dividends were declared, demand loans were liberally supplied over the week-end at 7 per cent, and the London remittance rose before the close of the market to 3.82½ for demand bills, the highest quotation since the February collapse.

Trading fell away abruptly after the first hour, selling for profits becoming more effective especially in certain high-priced specialties that made greatest forward strides in the early days of the week. The speculative character of the dealings was clearly indicated by the frequent switching of operations from one group to another, price movements becoming irregular.

Further diminution of business followed the publication of the February report on export and import figures. These disclosed a loss of $76,000,000 in exports from January and a moderate decrease of imports.

Profit taking in several motors, oils, steels and equipments was neutralized by additional gains in other stocks of the same groups. Leaders of the stronger issues included Stutz motor, which rose to 204, an overnight gain of 14 points, or a total of 60 points so far this week, and Vanadium steel at an extreme gain of 8 points. Sales amounted to 1,400,000 shares.

The general bond market was firm.

FINANCIAL AND TRADE REVIEW.

(Continued from Preceding Page.)

the Van Nuys Building for its local representative, Harold B. Read.

California Petroleum.

California Petroleum Corporation's report for the year 1919, made public yesterday, shows gross earnings for the year of $4,621,654.61, an increase of $467,300.43 over 1918. After writing off $1,496,483 for depreciation and loss, and $250,000 for government taxes, the company showed net profits of $1,277,644.62, equal to 10.52 per cent. on preferred stock. Nearly $1,000,000 was expended in new drilling and the acquisition of lands, etc. The bonded debt was reduced $142,260. The total net production was 3,243,445 barrels, and sales of oil were 3,735,712 barrels, an increase of 336,375 barrels over 1918. During the year twenty-six new wells were completed, with a total production of 379,844 barrels. In the hands of the government receiver at the end of the year was $1,516,193.65, of which it is believed about $1,250,000 will be released to the company. Profit and loss surplus at the end of the year was $3,744,755.13.

Wabash Agent.

The Wabash Railway Company has opened offices at 836 Van Nuys Building, and placed Mr. R. C. Cline in charge as general agent.

Annual Report.

The annual report of the Los Angeles Stock Exchange came from the press yesterday, and is now in process of distribution. The report is more carefully printed and edited than ever before, and contains the complete statistical story of the organization's record year. The frontispiece is an architect's drawing of the new Stock Exchange Building, now under construction at 639-645 South Spring street. The total value of transactions for the fiscal year was $44,317,751.07, and the total number of shares handled 22,794,621, nearly three times the volume of the next highest year, 1917.

Los Angeles Stocks.

Although oil and mining stocks were again active yesterday, the general rise in price seems to have been at least temporarily arrested. In some cases slight declines were recorded, probably caused by profit-taking on the part of those who got in at much lower prices during the dullness of recent weeks. Associated Oil held comparatively firm around $117.50, while Union Oil of California weakened slightly to $196. General Petroleum was somewhat stronger, buying orders in the market at $146.50. Mt. Diablo continued upward, selling as high as $1.61, and was wanted at $1.63 at the close with no offerings in sight. The balance of the lower-priced oils maintained their gains. Republic Petroleum held firm around 37½ cents. United Oil reacted slightly to 32 cents, while Union Oil of Delaware was very quiet, the closing quotation being $35 bid. Most of the active mining issues registered fractional declines from their recent high selling figures. Telluride at one time weakened down to an low as 35 cents, but recovered to 37½ cents in the afternoon. United Eastern was again very weak, selling down to $3.90, while Tom Reed dropped back to $1.75. All the smaller mines experienced similar setbacks caused by a considerable amount of selling. Industrials were practically neglected, but prices were firm, with a few fractional gains upward. Transactions in Liberty Bonds were rather limited, with prices weak.

Preferred Stock Dividend.

The board of directors of Southern California Edison Company have authorized a dividend of 1¾ per cent. on the first preferred stock of the corporation, payable April 15 to stockholders of record March 31.

WOMAN BARES SORDID STORY.

Says Uncle Caused Downfall and Broke up Home.

"Deceived" Husband Accuser in White Slave Case.

Defense Hints at Blackmail and at a Drab Past.

A drab tale of a man's passion and a woman's weakness, was told by Barbara Stalduyden not yet 23 years of age, before U. S. Commissioner Long, yesterday, involving her uncle, Peter P. Hovley, a well-known Imperial Valley rancher, charged with violating the Mann White Slave Act.

The young woman answered every question in chief and in cross-examination freely, while to her right sat her husband, William Stalduyden, a Chicago business man, who married her after what she described as her "escapade" with Hovley.

It was stated by the woman on the stand that her husband, who is the complainant in the case, left her on account of her relations with Hovley. The woman is stopping at the Southland Hotel, and the husband at the Lamm, and have been separated since their arrival here, last January, when the husband visited Hovley at his office in the Van Nuys Building and told him, it is said, that as he had made it impossible for him to live with his wife, he ought to do something for her.

HOLD CONFERENCE.

The hearing took place after a long conference behind locked doors in the commissioner's room, participated in by Assistant United States Attorney Green, representing the government; Lyndol L. Young, who is the attorney for Hovley, and others. Mrs. Stalduyden was not present. The object of the conference, it is stated, was to get the government to drop the prosecution, if possible, the claim being that blackmail entered into the case. It was arranged that the hearing should go on, and Assistant United States Attorney Green proceeded to lay his cards on the table, leaving it to the commissioner to say whether the law had been violated.

The story of Mrs. Stalduyden began in September, 1918, when her uncle, Peter P. Hovley, visited the family home in Wausau, Wis. Arrangement was made, she testified, for her and her uncle to meet in Chicago later on, which they did, at the Sherman House, on February 10, 1919, where the first act of immorality was committed, according to the statement of the girl. Then came the story of the journey of uncle and niece across the continent, with stops at Denver, Salt Lake and San Francisco, finally reaching Los Angeles late in February, 1919, where the couple stopped at the Hotel Stowell, where they occupied adjoining rooms, she stated. Later the two removed to a bungalow on Thirty-seventh avenue, where, the woman said, she remained until last October, when she went back, on a ticket furnished by Hovley, she declared, and married William Stalduyden, October 14.

The witness declared that Hovley knew of her engagement to her present husband during the months they spent in their immoral relations, and that when she started out to get the bungalow, Mrs. Hovley, who was in blissful ignorance of her relations with her husband, went with her in the search of quarters.

RUNS GANTLET.

On cross-examination an effort was made to get Mrs. Stalduyden to admit that she had been immoral with other men; that she had enticed her Uncle Hovley; that her character was not good, and that she had attempted to blackmail Hovley out of a large amount of money by reason of his asserted relations with her; but she successfully ran the gantlet of sharp questioning. She admitted, however, that her husband had quit her on account of the revelations she had made to him after they were man and wife.

A sheaf of letters were shown her that passed between the witness and Hovley, after she had been married, and she admitted that she had written some of them, at the same time sorting out the letters that Hovley had sent her. The young woman testified that Hovley had told her that he was sorry to have her leave him, but intimated that she had a pretty sister, Marie, that he would like to get.

Mrs. Stalduyden made a clean breast of her relations with her uncle, but vigorously denied the insinuations that she had been other than a good girl until she met Hovley.

At the conclusion of the cross-examination, the hearing was adjourned until today, at 9:30 a.m., when the government will put Special Agent Hall of the Department of Justice on the stand. It is hinted that Hall has a statement of Hovley in which he admits the truth of the charges of the government.

He's Complainant; She's Chief Witness.

WIFE DEFENDS BROWN.

Bank Looting Case May be Given to Jury to Decide Today.

Final testimony and argument was heard yesterday in Judge Craig's court in the trial of Arthur and Herbert Brown, brothers, accused of robbing Warren Smith, cashier of the Union Square branch of the Hellman Commercial Trust and Savings Bank.

Mrs. Arthur Brown took the stand and endeavored to explain where her husband and brother-in-law were on the day of the robbery, saying that she knew nothing of any plans to loot a bank. Deputy District Attorney Fricke argued for the prosecution and Guy Eddie for the defense. The case will probably be given to the jury to decide today.

MAJOR GRIFFIN MADE NEW CITY ENGINEER.

VETERAN OF WORLD WAR GETS POSITION VACATED BY DEATH OF HANSEN.

By unanimous vote of the Board of Public Works yesterday, Maj. John A. Griffin was elected City Engineer to fill the vacancy caused by the recent death of A. C. Hansen. Maj. Griffin, who is of the staff of the city engineering department, will assume his new duties Monday.

He is a member of the American Society of Civil Engineers, the Engineers' and Architects' Association of Southern California, the Southern California Association of Members of the A.S.C.E., and the American Legion.

He finished his work at Armour Institute of Technology, Chicago, in the spring of 1901, and began his professional career as a designer of rock and iron ore crushing plants. Then followed designing of roundhouses and locomotives, and in 1903 he was made the assistant engineer of the American Bridge Company. Then followed his work as structural engineer for the Llewellyn Iron Works, during which time he assisted in the erection of the Pacific Electric Building at Sixth and Main streets. Then followed engineering work as senior member of the firm of Griffin, Arnold and Parkhurst, Topeka, Omaha, and Winfield, and other engineering work in the West, including work on some of the large business structures of Los Angeles. In January of 1903 he became a member of the staff of the City Engineer here.

He was one of the first men in the city's employ to go into service under the flag during the war, and after attending the training camp at Monterey was made corporal, sergeant and platoon commander within a month; was then recommended for a commission in the Engineers' Reserve Corps and in February of 1917 was appointed a captain of engineers, U.S.R. After duty at camps in America he was sent to France and assigned to command of Company A, Three Hundred Sixteenth Engineers.

Upon returning to civilian life he resumed his work in the City Engineer's office. Announcement of his selection yesterday was the occasion for much felicitation from his fellow employees. Last evening a dinner was given in his honor at the Jonathan Club.

LOGAN DENIES BLAME IN LAND TITLE MIX-UP.

SAYS HE PROPERLY RECORDED PAPERS INVOLVED IN TORRENS ACT SUIT.

County Recorder Logan, who is a registrar of titles under the Torrens Act, in a statement yesterday, says that the alleged failure to show the Rogan mortgage as a first lien on the property referred to in the so-called atack o nthe Torrens system, in the suit pending before Judge York, "was not an omission on the part of the registrar of titles. The mistake, in fact, was made by one of the local title companies. The mortgage in question was presented for record in the County Recorder's office by the Los Angeles County Title Company, subsequent to the date of the filing of the application for registration in the County Clerk's office.

"There was nothing in this mortgage to show that a suit was pending in the clerk's office to bring the property set out in the mortgage under the land registration system. After this mortgage had been recorded, the title company should have filed it in the County Clerk's office and placed it in the files in the action, so that when the hearing was had by the court, his attention would have been called to the mortgage and the mortgage would have been set out in the decree of the court. Under the law, the registrar has no jurisdiction in these matters, until a certified copy of the decree of the court is filed with him, and then he must write the original certificate of title in accordance with the decree, which was done in the case in question. The decree did not mention the $3500 mortgage.

"I am serving my thirteenth year as recorder of this county, during which time we have handled approximately 2,000,000 documents without the loss of a paper or of a dollar to anyone through any mistake of my employees, and I do not feel that, in justice to myself or to my efficient corps of assistants, I should pass this matter without making the above explanation."

CASE DISMISSED.

The $10,000 damage suit of Willard L. and Mary Clendenen against M. H. Schnitzer and his wife was dismissed in Judge Hewitt's court yesterday after it was called for trial. It is understood that a settlement was effected out of court. Mrs. Clendenen is alleged to have been injured in an automobile accident.

INDICTS FORMER FEDERAL AGENT.

Grand Jury Charges Misuse of Transportation.

New Orleans Gambler Fight, Shady Check Involved.

Accused Tracked to San Diego and Jailed There.

The Federal grand jury yesterday indicted Thomas J. Glyder, alias Joe Peak and Tommy Dean, for unlawful and unauthorized use of government transportation. He is in jail at San Diego. The indictment was found on the evidence of L. G. Nutt, director of the narcotic department of the internal revenue department at Washington.

The defendant was employed in the narcotic work in Chicago. During a leave of absence last December he went to New Orleans, where he had a mix-up with some local gamblers and was arrested on a charge of assault with intent to kill. He jumped his hotel bill, it is charged, and was picked up at San Diego.

Glyder, according to the accusations, drew and cashed a check on a Los Angeles bank for $226 which he had signed with the name of William Douglas Wrigley, Jr. His trips that gave rise to the indictment include journeys, it is charged, he took at government expense to New Orleans, El Paso, Ranger, Tex., Abilene, Muskogee, Claremore, from Tucumcari, N. M., to Pasadena, and from Los Angeles to San Francisco. The aggregate of the fares for which transportation was issued in a manner declared to be illegal, was $173.54.

Glyder has a sister, Hilda Glyder, a resident of London, Eng., who is now in this country looking for him.

When in the employ of the government, he was one of the most valuable men on the narcotic squad, as he had a peculiar ability to pick out users of "dope" wherever he found them.

WOMEN'S WORK, WOMEN'S CLUBS.

BY MYRA NYE.

Friday Morning Club.

Presenting a conservative programme Mme. Cornelia Rider-Possart appeared yesterday morning in a piano recital before the Friday Morning Club. Her numbers, beginning with Beethoven's Sonata Pathetique, with its three movements, to her encore at the close of the second part, were the ones often heard in recital. In them Mme. Rider-Possart demonstrated her power and mastery of technique, but it was not until she played the Barcarolle of Rubenstein that her audience warmed to the temperamental subtleties of her playing. She took no liberties at any time with the composers and showed herself to have been a constantly conscientious student of the piano. The most pleasing number of her programme, one that elicited vigorous applause, was Rigaudon, by Raff.

The speaker for the building fund was Mrs. O. P. Clark, who told of a new fund, the Mme. Caroline Severance Memorial Fund, which, within a few days, has been started by a generous gift from a member and since has grown with quick spontaneity. It is expected with this fund to build a portal to the new clubhouse, with an inscription to Mme. Severance over the door.

The club voted unanimously to join with other organizations in plans to stabilize the foodstuff market and to issue a price list of maximum prices for both necessities and luxuries.

The luncheon speakers were Mrs. Carter H. Harrison of Chicago, who spoke on "Women's Clubs of the Middle West;" Miss Hellen Mooser, who is general manager of the Children's Theater, now presenting "Rackety-Packety House," and Mrs. Morrill Hamlin whose subject was "Italian Politics."

REALTY OPERATOR DIES.

F. B. Walker was Christian Pastor Before Coming to Hollywood.

F. B. Walker, for a number of years a realty operator in Hollywood, died yesterday morning at his home, 1809 Canyon drive, following an illness of two weeks. He was a member of the firm of Walker and Canady.

Mr. Walker came here from the East fifteen years ago. He was a minister in the Christian Church in Iowa City, Cincinnati, and Winchester, Ky. Upon his arrival in this city he entered the realty business. He was 62 years of age and leaves one daughter, Miss Ruth Walker.

Funeral services will be held Monday in the First Christian Church of Hollywood.

SUPERVISORS FAIL TO PASS ON SUBDIVISIONS.

A report from the City Engineer was placed before the City Council yesterday, pointing out that, while the City Council has observed the provisions of the State law which requires it, jointly with the County Supervisors, to approve the maps for subdivisions lying outside the municipality, but within a three-mile limit of the city boundaries, the Board of Supervisors has failed to act on a long series of such subdivisions.

The list of such subdivisions was submitted and referred to the City Attorney to undertake to secure action by the Board of Supervisors.

WANT TROLLEY CROSSING.

Property owners of Second avenue and vicinity yesterday petitioned the City Council to take action to secure the opening of this avenue across the Pacific Electric tracks. It was stated that this avenue is more than two miles in length and is well built up, and that the lack of a crossing over the railway tracks is proving a constant source of inconvenience and loss of time. The petition was referred to the Public Works Committee.

Don't Experiment with Catarrh Often Leads to Dread Consumption

You Will Never Be Cured by Local Treatment With Sprays.

Catarrh is a condition of the blood and cannot be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Though Catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more [illegible] and finally reaches the lungs, and everyone knows the alarming conditions when the lungs are affected. Catarrh may be the forerunner of the most dreaded [illegible] diseases, consumption.

No local treatment can give permanent relief. Remember this, that S.S.S. is the only remedy that attacks the disease through the blood, and produces permanent results in even the most stubborn cases of catarrh. Catarrh sufferers can get S.S.S. at any drug store. It is a thoroughly reliable remedy, sold by all druggists. If you desire special advice, write to the Medical Director, and he will give you expert advice regarding your own case, without charge. Address Swift Specific Co., 164 Swift Building, Atlanta, Ga.
